The Great Depression in America [2 volumes]
Andrews McMeel

Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z

reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar,

and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. Sample entries: A&W Root Beer; Advertising; Automobiles; Ben & Jerry's; Burger King; Carhops; Center for Science in the Public Interest; Christmas; Cola Wars; Employment; Fair Food; Fast Food Nation; Hershey, Milton; Hollywood; Injury; Krispy Kreme; Lobbying; Nabisco; Obesity; PepsiCo; Salt; Soda Fountain; Teen Hangouts; Vegetarianism; White Castle; Yum! Brands, Inc. *History of Soy milk and Other Non-Dairy Milks (1226-2013)* Christian Faith Publishing, Inc. The world's most comprehensive, well documented, and well illustrated book on this subject. History Lessons traces Dan Lynn Watts journey through childhood in New York during the McCarthy era. He marched on May Day with his war hero father and activist mother, chanting We dont want another war! and Jim Crow must go! At camp, he sang about world peace, freedom, and workers rights. At school, he attempted to hide his familys politics. He takes you inside family struggles against racism and political repression. Disillusioned with communism by the 1960s, he became a civil rights and antiwar activist. Hachette Books

After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. "We cannot change the cards we are dealt, just how we play the hand." —Randy Pausch

A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they

speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have . . . and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Soyinfo Center Perhaps you too have experienced the nausea brought on by the arrival of an invitation to a high school reunion. Bookstore clerk and culture junker Verity Presti will soon attend her fifteenth reunion with her boyfriend, the unfortunately but aptly named Charlie Brown, who lives with his parents while training to be an urban shaman—a modern-day medicine man somewhat capable of exorcising ghosts from apartments and cubicles, predicting baseball scores, and channeling lost pets. Verity, angst-ridden and burdened with fifteen years of magnificent failure, will be

reunited with Craig and Carolyn, sickeningly perfect high school sweethearts, married now and perfectly sick of each other; Verity's former crush Stan and his wife, Laurel, a frustrated author of angry haikus; and Will, a rage-aholic KJ (that's "karaoke jockey") whose only soft spot is the one he still has for Verity. A growing anxiety permeates the round of cocktail parties that precedes the reunion, causing old affections and animosities to boil over and threaten the dubious complacency of these seven lovable losers. With her trademark sarcasm and uncanny ability to skewer the oddities of contemporary hipster life, Stella has created a cast of endearingly eccentric characters who embody the insecurities and foibles that all of us—former prom desperados, band nerds, the burnout brigade, and loner stiffs—have and hope nobody else will notice.
