**A Century of Denial** Free Press

Animation: Genre and Authorship explores the distinctive language of animation, its production processes, and the particular questions about who makes it, under what conditions, and with what purpose. In this first study to look specifically at the ways in which animation displays unique models of 'auteurism' and how it revises generic categories, Paul Wells challenges the prominence of live-action moviemaking as the first form of contemporary cinema and visual culture. The book also includes interviews with Ray Harryhausen and Caroline Leaf, and a full timeline of the history of animation.

[Alternative Media Meets Mainstream Politics](#) St. Martin's Press

The essential, bestselling book that first defined President Donald Trump's political ideas. The America We Deserve is the essential book for anyone who wants to understand the core of Donald Trump's political thinking. In this book, written as he first considered running for president in 2000,

Trump offers no-nonsense, populist, provocative, and dramatic solutions to issues that continue to resonate with voters today. In this book, Trump lays out a vision for America that is strong, optimistic, and founded on core Republican principles of self-reliance, limited governance, economic growth, and equitable taxation. Striking for its similarities to President Trump's current initiatives--but also fascinating in its differences--The America We Deserve reveals a man who is fully engaged with the nation and cares deeply about its future. Readers and voters will discover Trump's ideas on: \*Foreign policy and relations with China, Russia, North Korea, and Israel \*How to fix our broken and underperforming education system \*Reducing regulations on business to help create jobs and economic growth \*A dramatic one-time tax on the super-wealthy to close the national debt and fuel tax cuts for the middle class \*Immigration, crime, terrorism, and more The America We Deserve is essential reading for Trump-watchers, voters, Republicans, Democrats, and anyone interested in how Trump the businessman became Trump the president.

*Tell the Truth & Shame the Devil* Millbrook Press

This volume examines the rising role that alternative media play in contemporary mainstream political communication. The book focuses on three primary sites where such media have

established growing influence in recent years: political parties, mainstream political news, and participatory media that allow for engagement.

[The Vanishing American Adult](#) Twelve

The official report from the House Intelligence Committee on Donald Trump's secret pressure campaign against Ukraine, featuring an exclusive introduction by Pulitzer Prize-winning author and biographer Jon Meacham For only the fourth time in American history, the House of Representatives has conducted an impeachment inquiry into a sitting United States president. This landmark document details the findings of the House Intelligence Committee's historic investigation of whether President Donald J. Trump committed impeachable offenses when he sought to have Ukraine announce investigations of former vice president Joe Biden and his son Hunter. Penetrating a dense web of connected activity by the president, his ambassador Gordon Sondland, his personal attorney Rudolph Giuliani, and many others, these pages offer a damning, blow-by-blow account of the president's attempts to "use the powers of his office to solicit foreign interference on his behalf in the 2020 election" and his subsequent attempts to obstruct the House investigation into his actions. Published here with an introduction offering critical context from

bestselling presidential historian Jon Meacham, *The Impeachment Report* is necessary reading for every American concerned about the fate of our democracy.

[Congressional Record](#) University Press of Kansas

The *Congressional Record* is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The *Congressional Record* began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

Boice, Duggan, Ferguson, Godfrey, Horton, Mohler, Veith, and Wells call for a renewed commitment to the central truths of the Reformation and historic evangelicalism.

**Picking Federal Judges** HarperCollins

In a nation whose debt has outgrown the size of its entire economy, the greatest threat comes not from any foreign force but from Washington politicians who refuse to relinquish the intoxicating power to borrow and spend. Senator Tom Coburn reveals the fascinating, maddening story of how we got to this point of fiscal crisis—and how we can escape. Long before America’s recent economic downturn, beltway politicians knew the U.S. was going bankrupt. Yet even after several so-called “change” elections, the government has continued its wasteful ways in the face of imminent danger. With passion and clarity, Coburn explains why Washington resists change so fiercely and offers controversial yet commonsense solutions to secure the nation’s future. At a time when millions of Americans are speculating about what is broken in Washington, *The Debt Bomb* is a candid, thoughtful, non-partisan exposé of the real problems inside our government. Coburn challenges the conventional wisdom that blames lobbyists, gridlock, and obstructionism, and places the responsibility squarely where it belongs: on members of Congress in both parties who won’t let go of the perks of power to serve the true interests of the nation—unless enough citizens take bold steps to demand action. “Democracy never lasts long. It soon wastes, exhausts, and murders itself. There was never a democracy yet that did not commit suicide.” —John Adams Throughout a distinguished career as a business owner, physician, and U.S. senator, Tom Coburn has watched his beloved republic careen down a suicidal path. Today, the nation stands on the precipice of financial ruin, a disaster far more dangerous to our safety than any terrorist threats we face. Yet Coburn believes there is still hope—if enough Americans are willing to shake the corridors of Washington and demand action. With an insider’s keen eye and a caregiver’s deft touch, Coburn diagnoses the mess that career politicians have made of things while misusing their sacred charge to govern. Coburn’s incisive analysis: Reveals the root causes of America’s escalating financial crisis Exposes Washington’s destructive appetite for wasteful spending, power grabs, backroom deals, and quick non-fixes Rises above partisanship to implicate elected officials of all stripes in steering the nation off course Lays out a commonsense guide to restoring order Concludes with a clarion call and sound advice for Americans who would dedicate themselves to defusing the debt bomb Above all, Coburn believes the United States can continue as a beacon of opportunity for future generations—but how we act today will determine whether we deliver the nation to our children and grandchildren fully alive, on life support, or without a pulse.

*When the Center Held* St. Martin's Griffin

"A powerful argument against idealizing the F.B.I. and overlooking its troubling record for the sake of short-term political convenience." —The New York Times Book Review A former FBI undercover agent and whistleblower gives us a riveting and troubling account of the contemporary FBI—essential reading for our times Impressively researched and eloquently argued, former special agent Mike German's *Disrupt, Discredit, and Divide* tells the story of the transformation of the FBI after the 9/11 attacks from a law enforcement agency, made famous by prosecuting organized crime and corruption in business and government, into arguably the most secretive domestic intelligence agency America has ever seen. German shows how FBI leaders exploited the fear of terrorism in the aftermath of 9/11 to shed the legal constraints imposed on them in the 1970s in the wake of Hoover-era civil rights abuses. Empowered by the Patriot Act and new investigative guidelines, the bureau resurrected a discredited theory of terrorist "radicalization" and adopted a "disruption strategy" that targeted Muslims, foreigners, and communities of color, and tarred

dissidents inside and outside the bureau as security threats, dividing American communities against one another. By prioritizing its national security missions over its law enforcement mission, the FBI undermined public confidence in justice and the rule of law. Its failure to include racist, anti-Semitic, Islamophobic, and xenophobic violence committed by white nationalists within its counterterrorism mandate only increased the perception that the FBI was protecting the powerful at the expense of the powerless. *Disrupt, Discredit, and Divide* is an engaging and unsettling contemporary history of the FBI and a bold call for reform, told by a longtime counterterrorism undercover agent who has become a widely admired whistleblower and a critic for civil liberties and accountable government.

[Prey](#) Columbia University Press

Scholars and citizens alike have endlessly debated the proper limits of presidential action within our democracy. In this revised and expanded edition, noted scholar Phillip Cooper offers a cogent guide to these powers and shows how presidents from George Washington to Barack Obama have used and abused them in trying to realize their visions for the nation. As Cooper reveals, there has been virtually no significant policy area or level of government left untouched by the application of these presidential “power tools.” Whether seeking to regulate the economy, committing troops to battle without a congressional declaration of war, or blocking commercial access to federal lands, presidents have wielded these powers to achieve their goals, often in ways that seem to fly in the face of true representative government. Cooper defines the different forms these powers take—executive orders, presidential memoranda, proclamations, national security directives, and signing statements—demonstrates their uses, critiques their strengths and dangers, and shows how they have changed over time. Cooper calls on events in American history with which we are all familiar but whose implications may have escaped us. Examples of executive action include, Washington’s “Neutrality Proclamation”; Lincoln’s Emancipation Proclamation; the more than 1,700 executive orders issued by Woodrow Wilson in World War I; FDR also issued the order to incarcerate Japanese Americans during World War II; Truman’s orders to desegregate the military; Eisenhower’s numerous national security directives. JFK’s order to control racial violence in Alabama. As Cooper demonstrates in his balanced treatment of these and subsequent presidencies, each successive administration finds new ways of using these tools to achieve policy goals—especially those goals they know they are unlikely to accomplish with the help of Congress. A key feature of the second edition are case studies on the post-9/11 evolution of presidential direct action in ways that have drawn little public attention. It clarifies the factors that make these policy tools so attractive to presidents and the consequences that can flow from their use and abuse in a post-9/11 environment. There is an important new chapter on “executive agreements” which, though they are not treaties within the meaning of the U.S. Constitution and not subject to Senate ratification, appear in many respects to be rapidly replacing treaties as instruments of foreign policy.

**WJP Rule of Law Index 2015** Simon and Schuster

American politician Alexandria Ocasio-Cortez is the youngest woman ever to serve in the US Congress. Learn about her young life, her work as an activist, and her career in the House of Representatives.

*A History of the Faculty of Arts at the University of Adelaide 1876-2012* Oxford University Press

Why are so few people talking about the eruption of sexual violence and harassment in Europe’s cities? No one in a position of power wants to admit that the problem is linked to the arrival of several million migrants—most of them young men—from Muslim-majority countries. In *Prey*, the best-selling author of *Infidel*, Ayaan Hirsi Ali, presents startling statistics, criminal cases and personal testimony. Among these facts: In 2014, sexual violence in Western Europe surged following a period of stability. In 2018 Germany, “offences against sexual self-determination” rose 36 percent from their 2014 rate; nearly two-fifths of the suspects were non-German. In Austria in 2017, asylum-seekers were suspects in 11 percent of all reported rapes and sexual harassment cases, despite making up less than 1 percent of the total population. This violence isn’t a figment of alt-right propaganda, Hirsi Ali insists, even if neo-Nazis exaggerate it. It’s a real problem that Europe—and the world—cannot continue to ignore. She explains why so many young Muslim men who arrive in Europe engage in sexual harassment and violence, tracing the roots of sexual violence in the Muslim world from institutionalized polygamy to the lack of legal and religious protections for women. A refugee herself, Hirsi Ali is not against immigration. As a child in Somalia, she suffered female genital mutilation; as a young girl in Saudi Arabia, she was made to feel acutely aware of her own vulnerability. Immigration, she argues, requires integration and

assimilation. She wants Europeans to reform their broken system—and for Americans to learn from European mistakes. If this doesn’t happen, the calls to exclude new Muslim migrants from Western countries will only grow louder. Deeply researched and featuring fresh and often shocking revelations, *Prey* uncovers a sexual assault and harassment crisis in Europe that is turning the clock on women’s rights much further back than the #MeToo movement is advancing it.

**The Impeachment Report** Simon and Schuster

How does a president choose the judges he appoints to the lower federal bench? In this analysis, a leading authority on lower federal court judicial selection tells the story of how nine presidents over a period of 56 years have chosen federal judges.

[Alexandria Ocasio-Cortez](#) The New Press

“A personal look behind the scenes” (Publishers Weekly) of the presidency of Gerald Ford as seen through the eyes of Donald Rumsfeld—New York Times bestselling author and Ford’s former Secretary of Defense, Chief of Staff, and longtime personal confidant. In the wake of Richard Nixon’s Watergate scandal, it seemed the United States was coming apart. America had experienced a decade of horrifying assassinations; the unprecedented resignation of first a vice president and then a president of the United States; intense cultural and social change; and a new mood of cynicism sweeping the country—a mood that, in some ways, lingers today. Into that divided atmosphere stepped an unexpected, unelected, and largely unknown American—Gerald R. Ford. In contrast to every other individual who had ever occupied the Oval Office, he had never appeared on any ballot either for the presidency or the vice presidency. Ford simply and humbly performed his duty to the best of his considerable ability. By the end of his 895 days as president, he would in fact have restored balance to our country, steadied the ship of state, and led his fellow Americans out of the national trauma of Watergate. And yet, Gerald Ford remains one of the least studied and least understood individuals to have held the office of the President of the United States. In turn, his legacy also remains severely underappreciated. In *When the Center Held*, Ford’s Secretary of Defense Donald Rumsfeld candidly shares his personal observations of the man himself, providing a sweeping examination of his crucial years in office. It is a rare and fascinating look behind the closed doors of the Oval Office, including never-before-seen photos, memos, and anecdotes, from a unique insider’s perspective—“engrossing and informative” (Kirkus Reviews) reading for any fan of presidential history.

*Serenity in the Storm* HarperCollins

A Wall Street Journal Bestseller As seen on Life, Liberty & Levin and Gutfeld! As heard on the Dan Bongino Show Kayleigh McEnany brings to life the key cultural and political issues of our time, from the fall of Afghanistan to the Supreme Court’s abortion decision, analyzing world events through the lens of faith and providing readers with *Serenity in the Storm*. Our world, without question, is experiencing aberrational times. The ravages and life-altering realities of COVID-19 that I worked through as White House press secretary were just the start of it. What followed was a series of history-defining events. From the fall of Afghanistan to the nationwide crime wave, we’ve all endured painful images of death, destruction, and chaos. Meanwhile, radical teachings on gender and race have infiltrated our nation’s schools, poisoning the minds of our children—all at a time when our country feels more divided than ever before. Along with these twenty-first century realities can come a feeling of despair and discouragement. Indeed, I hear it all the time as I crisscross the country: Americans feel disheartened and seek hope. *Serenity in the Storm* provides that hope. Despite the challenges we face, there is cause for great optimism for men and women of faith. In Afghanistan, the underground church is thriving. On the key issues of life and liberty, the Supreme Court of the United States has delivered enormous and consequential victories. In our schools, voters have spoken unmistakably against the insidious doctrines of critical race and gender theory. There is no doubt that God is at work as He hears the prayers of the faithful! Taking a similar format to my New York Times bestselling book, *For Such a Time as This*, I analyze our domestic and international challenges through the lens of faith. Though we have lived through dark times and unsettled waters, the storms we face have prompted many great leaders to rise to the moment and have left a yearning in the human heart for a Savior, Jesus Christ, who is walking alongside us every step of the way.

[Proceedings of the American Psychological Association](#) P & R Publishing

Based on once-secret government records and interviews with over 100 ex-CIA officers, *Blond Ghost* offers a fascinating portrait of Ted Shackley - a real-life George Smiley. It exposes the inner workings of the CIA and details the failure of the Agency’s most important covert enterprises. It reveals dozens of top-secret operations: how the CIA recruited children as agents in Vietnam: how

it encouraged perjury before Congress; how it paid off a suspected drug dealer; how it tried to use sex to blackmail communist officials; how it uncovered a Soviet-bloc spy in the German parliament; and more. Washington journalist David Corn discloses that for decades, the CIA's commitment to dirty tricks and secret wars compromised its ability to gather intelligence. Blond Ghost probes the CIA's Cold War record and shows that the Agency's efforts to penetrate the Iron Curtain in the 1950s were utterly unsuccessful, with an appalling and pointless loss of life: that the CIA tried to foment rebellion in Cuba, despite intelligence asserting no uprising was likely; that the CIA foisted on its Laotian allies unrealistic military operations that led to the death and displacement of tens of thousands of Laotians; that the CIA bungled miserably in Vietnam - ignoring intelligence collection for years and then suppressing information on the corruption and ineptness of the Saigon regime. Blond Ghost tells the tale of an important, decorated, and controversial spymaster, unveils the nitty-gritty of life in the Agency, and reveals the real job the CIA did in the Cold War.

*Impeach Springer*

Why President Trump has left us with no choice but to remove him from office, as explained by celebrated Supreme Court lawyer and former Acting Solicitor General Neal Katyal.

**How Democracies Die** Routledge

The incredible, harrowing account of how American democracy was hacked by Moscow as part of a covert operation to influence the U.S. election and help Donald Trump gain the presidency.

"Russian Roulette is...the most thorough and riveting account." -- The New York Times  
Russian Roulette is a story of political skullduggery unprecedented in American history. It weaves together

tales of international intrigue, cyber espionage, and superpower rivalry. After U.S.-Russia relations soured, as Vladimir Putin moved to reassert Russian strength on the global stage, Moscow trained its best hackers and trolls on U.S. political targets and exploited WikiLeaks to disseminate information that could affect the 2016 election. The Russians were wildly successful and the great break-in of 2016 was no "third-rate burglary." It was far more sophisticated and sinister -- a brazen act of political espionage designed to interfere with American democracy. At the end of the day, Trump, the candidate who pursued business deals in Russia, won. And millions of Americans were left wondering, what the hell happened? This story of high-tech spying and multiple political feuds is told against the backdrop of Trump's strange relationship with Putin and the curious ties between members of his inner circle -- including Paul Manafort and Michael Flynn -- and Russia. Russian Roulette chronicles and explores this bizarre scandal, explains the stakes, and answers one of the biggest questions in American politics: How and why did a foreign government infiltrate the country's political process and gain influence in Washington?

*Investigation of Misconduct and Mismanagement at ICITAP, OPDAT, and Criminal Division's Office of Administration* Thomas Nelson

The World Justice Project (WJP) joins efforts to produce reliable data on rule of law through the WJP Rule of Law Index 2016, the sixth report in an annual series, which measures rule of law based on the experiences and perceptions of the general public and in-country experts worldwide. We hope this annual publication, anchored in actual experiences, will help identify strengths and

weaknesses in each country under review and encourage policy choices that strengthen the rule of law. The WJP Rule of Law Index 2016 presents a portrait of the rule of law in each country by providing scores and rankings organized around eight factors: constraints on government powers, absence of corruption, open government, fundamental rights, order and security, regulatory enforcement, civil justice, and criminal justice. A ninth factor, informal justice, is measured but not included in aggregated scores and rankings. These factors are intended to reflect how people experience rule of law in everyday life. The country scores and rankings for the WJP Rule of Law Index 2016 are derived from more than 110,000 households and 2,700 expert surveys in 113 countries and jurisdictions. The Index is the world's most comprehensive data set of its kind and the only to rely solely on primary data, measuring a nation's adherence to the rule of law from the perspective of how ordinary people experience it. These features make the Index a powerful tool that can help identify strengths and weaknesses in each country, and help to inform policy debates, both within and across countries, that advance the rule of law.

*Who's who in the West* Crown

The Armenian Genocide is the only one of the genocides of the 20th century in which the nation that was decimated by genocide has been subjected to the ongoing outrage of a massive campaign of genocide denial, openly sustained by state authority. This campaign of genocide denial is a slap in the face to the Armenian people, preventing reconciliation and healing. As Pope Francis said so eloquently at his Mass marking the 100th anniversary of the genocide, quote, "Concealing or denying evil is like allowing a wound to keep bleeding without bandaging it."
