AA Book of the Car Passbooks
 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

George Gittoes defies categorisation as his life defies belief. One thing is certain: Gittoes is the greatest Australian hero working today and his epic story must be told. Equal parts artist and warrior, George is world-famous for waging war on war with art, circus, photography and film. "Soldiers die for flags. For me it is art," he says. George has been shot, stabbed, bombed, beaten, tortured, drowned and jailed. He has worked with Andy Warhol, dined with Fidel Castro, plotted with Julian Assange, been feted by Mandela, blessed by Mother Theresa, sneezed on by the Dalai Lama. *Blood Mystic* begins with George flying back to Jalalabad carrying a letter from the Taliban threatening to chop off his head and show the decapitation on live TV. George's mission is to film with street kids in the most dangerous city on earth - the Ghostbuster street exorcists, the Snow Monkey ice cream boys, the urchin girls and kuchi kids, the child gangsters with razor blades under their lips. As the danger grows, George reflects deeply on a life less ordinary - his boyhood being groomed as a gangster, his escape to New York, the Yellow House art revolutions, crazy brave adventures in outback Australia, ghetto America, jungle Nicaragua, war-torn Cambodia, badlands Baghdad, hollow Bosnia... and beyond. This is a specially formatted fixed layout ebook that retains the look and feel of the print book.

Paragraphs and Essays with Integrated Readings—the higher level of Lee Brandon's two-level series that also includes *Sentences, Paragraphs, and Beyond*—provides extensive writing instruction in a fun, engaging manner. Written in Lee Brandon's unique style and voice, the text incorporates coverage of reading, a three-stage writing process, and in-depth instruction on different essay patterns. The last chapter (Chapter 16) covers research writing; and a Handbook section provides grammar, mechanics, and punctuation review for students to brush up on their skills. New to this edition are 12 full-color photographs that provide writing prompts for student essays, a wide variety of brand-new readings, and new "Mindset" features that emphasize key concepts and point to additional exercises on the accompanying Online Study Center. Also new to this edition is Lee Brandon's co-

author, son Kelly Brandon, who also teaches developmental writing. Strong emphasis on the writing process covers three separate stages of writing. Three chapters cover the writing process in detail: the exploring, experimenting, and gathering information stage; writing the controlling idea, organizing, and developing support stage; and writing, revising, and editing. Engaging writing samples by both professionals and students are integrated throughout the text. This edition incorporates more examples of text-based writing and stresses the importance of locating and qualifying sources, as well as incorporating and documenting sources. Intriguing topics such as cheating on papers, low-wage jobs, flirting, and the dangers of steroids, engage students' interest; paired readings in several chapters encourage critical thinking about the pros and cons of an issue. New! Writing across the disciplines and in the workplace is emphasized in every chapter. Every chapter begins with a consideration of how a particular type of writing can be helpful in college courses across the curriculum, as well as in the workplace. New! Application exercises are now linked with four-color photographs to provide critical thinking opportunities as well as writing prompts. These Application exercises can be used for individual or group consideration and discussion, or assigned as essay topics. The effective pedagogy includes a number of student exercises in every chapter for immediate review of chapter concepts; writing process worksheets to help students develop their essays; many annotated readings; and suggested writing topics. New to this edition are special features that point students to the Online Study Center, which contains self-study quizzes with immediate feedback and rejoinders for every chapter and "Mindset" features that provide additional questions and suggestions before many of the readings. A handbook of grammar, mechanics, and punctuation helps students refresh their understanding of parts of speech, sentence structure, and mechanics such as spelling and punctuation. Also included in the handbook is a brief guide for ESL students, with additional information on subjects such as idioms.

A best seller in France, and already translated into Spanish, Italian, Greek, and Korean, Herv Kempf's "How the Rich Are Destroying the Earth" now appears in its first English edition. Bringing to bear more than twenty years of experience as an environmental journalist, Kempf describes the invincibility that many of the world's wealthy feel in the face of global warming, and how their unchecked privilege is thwarting action on the single most vexing problem facing our world. In this important primer on the link between global ecology and the global economy, Kempf makes the following observations: First, that the planet's ecological situation is growing ever worse, despite the efforts of millions of engaged citizens around the world. And second, despite environmentalists' emphasis that "we're all in the same boat," the world's economic elites—who continue to benefit by plundering the environment—have access to "lifeboats" that insulate them from the resulting catastrophes. Societies have not been able to effectively combat the expanding ecological crisis because it is intimately linked to the social crisis in which the ruling form of capitalism has been organized to impede democratic initiatives. This link explains the failure to make progress against the greatest emergency of our time, because in this relationship the oligarchy plays an essential and destructive role. For this reason, solving the ecological crisis depends on disrupting the power of the world's elite. We cannot understand the entwined ecological and social crises, Kempf argues, if we don't see them as the two sides of the same disaster—a disaster that comes from a system piloted by a dominant social strata that has no drive other than greed, no ideal other than conservatism, no dream other than technology. But Kempf also calls for measured optimism: "Despite the scale of the challenges that await us, solutions are emerging and—faced with the sinister prospects the oligarchs promote—the desire to remake the world is being reborn."
