The English and Their History

Press

Change - sometimes gentle and subtle, sometimes shocking and violent - is the dynamic of Simon Schama's unapologetically personal and grippingly written history of Britain, especially the changes that wash over custom and habit, transforming our loyalties. What makes or breaks a nation? To whom do we give our allegiance and why? And where do the boundaries of our community lie - in our hearth and home, our village or city, tribe or faith? What is Britain - one country or many? Has British history unfolded 'at the edge of the world' or right at the heart of it? Schama delivers these themes in a form that is at once traditional and excitingly fresh. The great and the wicked are here - Becket and Thomas Cromwell, Robert the Bruce and Anne Boleyn - but so are countless more ordinary lives: an Irish monk waiting for the plague to kill him in his cell at Kilkenny; a small boy running through the streets of London to catch a glimpse of Elizabeth I. The first in a series, this volume paints a rich and vivid portrait of the life of the British people and their nation.

British History Usborne Publishing Limited

Discover the pivotal political, military, and cultural events that shaped British and Irish history, from Stone Age Britain to the present day, in this revised and updated ebook. Combining over 700 photographs, maps, and artworks with accessible text, the History of Britain and Ireland is an invaluable resource for families, students, and anyone seeking to learn more about the fascinating story of the England, Scotland, Wales, and Ireland. Spanning six distinct periods of British and Irish history, this ebook is the best way to find out how Britain transformed with the Norman rule,

fought two world wars in the 20th century, and faced new economic challenges in the 21st century. DK's visual guide places key figures - from Alfred the Great to Winston Churchill - and major events - from Roman invasion to the Battle of Britain - in their wider context, making it easier than ever before to learn how they influenced Britain and Ireland's development through the age of empire into the modern era.

A History of Britain Cambridge University Press

From the bestselling author of *A History of the World in 21 Women They were famous queens, unrecognised visionaries, great artists and trailblazing politicians. They all pushed back boundaries and revolutionised our world.* Jenni Murray presents the history of Britain as you've never seen it before, through the lives of twenty-one women who refused to succumb to the established laws of society, whose lives embodied hope and change, and who still have the power to inspire us today.

The History of England from the Invasion of Julius Caesar, to the Revolution in 1688 Routledge

Respected Christian educator, Dr. James Stobaugh, offers an entire year of high school British history curriculum in an easy to teach and comprehensive volume. *British History: Observations & Assessments from Early Cultures to Today* employs clear objectives and challenging assignments for the eleventh grade student without revisionist or anti-Christian perspectives. From before the Anglo-Saxon invasions to the end of an empire, British history trends, philosophies, and events are thoroughly explored. The following components are covered for the student: Critical thinking - Examinations of

historical theories, terms, and concepts - History makers who changed the course of Britain's history - Overviews and insights into world views. Students will complete this course knowing the rise of the British empire that influenced nearly every corner of the earth!

Volume III of The Official History of Britain and the European Community covers the divisions over Europe of the Labour Government (1975-79) and the controversies surrounding Britain's relations with her EEC partners under Margaret Thatcher. As the UK prepares to leave the European Union, this book is the story of the stresses, quarrels, compromises and ambitions which contributed to an unhappy relationship between the United Kingdom and her European partners. Immediately after the 1975 referendum, when the British people voted by a large majority to stay in the European Community, the divisions in the Labour Party over Europe, which had caused the referendum in the first place, resurfaced as if nothing had changed. They dogged the beleaguered Government of James Callaghan and contributed to the defeat of the Labour Party in the General

Election of 1979. Margaret Thatcher proclaimed herself a pro-European Prime Minister but her premiership, too, was governed by a succession of crises in Britain's relations with her partners as Thatcher fought to redress the unfair budget deal Britain had been forced to accept on accession, and then to secure her vision of a reformed, outward-looking, economically liberal Europe.

This is also the story of personal relationships between Thatcher and the successive leaders of Germany, France and the United States. It is told through the contemporary accounts of the period, in the words, ideas and emotions of politicians and officials at the heart of Government. This work will be of much interest to students of British politics, European Union history, diplomacy and International Relations in general.

The Cambridge Urban History of Britain Stacey International Publishers

"Based on the most current scholarship concerning gender, race, ethnicity, and empire, this 15-chapter textbook comprehensively examines the development of and contestations against a British identity among the constituent parts of the United Kingdom since 1688. It takes seriously the role of Scotland, Wales, and Ireland in this process, and brings Britain's imperial subjects and lands into the narrative, showing how integral empire was to the UK's historical development. It examines the role environmental factors in economic development and their impact on the health and welfare of British citizens and subjects; and it uses gender, in particular, to illuminate power dynamics across a variety of settings. All this in a manageable length"--Provided by publisher.

A History of Britain Random House
 A History of Britain Penguin
 'While Britain was losing an empire, it was finding itself...' The compelling opening words to *The Fate of the Empire*, set the tone and agenda for the final stage of Simon Schama's epic voyage around Britain, her people and her past. Spanning two centuries, crossing the breadth of the empire and covering a vast expanse of topics - from the birth of feminism to the fate of freedom - he explores the forces that shaped British culture and character from 1776 to 2000. The story opens on the eve of a bloody revolution, but not a British one. The French Revolution never quite crossed the Channel, though its spirit of fiery defiance and Romantic idealism did, sparking off a round of radical revolts and reforms that gathered momentum over the coming century - from the Irish Rebellion to the Chartist Petition. The great question of the Victorian century was how the world's first industrial society could come through its growing pains without falling apart in social and political conflict. Would the machine age destroy or strengthen the institutions that held Britain together, from the family to the farm? And if the British Empire helped to make Britain stable and rich, did it live up to its promise to help the ruled as well as the rulers? On the way to answering these questions, *The Fate of the Empire* makes stops at both celebrations, like the Great Exhibition, and catastrophes, like the Irish potato famine and the Indian Mutiny. Amidst the military and economic shocks and traumas of the 20th century, and through the voices of Churchill, Orwell and H. G. Wells, it asks the question that is still with us - is the immense weight of our history a blessing or a curse, a gift or

a millstone around the neck of our future? It is a vast compelling epic, made more so by the lively storytelling and big bold characters at the heart of the action. But alongside flamboyant heroes, like Nelson and Churchill, Schama recalls unsung heroines and virtually unknown enemies. Alongside the grand ideas, he exposes the grand illusions that cost untold lives. Schama looks head on at the facts and asks, 'What went wrong with the liberal dream?' The answers emerge in *The Fate of the Empire*, which reveals the living ideals of Britain's long history, 'a history that tied together social justice with bloody-minded liberty'.

The Story of Britain History of Britain Examines social, economic, and political forces and events that contributed to the shaping of the modern nation

A History of England from the Landing of Julius Caesar to the Present Day St. Martin's Griffin

A journey through the events of the postwar years that "makes the outcome of Britain's Brexit referendum much easier to comprehend" (Julian Lewis, member of Parliament). In 2016, Britain stunned itself and the world by voting to pull out of the European Union, leaving financial markets reeling and global politicians and citizens in shock. But was Brexit really a surprise, or are there clues in Britain's history that pointed to this moment? In *A History of Britain: 1945 to Brexit*, award-winning historian Jeremy Black reexamines modern British history, considering the social changes, economic strains, and cultural and political upheavals that brought Britain to Brexit. This sweeping and engaging book traces Britain's path through the destruction left behind by World War II, Thatcherism, the threats of the IRA, the Scottish referendum, and on to the

impact of waves of immigrants from the European Union. Along the way, Black overturns many conventional interpretations of significant historical events, provides context for current developments, and encourages the reader to question why we think the way we do about Britain's past.

1066 and All that Random House (UK)

This is a short history of the political life of this island over a very long period, showing how history can speak clearly to current political debates.

A People's History Of Britain Random House

A Brief History of Great Britain narrates the history of Great Britain from the earliest times to the 21st century, covering the entire island England, Wales, and Scotland as well as associated archipelagos such as the Channel Islands, the Orkneys, and Ireland as they have influenced British history. The central story of this volume is the development of the British kingdom, including its rise and decline on the world stage. The book is built around a clear chronological political narrative while incorporating treatment of social, economic, and religious issues. Coverage includes: Early Settlements, Celts, and Romans Anglo-Saxons, Scots, and Vikings Scotland, England, and Wales Britain in the Late Middle Ages The Making of Protestant Britain Industry and Conquest Britain in the Age of Empire An Age of Crisis The Age of Consensus A House Divided.

Presents an overview of the history of England from the Saxons to today and provides lists of kings and queens with the date of they ruled, prime ministers, and one hundred key dates in the nation's history.

The Magical History of Britain Oxford

University Press

THE CLASSIC HISTORY OF BRITAIN,

FULLY UPDATED Roy Strong has written an exemplary introduction to the history of Britain, as first designated by the Romans. It is a brilliant and balanced account of successive ages bound together by a compelling narrative which answers the questions: 'Where do we come from?' and 'Where are we going?' Beginning with the earliest recorded Celtic times, and ending with the present day of Brexit Britain, it is a remarkable achievement. With his passion, enthusiasm and wide-ranging knowledge, he is the ideal narrator. His book should be read by anyone, anywhere, who cares about Britain's national past, national identity and national prospects.

The Cambridge History of the Book in Britain Cambridge University Press

A New York Times 2016 Notable Book

Robert Tombs's momentous *The English and Their History* is both a startlingly fresh and a uniquely inclusive account of the people who have a claim to be the oldest nation in the world. The English first came into existence as an idea, before they had a common ruler and before the country they lived in even had a name. They have lasted as a recognizable entity ever since, and their defining national institutions can be traced back to the earliest years of their history. The English have come a long way from those first precarious days of invasion and conquest, with many spectacular changes of fortune. Their political, economic and cultural contacts have left traces for good and ill across the world. This book describes their history and its meanings from their beginnings in the monasteries of Northumbria and the wetlands of Wessex to the cosmopolitan energy of

today's England. Robert Tombs draws out important threads running through the story, including participatory government, language, law, religion, the land and the sea, and ever-changing relations with other peoples. Not the least of these connections are the ways the English have understood their own history, have argued about it, forgotten it and yet been shaped by it. These diverse and sometimes conflicting understandings are an inherent part of their identity. Rather to their surprise, as ties within the United Kingdom loosen, the English are suddenly embarking on a new chapter. *The English and Their History*, the first single-volume work on this scale for more than half a century, and which incorporates a wealth of recent scholarship, presents a challenging modern account of this immense and continuing story, bringing out the strength and resilience of English

government, the deep patterns of division and also the persistent capacity to come together in the face of danger.

The Oxford Illustrated History of Britain Vintage

This lift-the-flap book for older children covers life in Britain from Anglo-Saxon invasions to the 21st century.

A Short History of England Random House

The Reader's Guide to British History is the essential source to secondary material on British history. This resource contains over 1,000 A-Z entries on the history of Britain, from ancient and Roman Britain to the present day. Each entry lists 6-12 of the best-known books on the subject, then discusses those works in an essay of 800 to 1,000 words prepared by an expert in the field. The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication.
