Here is the captivating story of humankind's enduring quest to build a better language—and overcome the curse of Babel. Just about everyone has heard of Esperanto, which was

nothing less than one man's attempt to bring about world peace by means of linguistic solidarity. And every Star Trek fan knows about Klingon. But few people have heard of Babm, Blissymbolics, Loglan (not to be confused with Lojban), and the nearly nine hundred other invented languages that represent the hard work, high hopes, and full-blown delusions of so many misguided souls over the centuries. With intelligence and humor, Arika Okrent has written a

truly original and enlightening book for all word freaks, grammar geeks, and plain old language lovers.

This book provides a detailed study and a novel Minimalist account of copular sentences in Russian, focusing on case marking alternations (nominative vs. instrumental) and drawing

a distinction between two types of copular sentences. On the assumption that Merge is defined in the simplest way possible, it is argued that not all syntactic structures are a(nti)symmetrical. One of the copular sentence types is analyzed as a poster child for symmetrical structures, while the other type is treated as asymmetrical. The originality of this study lies in treating the copula in the two types of copular sentences neither as completely identical

nor as two distinct lexical items; instead, the two types of copula are derived through the process of semantic bleaching. Furthermore, it is argued that the two types of the copula need to combine with post-copular phrases of different categories. It is concluded that Russian draws a distinction between saturated DPs and unsaturated NPs, in spite of its renowned lack of overt articles.

Code Gray is a

“provocative and meaningful” (Theresa Brown, New York Times bestselling author of *Healing*) narrative-driven medical memoir that places you directly in the crucible of urgent life-or-death decision-making, offering insights that can help us cope at a time when the world around us appears to be falling apart. In the tradition of books by such bestselling physician-authors as Atul Gawande, Siddhartha Mukherjee, and Danielle Ofri, this beautifully written memoir by an

emergency room doctor revolves around one of his routine shifts at an urban ER. Intimately narrated as it follows the experiences of real patients, it is filled with fascinating, adrenaline-pumping scenes of rescues and deaths, and the critical, often excruciating follow-through in caring for patients’ families. Centered on the riveting story of a seemingly healthy forty-three-year-old woman who arrives in the ER in sudden cardiac arrest, *Code Gray* weaves in stories that explore

everything from the early days of the Covid outbreak to the perennial glaring inequities of our healthcare system. It offers an unforgettable, “discomfiting, and often bracing” (Bloomberg Businessweek) portrait of challenges so profound, powerful, and extreme that normal ethical and medical frameworks prove inadequate. By inviting you to experience what it is like to shift in the ER from a physician’s perspective, we are forced to test our beliefs and principles. Often,

there are no clear answers to these challenges posed in the ER. You are left feeling unsettled, but through this process, we can appreciate just how complicated, emotional, unpredictable—and yet strikingly beautiful—life can be.

It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study

and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks

-shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to

have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of

the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more. [Tales from the Masnavi](#) Cambridge University

The Masnavi of Jalal al-Din Rumi (1207-1273), a massive poem of some 25,000 rhyming couplets, by common consent ranks among the world's greatest masterpieces of religious literature. The material which makes up the Masnavi is divisible into two different categories: theoretical discussion of the principal themes of Sufi mystical life and doctrine, and stories of fables intended to illustrate those themes as they arise. This selection of tales is the

Pretty Woman meets the Bridgertons in this witty, vivacious historical take on 90s romcoms by USA Today bestselling author Amalie Howard. Lord Lysander Blackstone, the stern Duke of Montcroix, has only one interest: increasing his considerable fortune.

After a series of betrayals, he keeps his emotions buried deep. Money, after all, can't break a man's heart—or make promises it can't keep. But when his reputation for being heartless jeopardizes a new business deal, he finds himself seeking a most unusual—and alluring—solution . . . Once an up-and-coming ballerina, Miss Geneviève Valery is now hopelessly out of work. After refusing to become a wealthy patron's mistress, Nève was promptly shown the door to the streets. When

she accidentally saves the life of a handsome duke, she doubts the encounter will go any better than her last brush with nobility. But instead of propositioning her, Montcroix makes Nève an offer she would be a fool to refuse: act as his fake fiancée in exchange for fortune enough to start over. Only neither is prepared when very real feelings begin to grow between them. They both stand to win . . . but only if they're willing to risk their hearts.
