Raw Food Made Easy for 1 Or 2 People Dogwise Publishing

In this newly revised edition of her no-cook classic, raw-food chef and instructor Jennifer Cornbleet continues her mission to offer tasty meals, snacks, and desserts made with basic kitchen equipment and everyday ingredients. What sets her recipes apart from the pack is not only rich flavors and ease of preparation, but also solo- or duo-sized portions that don't overwhelm and ensure freshness and quality at every meal. Along with favorites from the first edition, Jennifer has added 50 new recipes, including more fruit dishes, salads, and salad dressings, and an innovative collection of green smoothies based on nutritionally power-packed greens and fruit. To help with the challenge of a hectic 21st century lifestyle, readers will find added tips for eating on the go and making smart choices for between-meal snacks. Since preparing ingredients in advance is the key to making quick and easy meals, Jennifer shares her secrets for having essential raw foods ready and waiting so anyone can make breakfast, lunch, or dinner in a flash, or quickly put together a

midnight snack.

The Barf Diet FoodNSport

Did you know that a quarter of all the meat consumed in the United States is eaten by our pets? That's the equivalent to the amount devoured by 26 million Americans, and it makes U.S. cats and dogs equal to the fifth largest country in terms of animal protein consumption. Yet the impact pet food has on the environment and climate change, how healthy or necessary it is for our animal companions, or how it impacts the welfare of the farmed animals who become that food are barely known or ignored--even by animal lovers! The Clean Pet Food Revolution lifts the lid on the current pet food industry: its claims of what constitutes a "natural" diet for pets, its shocking record on animal welfare, and its devastating effect on the environment and climate change. The book explodes myths about "grain-free" diets, protein intake, and what our pets "want." Finally, it details the many exciting scientific developments in alternative proteins--whether from plants, fungi, insects, or cell-based meat products--that promise not only to completely change what we feed our cats and dogs but to reduce greenhouse gas emissions, end farmed-animal slaughter, and make our pets healthier. Written by specialists in veterinary science, biotech, and animal welfare, The

Clean Pet Food Revolution is a thoroughly researched and compellingly written excoriation of an unsustainable present and a fascinating glimpse of future possibilities.

Feeding Dogs Dry Or Raw? The Science Behind The Debate Lantern Books

Human nutrition expert and author of the critically acclaimed *What to Eat*, Marion Nestle, Ph.D., M.P.H., has joined forces with Malden C. Nesheim, Ph.D., a Cornell animal nutrition expert, to write *Feed Your Pet Right*, the first complete, research-based guide to selecting the best, most healthful foods for your cat or dog. Human nutrition expert and author of the critically acclaimed *What to Eat*, Marion Nestle, Ph.D., M.P.H., has joined forces with Malden C. Nesheim, Ph.D., a Cornell animal nutrition expert, to write *Feed Your Pet Right*, the first complete, research-based guide to selecting the best, most healthful foods for your cat or dog. A comprehensive and objective look at the science behind pet food, it tells a fascinating story while evaluating the range of products available and examining the booming pet food industry and its marketing practices. Drs. Nestle and Nesheim also present the results of their unique research into this sometimes secretive industry. Through conversations with pet food manufacturers and firsthand observations, they reveal how some companies have refused to answer questions or permit visits. The authors also analyze food products, basic ingredients, sources of ingredients, and the optimal ways to feed companion animals. In this engaging narrative, they explain how ethical considerations affect pet food research and product development, how pet foods are regulated, and how companies influence veterinary training and advice. They conclude with specific recommendations for pet owners, the pet food industry, and regulators. A road map to the most nutritious diets for cats and dogs, *Feed Your Pet Right* is sure to be a reference classic to which all pet owners will turn for years to come.

"Writing in a playful and upbeat fashion, Day guides her readers through a day-by-day approach to living vegan... For those interested in becoming acquainted with "the vegan way," this book marvelously succeeds." - Publishers Weekly "I only wish I had had this book decades ago!" - Moby "This goes well beyond diet ... This book is a comprehensive guide to anyone looking to switch to a plant-based life." - Booklist "The Vegan Way is like having a friendly non-judgmental vegan friend by your side to help you every step of the way as you blossom into a happier, healthier being. So inspiring!" - Pamela Anderson *The Vegan Way* is a book filled with everything Jackie Day has learned as a happy vegan, a health educator, and author of the popular vegan blog, *My Vegan Journal*. A lifestyle guide that's a real game-changer, *The Vegan Way* is for those who are intimidated by going vegan overnight, but don't want the transition to stretch out for months or even years. In a 21 day plan that emphasizes three core reasons for going vegan—being as healthy as you can be, being compassionate to animals, and respecting our planet—Jackie

provides inspiration along with a specific goal to achieve with all of the support you need to accomplish it. It might be something as simple as switching out your coffee creamer for vanilla almond milk or kicking the cheese habit. Readers will learn where to dine and what to order when eating out, the most vegan-friendly places to visit, how to avoid clothing made from animals, and how to decipher those pesky ingredients lists. And throughout, Jackie will be providing glimpses into the finer points of vegan living, giving readers something to aspire to as they get past *Vegan 101*. Readers will also find a handful of easy and delicious recipes sprinkled throughout. *The Vegan Way* is a road map that puts positive thoughts about health, the environment, and animals into action, transforming your life into a vibrant, healthy, and compassionate one.

Give Your Dog a Bone Da Capo Lifelong Books

Choosing the right dog food in a world with too many choices

Walking down the dog food aisle in a pet supply superstore can present you with an overwhelming number of choices. Reading about dog food on the internet can make your head spin with so many opinions and stories. And judging the content that you find on dog food packaging can be confusing and misleading. How can the average dog owner make an informed choice in accordance with her dog's age, size and condition? In her latest book, author Linda Case describes how to make logical, evidence-based decisions for what to feed your dog amid all the options available.

You will learn

- How pet food marketers appeal to your emotions to persuade you to buy a particular type of dog food.
- To distinguish between scientific, evidence-based information and the anecdotal evidence which is so pervasive—and often misleading—in the dog food arena.
- Is there a scientific basis for dog foods designed specifically for puppies, senior dogs, canine athletes—even various breeds of dogs?
- How to read and evaluate all of the material included on a typical package of dog food from the ingredients and label claims ("Natural," "Anti-Oxidant," "Low Fat"), to the Nutrient Analysis and Nutritional Adequacy statements.
- How to avoid choice paralysis and the cognitive traps that can interfere with clear decision making.

What experts are saying about *Dog Food Logic*

Pet food is like a religion for many—but now those strong emotional ties can be backed up with fact. Linda Case separates fact from fiction, explains the complex terms and offers a guide to pet nutrition in simple to comprehend language. Unlike other books on this topic, there is no agenda here—except to present facts and then allow pet owners to make their own logical conclusions, letting the kibble drop where it may.

Steve Dale, CABC, columnist Tribune Content Agency; radio host Black Dog Radio Productions and WGN Radio (Chicago); contributing editor USA Weekend; special correspondent Cat Fancy; author *Good Cat!*

Dog Food Logic is the indispensable guide to the science behind canine nutrition that will help us to make wise, well-informed choices about how and what we feed our dogs. It takes the fear out of trying to understand proper nutrition and will empower us to determine what is best for the health of our dogs.

Claudia Kawczynska, Founder and Editor-in-chief of *The Bark*

Don't read this book if you want someone to tell you what to feed your dog. This is a book for people who want to learn, in a reasoned and thoughtful way, how to figure it out for themselves. *Dog Food Logic* goes way beyond the usual textbook list of nutritional requirements to cover the pet food industry in all its glory: the history, the business, the marketing, and best of all, the science. Case deftly navigates the most controversial topics in pet food and presents the big picture without interjecting judgment about what approach is best. There's something here for everyone: pet care professionals and dog lovers alike will learn something new from this informative, easy to read, and well researched book.
