HarperCollins  
Brittany, France. Near the coast. A picturesque inn. Spectacular scenery. Tasty French treats. Time off from school. Tallis Challinor imagines this as the perfect vacation scenario, so when her grandfather suggests that

she accompany him to the country of her ancestors, she is more than happy to tag along. What Tallis doesn't bargain on is another ghostly encounter, especially not so soon after she's sealed up a bunch of unruly ghosts on their side of the portal between the human and spirit realms. But, when she feels the energy radiating from the megalithic standing stones dotting the countryside around

Carnac, France, an energy that feels frighteningly like the power exuding from the portal in her basement back home, she has a feeling she might be in trouble. And, she is right. When her grandfather goes missing, Tallis leaps into action. She calls the only ghostbuster she knows in France and, with help on the way, she gears up to battle another set of spirits bent on causing destruction. Along the

way, Tallis is forced to examine her life, her relationships, and her tightly-held beliefs about who she is and where she comes from. She also has to juggle two impossible males, both attractive but annoying, both seemingly set on driving her nuts or breaking her heart.

Only the scathing wit and searching intelligence of Jessica Mitford could turn an exposé of the American funeral industry

into a book that is at once deadly serious and side-splittingly funny. When first published in 1963, this landmark of investigative journalism became a runaway bestseller and resulted in legislation to protect grieving families from the unscrupulous sales practices of those in "the dismal trade." Just before her death in 1996, Mitford thoroughly revised and updated her classic study. *The American Way of Death Revisited* confronts new trends, including the success of the

profession's lobbyists in Washington, inflated cremation costs, the telemarketing of pay-in-advance graves, and the effects of monopolies in a death-care industry now dominated by multinational corporations. With its hard-nosed consumer activism and a satiric vision out of Evelyn Waugh's novel *The Loved One*, *The American Way of Death Revisited* will not fail to inform, delight, and disturb. "Brilliant--hilarious. . . . A must-read for anyone planning to

throw a funeral in their lifetime."--New York Post  
 "Witty and penetrating--it speaks the truth."--The Washington Post

Passport To A Happy Death BoD - Books on Demand

A contemporary exploration of death and dying by a young Duke Fellow who investigates the hows, whys, wheres, and whens of modern death and their cultural significance.

It has often been said that the two things in life you can't avoid are death and taxes. While the IRS puts

out numerous publications and there are CPAs and lawyers around every corner ready to dish out advice for the taxpayer, the best lawyer in the world can't get you out of dying. Death is the one trip we all take, with no tour guide or travel agent to hold our hand. Diana Ingram has written a much needed and uncommonly positive book to help us deal with death, both our own and those closest to us. Her work as a grief counselor and hospice volunteer has given Ingram a unique

view of our last journey, all of which, along with extensive research, she has brought to this guide. Covering all aspects of death from the practical to the personal, Passport includes information on legal preparations, funeral services, Hospice care and religion. Ingram has even included a workbook to help you through what can be a daunting process. Passport to a Happy Death makes you think, prepare, and even laugh. Moreover it will help give peace of mind to both you and your

loved ones. This is an altogether unique and useful read.

This study of ancient Roman shipping and trade across continents reveals

the Roman Empire's far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African

products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime,

which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, *The Roman Empire and the Indian Ocean* reveals Rome's impact on the ancient world and explains how international trade funded the legions that maintained imperial rule.

Academy Award winner and bestselling author Diane Keaton comes a candid, hilarious, and deeply affecting look at beauty, aging, and the importance of staying true to yourself—no matter what anyone else thinks. Diane Keaton has spent a lifetime coloring outside the lines of the conventional notion of beauty. In *Let's Just Say It Wasn't Pretty*, she shares the wisdom she's accumulated through the years as a mother, daughter, actress, artist, and international style

icon. This is a book only Diane Keaton could write—a smart and funny chronicle of the ups and downs of living and working in a world obsessed with beauty. In her one-of-a-kind voice, Keaton offers up a message of empowerment for anyone who’s ever dreamed of kicking back against the “should”s and “supposed to”s that undermine our pursuit of beauty in all its forms. From a mortifying encounter with a makeup artist who tells her she needs to get her eyes

fixed to an awkward excursion to Victoria’s Secret with her teenage daughter, Keaton shares funny and not-so-funny moments from her life in and out of the public eye. For Diane Keaton, being beautiful starts with being true to who you are, and in this book she also offers self-knowing commentary on the bold personal choices she’s made through the years: the wide-brimmed hats, outrageous shoes, and all-weather turtlenecks that have made her an inspiration to anyone who

cherishes truly individual style—and catnip to paparazzi worldwide. She recounts her experiences with the many men in her life—including Warren Beatty, Jack Nicholson, Al Pacino, and Sam Shepard—shows how our ideals of beauty change as we age, and explains why a life well lived may be the most beautiful thing of all. Wryly observant and as fiercely original as Diane Keaton herself, *Let’s Just Say It Wasn’t Pretty* is a head-turner of a book that holds up a mirror to our

beauty obsessions—and encourages us to like what we see. Praise for *Let's Just Say It Wasn't Pretty* “Behind the sterling movie credits and tomboyish wardrobe, we see a soulful and deep woman contemplating the narrative arc of her own life.”—*Newsweek* “Delicious writing . . . This book is like a dishy lunch with the movie star you thought you’d never be lucky enough to meet. . . . Diane Keaton is in a class by herself and this book is good for the soul.”—Liz Smith, *Chicago Tribune*

“She’s talented, iconic, quirky . . . and wonderfully blunt. This is just a small sampling of the reasons we love Diane Keaton, and they all permeate the pages of her new memoir.”—*Elle* “As disarming and personable as the actress herself.”—*The Huffington Post* “Wise, witty, thoughtful, uplifting, the truth, unvarnished—and very funny.”—*Toronto Star* [Modern Death](#) Pen and Sword In Gardens of the Roman Empire, the pioneering

archaeologist Wilhelmina F. Jashemski sets out to examine the role of ancient Roman gardens in daily life throughout the empire. This study, therefore, includes for the first time, archaeological, literary, and artistic evidence about ancient Roman gardens across the entire Roman Empire from Britain to Arabia. Through well-illustrated essays by leading scholars in the field, various types of gardens are examined, from how Romans actually created their gardens to the

experience of gardens as revealed in literature and art. Demonstrating the central role and value of gardens in Roman civilization, Jashemski and a distinguished, international team of contributors have created a landmark reference work that will serve as the foundation for future scholarship on this topic. Grave Matters iUniverse  
Loosely based on the Odyssey, this landmark of

modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

A "dark and funny debut"(Seattle-Times) about a young police officer struggling to maintain a sense of reality in a town where the dead outnumber the living. Colma, California, the "cemetery city" serving San Francisco, is the resting place of the likes of Joe DiMaggio, Wyatt Earp, and William Randolph Hearst. It is also the home of Michael Mercer, a by-the-book rookie cop struggling to settle comfortably into adult life. Instead, he

becomes obsessed with the mysterious fate of his predecessor, Sergeant Wes Featherstone, who spent his last years policing the dead as well as the living. As Mercer attempts to navigate the drama of his own daily life, his own grip on reality starts to slip-either that, or Colma's more famous residents are not resting in peace as they should be.

Freedom in the World, the Freedom House flagship survey whose findings have been published

annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of

influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental

organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development. Freedom House is a nonprofit, nonpartisan organization that supports

democratic change, monitors freedom, and advocates for democracy and human rights. Island Of Bali Routledge The horror of the puticuli, the mass burial pits, and their traditional association with the poor, has often led to this socio-economic group being viewed as somehow different to the rest of the ancient urban community in the Italy of the Late Roman Republic. This is the theory questioned by the author of this volume. *California. Court of Appeal (1st Appellate District).*

*Records and Briefs BAR International Series*  
In this “volume of rare sensitivity, penetrating understanding, and profound insights” (Rabbi Earl A. Grollman, author of *Living When a Loved One Has Died*), Dr. Kenneth Doka explores a new, compassionate way to grieve, explaining that grief is not an illness to get over but an individual and ongoing journey. There is no “one-size-fits-all” way to cope with loss. The vital bonds that we form with those we love in life continue long after

death—in very different ways. *Grief Is a Journey* is the first book to overturn prevailing, often judgmental, ideas about grief and replace them with a hopeful, inclusive, personalized, and research-backed approach. New science and studies behind Dr. Doka’s teaching upend the dominant but incorrect view that grief proceeds by stages. Dr. Doka helps us realize that our experiences following a death are far more individual and much less predictable than the

conventional “five stages” model would have us believe. Common patterns of experiencing and expressing grief still prevail, yet many other life changes accompany a primary loss. For example, the deaths of parents, even for adults, modify family patterns, change relationships, and alter

old family rituals. Unique to this book, Dr. Doka also explains how to cope with disenfranchised grief—the types of loss that are not so readily recognized or supported by society. These include the death of ex-spouses, as well as non-fatal losses such as divorce, the end of a friendship, job loss, or

infertility. In addition, Dr. Doka considers losses that might be stigmatized, including death by suicide or from disease or self-destructive behaviors such as smoking or alcoholism. And finally, Dr. Doka reminds us that, however painful, grief provides opportunities for growth.
