 The book identifies a set
 of validated competencies
 and performance
 statements,
 with supporting

explanation and data to
 inform and equip online
 learners with the critical
 attitudes, knowledge and
 skills for successful
 learning in online and/or
 blended learning settings.
 The work also enables
 online education providers
 (e.g., instructors, course
 designers, program
 administrators, scholars)
 to better understand

learner needs in order to
 design and deliver online
 education products and
 services best suited to
 learners. Supplementing a
 large number of
 anecdotally-based “how
 to” books published for
 those engaged in online
 education, this volume
 offers a definitive set of
 14 competencies and 75
 performance statements

(that demonstrate those competencies). Validated by systematic research and input from over 1,000 online users and providers worldwide, this work should impact the quality of learning and teaching at both the individual and organizational levels, involved in online education.

Truth in Translation is a critical study of Biblical translation, assessing the accuracy of nine English versions of the New Testament in wide use today. By looking at passages where theological investment is at a premium, the author demonstrates that many versions deviate from accurate translation under the pressure of theological bias.

When Mrs. Seahorse lays her eggs, she does it on Mr. Seahorse's belly! She knows he will take good care of them. While he swims waiting for the eggs to hatch, he meets some other underwater fathers caring for their babies: Mr. Tilapia, who carries his babies in his mouth; Mr. Kurtus, who keeps his on his head; and Mr. Catfish, who is baby-sitting his young hatchlings. Eric Carle has done it again, with astonishingly beautiful collage illustrations and a story that introduces the very young to the wonders of aquatic life . . . and some very special daddies. The Secret of the Caves #7 Penguin

Named one of the best cookbooks of the season by *The New York Times*, *Chowhound*, *Eater*, *Food & Wine*, *Forbes*, and more. Acclaimed pastry chef Dominique Ansel shares his simple, foolproof recipes for tarts, cakes, jams, buttercreams, and more "building blocks" of desserts for home cooks to master and mix as they please. Dominique Ansel is the creator of beautiful, innovative, and delicious

desserts, from the Frozen S'More to the Cronut®, the croissant-doughnut hybrid that took the world by storm. He has been called the world's best pastry chef. But this wasn't always the case. Raised in a large, working-class family in rural France, Ansel could not afford college and instead began work as a baker's apprentice at age sixteen. There, he learned the basics—how to make tender chocolate cakes, silky custards, buttery shortbread, and more. Ansel shares these essential, go-to recipes for the first time. With easy-to-follow instructions and kitchen tips, home cooks can master the building-blocks of desserts. These crucial components can be mixed in a variety of ways, and Ansel will show you how: his vanilla tart shell can be rolled out and stamped into cookies; shaped and filled with lemon curd; or even crumbled into a topping for ice cream. This cookbook will inspire beginners and experienced home cooks alike to bake as imaginatively as Ansel himself.

our definitions of success are periodically renegotiated based on the new values society chooses to use as a lens to judge what is acceptable. Are these new values randomly chosen or is there a pattern? Pendulum chronicles the stuttering history of western society; that endless back-and-forth swing between one excess and another, always reminded of what we left behind. There is a pattern and it is 40 years: 2003 was a fulcrum year, as was 1963, its opposite. Pendulum explains where we have been as a society, how we got here, and where we are headed. If you would benefit from a peek into the future, you would do well to read this book.
