For fifty years the truth
about the assassination of
President John F. Kennedy
has been obscured. This

book releases us from a
crippling distortion of
American history. At 1:00
p.m. on November 22,
1963, President John F.
Kennedy was pronounced
dead, the victim of a
sniper attack during his
motorcade through
Dallas. That may be the
only fact generally agreed
upon in the vast literature

spawned by the
assassination. National
polls reveal that an
overwhelming majority of
Americans (75%) believe
that there was a high-
level conspiracy behind
Lee Harvey Oswald. Many
even believe that Oswald
was entirely innocent. In
this continuously
absorbing, powerful,

ground-breaking book, Vincent Bugliosi shows how we have come to believe such lies about an event that changed the course of history. The brilliant prosecutor of Charles Manson and the man who forged an iron-clad case of circumstantial guilt around O. J. Simpson in his best-selling *Outrage* Bugliosi is perhaps the only man in America capable of writing the definitive book on the Kennedy assassination. This is an achievement that has for years seemed

beyond reach. No one imagined that such a book would ever be written: a single volume that once and for all resolves, beyond any reasonable doubt, every lingering question as to what happened in Dallas and who was responsible. There have been hundreds of books about the assassination, but there has never been a book that covers the entire case, including addressing every piece of evidence and each and every conspiracy theory, and the facts, or alleged

facts, on which they are based. In this monumental work, the author has raised scholarship on the assassination to a new and final level, one that far surpasses all other books on the subject. It adds resonance, depth, and closure to the admirable work of the Warren Commission. *Reclaiming History* is a narrative compendium of fact, forensic evidence, reexamination of key witnesses, and common sense. Every detail and nuance is accounted for,

every conspiracy theory revealed as a fraud on the American public.

Bugliosi's irresistible logic, command of the evidence, and ability to draw startling inferences shed fresh light on this American nightmare. At last it all makes sense.

" An essential resource for scholars, students, and all lovers of the Mountaineer State. From bloody skirmishes with Indians on the early frontier to the Logan County mine war, the story of West Virginia is punctuated with episodes as colorful and rugged as the mountains that dominate its landscape. In this first modern comprehensive history, Otis Rice and Stephen Brown balance these episodes of

mountaineer individualism against the complexities of industrial development and the growth of social institutions, analyzing the events and personalities that have shaped the state. To create this history, the authors weave together many strands from the past and present. Included among these are geological and geographical features; the prehistoric inhabitants; exploration and settlement; relations with the Indians; the land systems and patterns of ownership; the Civil War

and the formation of the state from the western counties of Virginia; the legacy of Reconstruction; politics and government; industrial development; labor problems and advances; and cultural aspects such as folkways, education, religion, and national and ethnic influences. For this second edition, the authors have added a new chapter, bringing the original material up to date and carrying the West Virginia story through the presidential election of 1992. Otis K.

Rice is professor emeritus of history and Stephen W. Brown is professor of history at West Virginia Institute of Technology. *Reclaiming History: The Assassination of President John F. Kennedy* Simon and Schuster Documents the events leading up to and following the assassination of the thirty-fifth president as revealed by the Secret Service agents who were present, in an account that also draws on letters written by Jackie Kennedy in the immediate

aftermath and other previously undisclosed sources.

This account of the Kennedy assassination ("the most riveting ever," says *The New York Times*) is taken from Robert A. Caro's brilliant and bestselling *The Passage of Power*. Here is that tragic day in Dallas alive with startling details reported for the first time by the two-time Pulitzer Prize-winning author. Just as scandals that might end his career are about to break over Lyndon Johnson's head, the

motorcade containing the presidential party is making its slow and triumphant way along the streets of Dallas. In Caro's breathtakingly vivid narrative, we witness the shots, the procession speeding to Parkland Memorial Hospital, the moment when Kennedy aide Lawrence O'Donnell tells Johnson "He's gone," and Johnson's iconic swearing in on Air Force One. Compelling. An eBook short.

In American history, four

U.S. Presidents have been murdered at the hands of an assassin. In each case the assassinations changed the course of American history. But most historians have overlooked or downplayed the many threats modern presidents have faced, and survived. Author Mel Ayton sets the record straight in his new book *Hunting the Presidents: Threats, Plots and Assassination Attempts—From FDR to Obama*, telling the sensational story of largely forgotten—or

never-before revealed—malicious attempts to slay America’s leaders. Supported by court records, newspaper archives, government reports, FBI files, and transcripts of interviews from presidential libraries, *Hunting the Presidents* reveals: How an armed, would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him How the Secret Service foiled a plot by a Cuban

immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president’s motorcade route How a deranged man broke into Reagan’s California home and attempted to strangle the former president before he was subdued by Secret Service agents. In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt The relationships presidents held with their protectors and the effect

it had on the Secret Service’s mission *Hunting the Presidents* opens the vault of stories about how many of our recent Presidents have come within a hair’s breadth of assassination, leaving America’s fate in the balance. Most of these stories have remained buried—until now. that day: a man who shares cigarettes with Jackie outside the trauma room; a motorcycle policeman flanking the motorcade; Abe Zapruder, who caught the assassination on film; the White House servants waiting for Jackie to return; and the morticians overseeing President Kennedy's autopsy. **Four Dark Days in History** Skyhorse Chronicles the assassination of President Kennedy in graphic novel format. An Address Delivered Before the New York

Historical Society, Tuesday November 22, 1864 Macmillan
Riding in an open-topped convertible through Dallas on November 22, 1963, Lyndon B. Johnson heard a sudden explosive sound at 12:30 PM. The Secret Service sped him away to safety, but not until 1:20 PM did he learn that John F. Kennedy had been assassinated. Sworn in next to a bloodstained Jackie Kennedy at 2:40 PM, Johnson worked feverishly until 3:00 in the morning, agonizing about the future of both his

nation and his party. Unbeknownst to him, his actions had already determined the tragic outcome of his presidency. In November 22, 1963, historian Steven Gillon tells the story of how Johnson consolidated power in the twenty-four hours following the assassination. Based on scrupulous research and new archival sources, this gripping narrative sheds new and surprising light on one of the most written-about events of the twentieth century.
