CARLSON NIGEL

Son of a Gunsmith Routledge
 Amid the aristocratic ranks of the Confederate cavalry, Nathan Bedford Forrest was untutored, all but unlettered, and regarded as no more than a guerrilla. His tactic was the headlong charge, mounted with such swiftness and ferocity that General Sherman called him a "devil" who should "be hunted down and killed if it costs 10,000 lives and bankrupts the treasury." And in a war in which officers prided themselves on their decorum, Forrest habitually issued surrender-or-die ultimatums to the enemy and often intimidated his own superiors. After being in command at the notorious Fort Pillow Massacre, he went on to haunt the South as the first grand wizard of the Ku Klux Klan. Now this epic figure is restored to human dimensions in an exemplary biography that puts both Forrest's genius and his savagery into the context of his time, chronicling his rise from frontiersman to slave trader, private to lieutenant general, Klansman to—eventually—New South businessman and racial moderate. Unflinching in its analysis and with extensive new research, Nathan Bedford

Forrest is an invaluable and immensely readable addition to the literature of the Civil War.

Hidden Cities Basic Books

No other cinematic genre more sharply illustrates the contradictions of American society - notions about social class, politics, and socio-economic ideology - than the war film. This book examines the latest cycle of war films to reveal how they mediate and negotiate the complexities of war, class, and a military-political mission largely gone bad.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own

addictions.

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Invisible Scars Harper Collins

Porchlight's Best Leadership & Strategy Book of The Year An inspiring memoir from the CEO of DICK's Sporting Goods that is "not only entertaining but will be of great value to any entrepreneur" (Phil Knight, New York Times bestselling author of *Shoe Dog*), this book shows how a trailblazing business was created by giving back to the community and by taking principled, and sometimes controversial, stands—including against the type of weapons that are too often used in mass shootings and other tragedies. *It's How We Play the Game* tells the story of a complicated founder and an ambitious son—one who transformed a business by making it about more than business, conceiving it as a force for good in the communities it serves. In 1948, Ed Stack's father started Dick's Bait and Tackle in Binghamton, New York. Ed Stack bought the business from his father in 1984, and grew it into the largest sporting goods retailer in the country, with 800 locations and close to \$9 billion in sales. The transformation Ed wrought wasn't easy: economic headwinds nearly toppled the chain twice. But DICK's support for embattled youth sports programs earned the stores surprising loyalty, and the company won even more attention when, in the wake of yet another school shooting—at Marjory Stoneman Douglas High School in Parkland, Florida—it chose to become the first major retailer to pull all semi-automatic weapons from its shelves, raise the age of gun purchase to twenty-one, and, most strikingly, destroy the assault-style-type rifles then in its inventory. With vital lessons for anyone running a business and eye-opening reflections about what a company owes the people it serves, *It's How We Play the Game* is "a compelling narrative...In a genre that can frequently be staid, Mr. Stack's corporate biography is deeply personal...[Features] surprising openness [and] interesting and humorous anecdotes" (Pittsburgh Post-Gazette).

"Today, America faces security challenges that are exceedingly dynamic and complex, in part because of the ever changing mix and number of actors involved and the pace with which the strategic and operational environments change. To meet these new challenges more effectively, the Obama administration advocated strengthening civilian instruments of national power and enhancing America's whole-of-government (WOG) capabilities. Although the need for comprehensive integration and coordination of civilian and military, governmental and nongovernmental, national and international capabilities to improve efficiency and effectiveness of post-conflict stabilization and peacebuilding efforts is widely recognized, Washington has been criticized for its attempts at creating WOG responses to international crises and conflicts for overcommitment of resources, lack of sufficient funding and personnel, competition between agencies, ambiguous mission objectives, and undermining the military's primary purpose of defending the national interest. Presenting the results of an international Symposium held at Kennesaw State University in February 2011, this volume traces the genesis of WOG, critically examines current WOG practices, and draws lessons from the operational contexts of Iraq and Afghanistan. The first part of the book describes the overall global security context within which peacebuilding and stability operations are currently conducted, examines the merits of WOG approaches, and discusses their efficacy for responding to a range of emerging threats. The second part addresses some of the practical challenges of implementing WOG approaches to international conflict management and specifically to U.S. intervention in fragile states. The third and final part examines WOG efforts in the field and draws lessons learned from operational experiences in Afghanistan and Iraq to potential future interventions"--

Never before have there been more choices for the 1911 enthusiast, and this brand-new, completely revised and expanded second edition covers significant changes that have occurred in the 1911 world, including new makers, new models, new holsters and accessories, and new ammunition choices"--Page 4 of cover.

Scars, Marks & Tattoos 1920, Shots Fired, Officer Down Honolulu Motorcycle Police Officer Stan Cook, during a traffic stop, is confronted by a driver high on crystal meth and a AK-47 assault rifle. The outcome is a shootout where the driver fires 20 rounds from the AK-47 and Officer Cook fires 18 rounds from his Smith & Wesson 5906 9MM pistol. The driver is killed and Officer Cook suffers life threatening wounds. This book covers the lead up to the shooting, the incident, aftermath and lessons learned. It is an inspiring book, told in the first person, about what a police officer goes through during this kind of a traumatic situation. Law Enforcement Officers and civilians should read this book. It's How We Play the Game

Sharpening the Warrior's Edge is the first text which examines survival and combat performance from a scientific perspective. Author Bruce K. Siddle methodically brings together one hundred years of research which identifies the relationship between survival stress, the heart rate and combat performance. Most importantly, Siddle explores the psychological and spiritual components which establish the warrior mindset. This pioneering test is a must read for present-day warriors, or anyone involved in use of force, combat or martial arts training.

Ranked in the "Top 10 Military Books of 2018" by Military Times. "In war, destruction is everywhere. It eats everything around you. Sometimes it eats at you." —Major Scott Huesing, Echo Company Commander From the winter of 2006 through the spring of 2007, two-hundred-fifty Marines from Echo Company, Second Battalion, Fourth Marine Regiment fought daily in the dangerous, dense city streets of Ramadi, Iraq during the Multi-National Forces Surge ordered by President George W. Bush. The Marines' mission: to kill or capture anti-Iraqi forces. Their experience: like being in Hell. Now Major Scott A. Huesing, the commander who led Echo Company through Ramadi, takes readers back to the streets of Ramadi in a visceral, gripping portrayal of modern urban combat. Bound together by brotherhood, honor, and the horror they faced, Echo's Marines battled day-to-day on the frontline of a totally different kind of war, without rules, built on chaos. In Echo

in Ramadi, Huesing brings these resilient, resolute young men to life and shows how the savagery of urban combat left indelible scars on their bodies, psyches, and souls. Like war classics *We Were Soldiers*, *The Yellow Birds*, and *Generation Kill*, *Echo in Ramadi* is an unforgettable capsule of one company's experience of war that will leave readers stunned.
