Up Above and Down Below Random House Books for Young Readers
A rhyming story of Silly Sally, who makes many friends as she travels to town--backward and upside down.

Mouse Paint John Wiley & Sons
Beginning to Read reconciles the debate that has divided theorists for decades over what is the "right" way to help children learn to read. Beginning to Read reconciles the debate that has divided theorists for decades over the "right" way to help children learn to read.

Drawing on a rich array of research on the nature and development of reading proficiency, Adams shows educators that they need not remain trapped in the phonics versus teaching-for-meaning dilemma. She proposes that phonics can work together with the whole language approach to teaching reading and provides an integrated treatment of the knowledge and process involved in skillful reading, the issues surrounding their acquisition, and the implications for reading instruction. Eric hates taking a bath. Eric hates brushing his teeth. Eric hates putting on his pajamas. Let's face it, Eric hates getting ready for bed. Thankfully, Eric's mom and dad have the perfect plan to help their little boy. Find out what a plate of chocolate chip cookies and a monster has to do with it. A fun and beautifully illustrated book with a surprisingly sweet ending that all readers will surely enjoy.

A Children's Guide Chronicle Books
Discover new, practical methods for teaching literacy skills in your early childhood classroom. Has teaching early literacy skills become a stumbling block to getting your preschool students kindergarten ready? Break out of the tired "letter of the week" routine and learn how to transform your lessons with fun and effective techniques. Teach Smarter: Literacy Strategies for Early Childhood Teachers will equip teachers to infuse every aspect of their teaching with exciting hands-on literacy teaching

methods that engage students and help them build authentic connections with books, so that 100% of their students will have a strong literacy foundation and will be fully prepared for success in kindergarten and beyond. Respected author Vanessa Levin, veteran early childhood educator and author of the "Pre-K Pages" blog, breaks down the research and translates it into realistic, actionable steps you can take to improve your teaching. Features specific examples of teaching techniques and activities that engage students in hands-on, experiential learning during circle time, centers, and small groups. Offers a simple, four-step system for teaching literacy skills, based on the foundational principles of early literacy teaching. Demonstrates how to build your confidence in your ability to get 100% of your students ready for kindergarten, long before the end of the school year. Understand the problems with traditional literacy teaching and identify gaps in your current teaching practice with this valuable resource.

The Lovely Little Ladybug Harper Collins

This workbook is an excellent size for tucking into a tote or backpack and turning road trips and wait times into learning opportunities. [If You Give a Mouse a Cookie 25th Anniversary Edition](#) Max and the Fall Parade

Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take your child on an exciting journey through the entire ABC and all the numbers from 0 to 30 with: Letter And Number Tracing Book For Kids Ages 3-5: A Fun Practice Workbook To Learn The Alphabet And Numbers From 0 To 30 For Preschoolers And Kindergarten Kids! This exercise book introduces your child to writing letters and numbers in a playful and age-appropriate manner that will help him or

her get to know the alphabet and the numbers 0 to 30. In this way, children are guided and optimally prepared for pre-school and primary school. The book is divided into sections: numbers and letters. The learning process is guided as follows: Letters Every letter is new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height. In both areas, learning takes place in a meaningful and reliable structure that gives your child security and constantly encourages them to see their own progress. Parents can help their children work through this exercise book and provide the necessary support. After all, writing is not easy for every child. Parents should keep a special eye on the correct pen position and hand guidance and celebrate every milestone with their child. For both numbers and letters, encourage your child to speak out loud about what he or she has learned. The more senses are involved in the learning process, the faster and easier it is to learn. By completing this exercise book, your child will be able to write the lower and upper case letters from A to Z, as well as the numbers 0 to

30. It is especially important that your child can work and learn at their own pace. This is the only way to keep the fun and become more confident in writing from letter to letter, or from number to number. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 and the letters A to Z Designed and sensibly structured to suit children Promotes correct pen management and concentration Lots of space for free practice Lovely designs Combine play with learning. Benefit from "Letter And Number Tracing Book For Kids Ages 3-5" and accompany your child within a meaningful structure on the way to writing letters and numbers! Get this book NOW!

Alphabet Maze Bright Kids
Colors and pictures attract small kids very much. If we use such techniques that will involve colors and pictures in the learning of alphabets, numbers and shapes, drawing and painting, the kids can learn them enthusiastically, quickly,

easily and effectively. This series of books will be their best friend in never before way and will step by step help them identify their real interests and strengths and abilities in colors, drawing and painting. Though these books will not teach them drawing and painting directly but it will awaken and shape their innate sense for the same which will work like the best motivator and teacher for them. Use these books with active participation of at least one of the parents and start expecting remarkable results. Happy Teaching & Learning.
