The Sociology Student's Guide to Writing, by Angelique Harris and Alia R. Tyner-Mullings, is a brief, economical reference work that gives practical advice about the writing tasks and issues that undergraduate students face in their first sociology courses. Along with more traditional topics, it incorporates valuable information about composing emails, writing for online forums, and using technology for information-gathering and note-taking. Used by itself or in combination with other texts, this book will increase the quality of student writing and enhance their knowledge of how sociologists communicate in writing.

Sociological Wisdom Ashgate Publishing, Ltd.

There is a moral to this book, a bit of Confucian wisdom often ignored in social network analysis: "Worry not that no one knows you, seek to be worth knowing." This advice is contrary to the usual social network emphasis on securing relations with well-connected people. Neighbor Networks examines the cases of analysts, bankers, and managers, and finds that rewards, in fact, do go to people with well-connected colleagues. Look around your organization. The individuals doing well tend to be affiliated with well-connected colleagues. However, the advantage obvious to the naked eye is misleading. It disappears when an individual's own characteristics are held constant. Well-connected people do not have to affiliate with people who have nothing to offer. This book shows that affiliation with well-connected people adds stability but no advantage to a person's own connections. Advantage is concentrated in people who are themselves well connected. This book is a trail of argument and evidence that leads to the conclusion that individuals make a lot of their own network advantage. The social psychology of networks moves to center stage and personal responsibility emerges as a key theme. In the end, the social is affirmed, but with an emphasis on individual agency and the social psychology of networks. The research gives new emphasis to Coleman's initial image of social capital as a forcing function for human capital. This book is for academics and researchers of organizational and network studies interested in a new angle on familiar data, and as a supplemental reading in graduate courses on social networks, stratification, or organizations. A variety of research settings are studied, and diverse theoretical perspectives are taken. The book's argument and evidence are supported by ample appendices for readers interested in background details.

The new Seventh Edition of *Social Problems: Community, Policy, and Social Action* goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions.

Contemporary Sociological Theory Allyn & Bacon

After finishing his time in the Army, the author enrolled in the University of South Dakota where he received both his bachelors and masters degrees. Following graduation he taught for eight years at a small church related college in South Dakota. He then accepted a position in sociology at Montana State University, Billings. Concomitant to his move to Montana he enrolled in the University of Utah where he received his Ph.D., also in sociology. Upon his return to the University at Billings, he focused his studies and research efforts on the newly emerging field of human sexuality developing and teaching a variety of courses. After 39 years Dr. Waltner retired from active college teaching. He and his wife Bonnie have two sons and live near Park City, Montana.

And Judge Kendra Rutherford is guilty of letting handsome architect Reid Maguire become a tempting distraction, and allowing his legal battle to become entirely too heated and personal. But after losing his reputation in a bitter courtroom fight with his ex-wife, Reid is determined to clear his name and rebuild his career. Now only the sexy judge presiding over the trial can give him back everything he lost. But she's making it hard for him to keep his priorities straight, especially when their passion and rival ambitions collide, and they're both guilty of losing their hearts—.

Social Problems Pine Forge Press

Many people of all ages today continue to be attracted to sociology and other social sciences because of their promise to contribute to better political, social, and moral understandings of themselves and their social worlds—and often because they hope it will help them to build a better society. In a world of new movements and deepening economic inequality following the Great Recession, this new edition is vital. It features dozens of new examples from the latest research, with an emphasis on the next generation of liberation sociologists. The authors expand on the previous edition with the inclusion of sections on decolonisation paradigms in criminology, critical speciesism, and studies of environmental racism and environmental privilege. There is an expanded focus on participatory action research, and increased coverage of international liberation social scientists. Work by psychologists, anthropologists, theologians, historians, and others who have developed a liberation orientation for their disciplines is also updated and expanded.

"Voices in Sociology" introduces undergraduate students to articles that deal with conventional and non-conventional issues in sociology. Selections in this anthology, some of which have not appeared in previous readers, are each preceded by an introduction to the basic sociological concepts and theories discussed within the article. Students will find the selected articles informative and applicable to real world concerns, while instructors will find that the book offers ample opportunities for class discussion. This book can be used as the sole textbook or as a supplement to one. The brevity and focus of "Voices in Sociology" makes it an ideal and unique addition to any Introduction to Sociology course. The readings in "Voices in Sociology" cover a wide range of topics in sociology, including: History of Sociology; Women's Perspective as a Radical Critique of Sociology; How Sociologists Do Research; Culture; Socialization; Deviant Behavior; Gender Roles; and Social Stratification: Social Class. Cynthia T. Cook earned her Master's Degree in Sociology from the University of Chicago, and her Ph.D. from Texas Woman's University. Currently she is an Associate Professor in the Department of Sociology and Criminal Justice at Florida A & M University, where she teaches medical sociology and population problems. Her area of specialization is medical sociology, demography, Sub-Saharan Africa, and Women's Studies with a concentration on global and domestic health disparities. She is co-editor of "Cultural Proficiency in Addressing Health Disparities, Voices in Sociology: an Introduction to Core Concepts," and the GRIOT (the official newsletter of the Association of Black Sociologists). Dr. Cook has published articles in the "Journal of the National Medical Association, Program Planning and Evaluation, Law and Medicine," and the "Journal of Black Studies." Professor Amitra A. Hodge-Wall, a graduate of Texas Woman's University, is an Associate Professor of Sociology at Buffalo State College. She is an applied sociologist who is often found working alongside community organizations. Most of her energies are spent on addressing issues that impact women, children, and other minority groups. In the classroom she embraces the orientation that encourages and empowers students to be active participants in society. She teaches social statistics, introduction to sociology, internship, social thought, research methods, race and ethnic relations, and women in society. Her research interest includes the examination of stratification in higher education. Dr. Brethauer-Gay is an Assistant Professor at Florida A & M University in Tallahassee, FL. She received her Ph.D. in Sociology at Texas Woman's University in Denton, Texas and her M. A. from the University of South Florida in Tampa, Florida. Her research interests, though varied, tend to focus on the influence of social structures on individuals. Dr. Jessica Smartt Gullion is Assistant Visiting Professor of Sociology at Texas Woman's University, where she specializes in medical and environmental sociology. She has published more than 20 peer-reviewed articles and abstracts on epidemiology, infectious disease, and disaster response. Dr. Gullion teaches courses on the sociology of health and illness and qualitative research methods. Her

In *Pulling Back the Curtain on Qualitative Research*, the authors maintain that for sociologists the entire world is a laboratory. Seldom do they attend social gatherings without observing people and their interaction in a systematic and intellectually curious way. Regular trips to the grocery store, church services, and engagement with social media all open the door to sociological questioning and encourage forms of empirical observation and data collection. Here, in this practical and in-depth guide to conducting qualitative sociological field research, the authors offer step-by-step guidance to the processes of choosing a research question and forming research objectives; gaining entry to research settings; and reporting and analyzing findings. Each chapter features a past research assignment, wherein the authors draw attention to important ethical considerations and extract the many lessons, quirks, and unanticipated findings they experienced along the way that readers should prepare for and apply while conducting their own qualitative fieldwork. Over the span of several field studies, this book offers readers a behind-the-scenes look at some tested and trusted qualitative methodologies. Designed to be a guide for undergraduate and graduate level students, its real-life meditations would make a meaningful addition to anyone serious about conducting sociological research.

Mapping the resonances, dissonances, and linkages between the thought of Gramsci and Foucault to uncover new tools for socio-political and critical analysis for the twenty-first century, this book reassesses the widely-held view that their work is incompatible. With discussions of Latin American revolutionary politics, indigenous knowledges, technologies of government and the teaching of paediatrics in post-invasion Iraq, complexity theory, medical anthropology and biomedicine, and the role of Islam in the transition to modern society in the Arab world, this interdisciplinary volume presents the latest theoretical research on different facets of these two thinkers' work, as well as analyses of the specific linkages that exist between them in concrete settings. A rigorous, comparative exploration of the work of two towering figures of the twenty-first century, Gramsci and Foucault: A Reassessment will appeal to scholars and students of social and political theory, political sociology, communication and media studies, and contemporary philosophy.

We are all on a journey, but take God along with you, and you can endure the struggles that occur. Helping those along the way is rewarding and replenishing. Remember to seek professional mental health if needed. There is no shame in seeking this type of help. Shame comes from needing help and not reaching out to receive it. I hope this book encourages others to persevere through their storms in life and accomplish their dreams. Its vital to understand that without faith in God and in yourself, it would lead to self-defeat!

Society in Focus Routledge

"As physical structures that shape and constrain human interaction, religious buildings play a formative role in human communities across the globe. Yet social science has typically paid them little regard. This book applies a sociological perspective to the way religious buildings are shaped by the communities that conceive of and build them and how the same buildings act back on those human communities. Applying theoretical insights from the sociology of architecture, the sociology of religion, and interaction ritual chain theory, the authors examine religious buildings as profoundly social structures with lasting consequences for the persons and groups who designed, built, or adapted them and for those who gather inside them as well as those who live near them"—

Educational Requirements for Employment of Sociologists Penn State Press

This book provides an original overall account of the history of sociology at the London School of Economics and Political Science, where the first sociology course as part of a conventional university degree programme in the UK was taught. Thus, the book is unique in its contribution to an important part of the history and development of sociology in the UK. The chapters discuss the names that – at least until the post-war period – are identified as central to the early phase of British sociology. *Husbands* documents the impact and influence of these leading figures through material in numerous previously little-used archives. Also explored are the culture of LSE Sociology students, their attitudes, political orientations, and academic attainments. The reputation and influence of LSE Sociology on the general development of the subject in the UK are also assessed. The book will be of interest to sociology students and scholars wanting to know about the discipline's history, as well as to those with a broader interest in higher education policy.
