Kevin Quinn is a standard-variety American male: middle-aged, liberal-leaning, self-centered, emotionally damaged, generally determined to avoid both pain and responsibility. As his relationship with his girlfriend approaches a turning point, and his career seems increasingly pointless, he decides to secretly fly to a job interview in Austin, Texas. Aboard the plane, Kevin is simultaneously attracted to the young woman in the seat next to him and panicked by a new wave of terrorism in Europe and the UK. He lands safely with neuroses intact and full of hope that the job, the expansive city, and the girl from the plane might yet be his chance for reinvention. His next eight hours make up this novel, a tour-de-force of mordant humor, brilliant observation, and page-turning storytelling.

This book looks at the making and the consuming of places in the contemporary world. Illustrated through various case-studies from Denmark, it considers how places, performances and peoples intersect. It examines the fascinating circumstances through which visitors to a place, in part, produce that place through their performances. Places are intertwined with people through various systems that generate and reproduce performances in and of that place. These systems comprise networks of 'hosts, guests, buildings, objects and machines' that contingently realize particular performances of specific places. The studies featured here develop an exciting 'new mobility' paradigm emerging within the social sciences.

Cross-Gender China, the outcome of more than twenty years of theatrical and sociological research, deconstructs the cultural implications of cross-gender performance in today's China. The recent revival in male-to-female cross-gender nandan performance in Chinese theatre raises a multitude of questions: it may suggest new gender dynamics, or new readings of old aesthetic traditions in new socio-cultural contexts. Interrogating the positions of the gender being performed and the gender doing the performing, this volume gives a broad cultural account of the contexts in which this unique performance style has found new life.

 There is a man football fans across the land wake up for on a Saturday morning. A man whose renegade rhyming skills never fails to leave the nation dazzled - and maybe a bit baffled. He's Soccer AM's most infamous interviewer and Surrey's sickest rapper...it's the one, the only, Tubes. And he's ready to reveal the funniest, the best and the downright oddest stories from the Premiership and beyond. Soccer AM's very own lyrical miracle began life on the show as a humble work experience named Peter Dale. But a few world-class cuppas earned him a cameo as the nappy-wearing, beer-swilling Peter the Test Tube Baby. And the rest, as they, is history. Since then our floppy-haired hero has laid the rap down on every serious A-lister from Hulk Hogan to Steve Coogan in his trademark 'One Question and One Question Only' feature. Whether he's trapped in a headlock by Denzel Washington or going head-to-head in a rap battle with Professor Green, there's never a dull moment in the life of Tubes. Ever hear about the time Roy Hodgson bopped through a Premier League dressing room with a ghetto blaster? How about Gareth Bale, Theo Walcott and the Underwear Bandits? This treasure trove of priceless anecdote has got it all. Stuffed with stellar banter, Tubesology is guaranteed to dish out the insider knowledge that every self-respecting football fan needs to hear. So all that remains is One Question and One Question Only...are you ready to hear all about the world according to Tubes?

This book will help readers understand the practice of qualitative research--whether they want to do it, teach it, or just learn about it. All the major research phases are encompassed (startup, design, data collection, analysis, and composing), including newly emerging trends. Numerous easy-to-read vignettes show how other scholars have successfully implemented specific procedures. Equally distinctive, the book presents qualitative research as an adaptive craft. The array of choices among different procedures and methods enables readers to customize their own studies and to accommodate different worldviews and genres. New to This Edition: *Stronger discussion of different worldviews (e.g., constructivism, postpositivism, and pragmatism) and how they relate to different methodological choices. *Clearer emphasis on doing a generalized qualitative study, while acknowledging 12 specialized genres (e.g., action-based research, arts-based research, autoethnography, grounded theory, phenomenology, and others). *Expanded discussions of different kinds of qualitative study samples and of mixed methods. *New ideas on how to avoid getting stalled when analyzing qualitative data. *Consideration of an additional way of concluding a qualitative study: by taking action. Pedagogical Features *Chapters start with an abstract and end with a suggested exercise. *Key terms and concepts appear in boldface throughout the text and are listed in end-of-chapter recaps as well as in the book's glossary. *Sections within each chapter start with a preview box: "What you should learn from this section." *An appendix presents a semester- or yearlong field-based project.

Deconstructing the Interview Edinburgh University Press

What does it mean to be Palestinian in the diaspora? This collection of 100 personal reflections on being Palestinian is the first book of its kind. Reflecting on Palestinian identity as it is experienced at the individual level, issues of identity, exile, refugee status, nostalgia, belonging and alienation are at the heart of the book. The contributors speak in many voices, exploring the richness and diversity of identity construction among Palestinians in the diaspora. Included are contributions from Palestinians living in the Anglo-Saxon diaspora, mainly the UK and North America. They come from a variety of professional backgrounds: business people, lawyers, judges, fiction writers, poets, journalists (press, TV and radio), film-makers, diplomats and academics. Men and women, young and old, Christians and Muslims offer essays, as do Palestinians from different generations (first, second and third generations). This mix of professional, gender, faith and generational categories ensures that a variety of voices are heard. The editor sets the scene with an Introduction, and his Epilogue deals with issues of identity, exile and diaspora as concepts that give sense to the personal reflections. Key Features The first book to gather personal reflections on what it means to be Palestinian Contributes to the debate on what it means to be Palestinian Asks what the diaspora is for Palestinians Looks at how being Palestinian varies across gender, generation, religious affiliation and professional interest. FROM APF: Is being Palestinian a 'pain in the neck', or a 'sentence to suffer

gladly'? Does Palestinian identity reside in cross-stitch embroidery, sweet knafeh and the poetry of Mahmoud Darwish, or defending the rights of oppressed communities around the world? Does being Palestinian in diaspora mean anything at all? In this ground-breaking volume, the first of its kind, 102 contributors from North America and the United Kingdom reflect in their own words on what it means to be Palestinian in diaspora. Exploring how Palestine is both lost and found, bereaved and celebrated in diaspora, and the tangled ties between 'home' and 'homeland', *Being Palestinian* takes the reader on an intimate journey into the diaspora to reveal a human story: how does it feel when you cannot find Palestine under 'P' in the encyclopaedia your father brings home? Why grow fig and orange trees in the Arizona desert? What does it mean to know every inch of a village that no longer exists? Touching, troubling but full of character and wit, the reflections in *Being Palestinian* offer a radically fresh look at the modern Palestinian experience in the West.

This book is about coding interview questions from software and Internet companies. It covers five key factors which determine performance of candidates: (1) the basics of programming languages, data structures and algorithms, (2) approaches to writing code with high quality, (3) tips to solve difficult problems, (4) methods to optimize code, (5) soft skills required in interviews. The basics of languages, algorithms and data structures are discussed as well as questions that explore how to write robust solutions after breaking down problems into manageable pieces. It also includes examples to focus on modeling and creative problem solving. Interview questions from the most popular companies in the IT industry are taken as examples to illustrate the five factors above. Besides solutions, it contains detailed analysis, how interviewers evaluate solutions, as well as why they like or dislike them. The author makes clever use of the fact that interviewees will have limited time to program meaningful solutions which in turn, limits the options an interviewer has. So the author covers those bases. Readers will improve their interview performance after reading this book. It will be beneficial for them even after they get offers, because its topics, such as approaches to analyzing difficult problems, writing robust code and optimizing, are all essential for high-performing coders.
