**Over the Top** Bloomsbury Publishing USA

A Pulitzer Prize-winning editorial cartoonist teams up with a noted political commentator. For everyone who loves to hate the Bush administration and is ready to laugh about it!

*Ambushed!* recounts the exploits of the Bush administration, at home and abroad, 2001 to 2008, through the lens of a Pulitzer Prize-winning cartoonist for the Miami Herald and the analysis of a leading political scientist at Boston University and Harvard University. The book begins with the ways in which American voters were ambushed in two presidential elections and ranges widely among the ensuing disasters from Enron to Katrina to the budget deficit to the economy and finally to the "global war on terror" that lost America many friends and inspired enemies worldwide.

Contrasting the Bush administration's lofty promises with its policy failures--from Baghdad to New Orleans--the book suggests that this has been not only the least effective but the most destructive presidency of the past century.

"The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about the longest war in American history"--

*Raymond Pettibon* Top Shelf Productions  
A lively graphic narrative reports on censorship of political cartoons around the world, featuring interviews with censored cartoonists from Pittsburgh to

Beijing. Why do the powerful feel so threatened by political cartoons? Cartoons don't tell secrets or move markets. Yet, as Cherian George and Sonny Liew show us in *Red Lines*, cartoonists have been harassed, trolled, sued, fired, jailed, attacked, and assassinated for their insolence. The robustness of political cartooning--one of the most elemental forms of political speech--says something about the health of democracy. In a lively graphic narrative--illustrated by Liew, himself a prize-winning cartoonist--*Red Lines* crisscrosses the globe to feel the pulse of a vocation under attack. A Syrian cartoonist insults the president and has his hands broken by goons. An Indian cartoonist stands up to misogyny and receives rape threats. An Israeli artist finds his antiracist works censored by social media algorithms. And the New York Times, caught in the crossfire of the culture wars, decides to stop publishing editorial cartoons completely. *Red Lines* studies thin-skinned tyrants, the invisible hand of market censorship, and demands in the name of social justice to rein in the right to offend. It includes interviews with more than sixty cartoonists and insights from art historians, legal scholars, and political scientists--all presented in graphic form. This engaging account makes it clear that cartoon censorship doesn't just matter to cartoonists and their fans. When the red lines are misapplied, all citizens are potential victims.

ANTHONY L. HALL takes aim at every important issue of our time with a unique and refreshing perspective. He comments on: Obama accepting the Nobel Prize Many people are still wondering what that mysterious light hovering over Norway was on the night

before he arrived. But, despite claims that it was generated by a UFO or the failed test launch of a Russian missile, die-hard believers (like me) will tell you that it was just a celestial sign heralding the Nobel coming of Barack Obama. The swine flu pandemic that wasn't An Obama advisor has been quoted saying, You never want a serious crisis to go to waste It is instructive to note that the pharmaceutical companies that produce vaccines, as well as the peddlers of surgical masks and other flu paraphernalia, appear to be heeding this advice. Movie about Nehrus affair with the wife of a British diplomat One can only imagine the physical passion they shared, especially in light of Edwinas reputed nymphomania, which, notwithstanding Nehrus efforts, she reportedly satiated by making scandalous booty calls on a black man for over 30 years. Christmas Day underwear bomber [W]e had the secretary of Homeland Security, Janet Napolitano, assuring us on Sunday that the system worked in this case. If this good-job-Brownie faux pas doesn't suggest that our whole airline security system is devoid of logic, nothing does. Cartoon of Obama kneeling and kissing shoe of Chinese leader To be sure, the cartoon takes some creative license. But the essential point it conveys is undeniable: America cannot stand like a superpower with China squeezing its balls in a financial vise grip! Expenses scandal that rocked UK Parliament Who knew that the only swine flu Britons had to worry about was an epidemic of MPs feeding at the public trough like pigs? Tiger Woods Thanksgiving-Day spat with his wife Cheating Tiger, fuming dragon.

"Insightful and venomously cynical

political cartoons . . . Rall straddles stereotypes, avoids party lines like live wires. . . . A true freethinker." --Las Vegas Mercury There simply isn't a more polarizing, more controversial, or more widely read political and social cartoonist than Ted Rall. Matt Groening: "Ted Rall makes me laugh out loud." Rush Limbaugh: "What is sad is that such an ignoramus ends up as a prominent cartoonist in major newspapers." Janet Clayton, L.A. Times editorial page editor: "He's wonderfully incisive. He has a way of looking at the world that is rarely articulated in editorial cartoons." Bernard Goldberg, author of *100 People Who Are Screwing Up America*: "There is loathsome and there is beneath loathsome. And then there's Ted Rall." Love him or hate him, Rall has a unique drawing style and makes caustic social commentary that sets him apart from the pack. *America Gone Wild* features Rall's most controversial cartoons assembled for the first time in a single collection. Rall views his strips as a vehicle for driving social change. He applies his outrageous sense of humor to volatile topics from 9/11 and the Iraq war to social issues such as unemployment, the environment, and religion. This collection comprises his edgiest material and features lengthy behind-the-scenes commentary from Rall.

**The Best of Mac** Toward Freedom In syndicated editorial cartoonist Ann Telnaes' first book, she takes on the important and complex issues of the day, distilling their essence and expressing her sense of humor and her sense of justice-and injustice. The book begins with an extensive interview, and each cartoon is accompanied by commentary.--From publisher description.

### *Signature Wound Century*

A pioneer of Southern California underground culture, Raymond Pettibon (\*1957 in Tucson) has blurred the boundaries of "high" and "low" since the late seventies--from the deviations of marginal youth to art history, literature, sports, religion, politics, and sexuality. Rich in detail, his obsessively worked drawings draw freely on myriad sources spanning the cultural spectrum. The resulting highly poetic constructions function as acute and authentic reflections of contemporary society. Throughout the years, his subjects have included political figures and historical events, with particular intensity since the events of September 11, 2001. The volume features images of Ronald and Nancy Reagan, J. Edgar Hoover, Bush senior and junior, the Kennedys, Adolf Hitler, Barack Obama, and Osama bin Laden alongside scenes from the Vietnam War, the wars in Iraq and Afghanistan, the prisoner abuse in Abu Ghraib, and protest movements.

### *Get Your War on* Lexington Books

Has the world changed since September 11, 2001? It has for at least one band of subversive operatives who scheme in the shadows to ambush politicians. I'm speaking, of course, of the small yet poorly organized cells of individuals who take advantage of the freedoms this nation provides in order to carry out their roles as political cartoonists. I'm one of them and this is my story. I've operated inside these borders for many years, confounding immigration officials by the simple yet elegant strategy of being born here. The primary targets of my drawing have always been the leaders of my own government from city council to Congress to the president. That's what cartoonists do and that's what the public expects of us. But what

happens when an enemy force attacks the government, not with sarcasm and satire, but with commercial aircraft loaded with jet fuel, and destroys national landmarks in New York City and Washington D.C., killing thousands of people? In the immediate aftermath of the September 11 attack a lot of things changed, and I felt like one of them was my job description. No more mucking around with Gary Condit. The social security lock box was now a dead issue. And while it was tempting to make something of the president's disappearing act in Air Force One on that day, it's tough to attack the commander-in-chief when the United States itself has just been attacked. This book contains a collection of my cartoons from that day forward.

The editorial cartoon, perhaps one the most enduring features of the African newspaper, carries perception of a less cerebral form of journalism consigned to laughter and flippancy. However, editorial cartoons' effectiveness goes beyond laughter. This book not only responds to the call for a broader debate on media and terrorism, but also examines how editorial cartoons in Kenya, between 1998 and 2008, contributed to the discursive construction of terrorism and the so-called war on terror. Drawing from events surrounding major terror attacks at the high noon of 'al-Qaida terrorism', this book highlights how editorial cartoons in Kenya provided insights into

the vicissitudes that characterized terrorism and its war. Dissertation. (Series: Contributions to African Research / Beitrage zur Afrikaforschung, Vol. 67) [Subject: Politics, Media Studies, African Studies]

The Cartoon History of the Modern World

Part 2 Greenhaven Press, Incorporated  
On October 9th 2001, David Rees posted 8 comic strips on his website, depicting the violence of Bush's War on Terrorism. The response was overwhelming. Since that night over eight million people have visited the site ([www.mnftiu.cc](http://www.mnftiu.cc)) as Rees continues to add material that responds to the events of the past months including the anthrax scare, the Enron scandal, the establishment of the Office for Homeland Security, the Israeli incursions and the Palestinian suicide bombings. Combining the savagery of Gerald Scarfe, the profane wisdom of South Park, and the office drone anxieties of Dilbert with the current-events-skewering savvy of Joe Sacco, *Get Your War On* critiques the US government's ambiguous war on terrorism to reveal a surprisingly wide spectrum of public opinion, bravely giving voice to a grieving, angry, and confused citizenry.

Religion and War iUniverse

The decolonization of Algeria represents a turning point in world history, marking the end of France's colonial empire, the birth of the Algerian republic, and the appearance of the Third World and pan-Arabism. Algeria emerged from colonial domination to negotiate the release of American hostages in Iran during the Carter administration. Radical Islam would later rise from the ashes of Algeria's failed democracy, leading to a civil war and the training of Algerian terrorists in Afghanistan. Moreover, the decolonization of Algeria offered an

imperfect model of decolonization to other nations like South Africa that succeeded in abolishing apartheid while retaining its white settler population. Algeria and its war of national liberation therefore constitute an inescapable reference for those looking to understand today's "war on terror" and ever-expanding islamophobia in Western media circuits. Consequently, it is imperative that students and educators understand the global implications of the Algerian War and how to best approach this conflict in school and at home so as to learn from the consequences of misrepresentation at all levels of the memory transmission chain. These objectives are all the more important today given the West's misunderstanding and mischaracterization of Islam, the Arab Spring, the Muslim-majority world, and, most importantly, the continuing influence of French colonialism—especially in the postcolonial era. Conceived as a case study, *The Algerian War in French-Language Comics: Postcolonial Memory, History, and Subjectivity* argues that comics provide an alternative to textbook representations of the Algerian War in France because they draw from many of the same source materials yet produce narratives that are significantly different. This book demonstrates that although comics rely on conventional vectors of memory transmission like national education, the family, and mainstream media, they can also create new and productive dialogues using these same vectors in ways unavailable to traditional textbooks. From this perspective, these comics are an effective and alternative way to develop a more inclusive social consciousness. Life Begins at Incorporation Anova Books

Cartoonist Dan Florentino explores today's hottest issues - drugs, crime, privacy, fundamentalism, climate change, media madness and global power plays. Armed with a pen and a fertile imagination, he takes aim at the status quo, challenging greed and ignorance with a nimble humor and dark intelligence. With more than 100 illustrations, this handy compendium deconstructs the New World Order with the help of the wise words of 47 other authors - including Greg Palast, Vandana Shiva, Michael Parenti, Danny Schechter, Norman Solomon, Brian Tokar, Subcommandante Marcos, Chip Berlet, William Blum, and many more. Great thoughts, and big cartoons. A veritable graphic guide for anyone who cares about the state, and fate, of the earth. Creators Publishing

Are corporations people? Is birth control a sin? Can the president kill you with a drone strike? In this essential collection, Pulitzer Prize Finalist Matt Bors mixes the best political cartoons from his prolific body of work with 15 essays to answer the most perplexing questions of our time. From wandering the halls of a church-run haunted house in Ohio to meeting in Afghanistan with victims of America's War on Terror to speculating on the secret lives of homophobes, Bors ridicules the people and problems plaguing this fair nation. Never has reading about economics and mass shootings been this enjoyable!

Cartoons have the astonishing power to encapsulate a historical moment or popular mood, and this magnificent new survey tells the story of modern Britain

through hundreds of the finest examples. Year by year, from the death of Queen Victoria to the wars in Iraq and Afghanistan, it shows the views taken by the nation's leading cartoonists of the issues and personalities that dominated the news - some of worldwide significance (the outbreak of the Second World War, for example), some of major social and political importance (the rise of the Suffragettes), some reflecting more parochial obsessions (football, bad traffic and the curse of the mobile phone). Occasionally they show a nation united, but more often they reveal where battlelines have been drawn, whether they're cartoons supporting or attacking appeasement, trade unions, the EU or contraception, or seeking to praise or bury Winston Churchill, Margaret Thatcher, Tony Blair or the royal family. A number of the cartoons shown here have achieved iconic status, such as David Low's savage attacks on Hitler and Steve Bell's portrayal of John Major with his pants over his trousers. The majority, however, have not seen the light of day since they were first published, and quite a few are shown here for the first time, having been rejected or censored by contemporary newspapers. Together they offer fascinating, revealing - and often very funny - snapshot views of Britain over the course of a tumultuous century.

Yesterday's Enemy Random House

An Iraq War vet struggles with a traumatic brain injury in this Doonesbury book that examines the impact of combat of American soldiers.

Headbanging Humvee driver SFC Leo Deluca (a.k.a. Toggle) had a love of ear-bleed battle music—until the sonic distraction led to his vehicle getting blown up in Iraq. Missing an eye and suffering from aphasia, Toggle fights to

recover from traumatic brain injury (TBI), a journey of recovery that brings out the best in his former commander, B.D. Toggle's tattooed, metalhead mom initially has reservations about his improbable Facebook romance with an MIT tech-head named Alex, but love blooms. As the story unfolds, Toggle finds himself drawn toward a career in the recording industry, undaunted by the limitations of the New Normal that now defines his life. Crafted with the same kind of insight, humor, and respect that earned Trudeau a Pulitzer prize, *Signature Wound* is a perceptive and timely look at the contemporary soldier's experience.

Looking at topics across the spectrum of America's wars, religious groups, personalities, and ideas, this volume shows that even in an increasingly secular society, religious roots and values run deep throughout American society and are elevated in times of war. There is a long and deep relationship between religion, politics, and war in U.S. history. While there is a constitutional and legal separation of religion and the state in American society, religion has been and remains a potent force in American culture and politics affecting many aspects of life, including perspectives on war and peace and the experience of war in U.S. history. From the American Revolution to the wars of the 21st century, religious values have informed and influenced American attitudes toward war and peace and have provided rationale for support and non-support of American participation in conflicts. An overview essay surveys the background and significance of religion in American

culture and provides historical context for discussions of contemporary topics. A timeline highlights key events related to wars and conflicts. The volume then includes more than 50 topical essays that discuss specific wars as well as religious themes within culture and politics, ultimately providing a detailed overview of the intersection of religion, war, and politics in contemporary America.

To commemorate the hundredth anniversary of the Gallipoli landings, this groundbreaking book is a history of Australia at war as seen through the published work of Australia's finest cartoonists. Australia has had, over the years, a political-cartoon heritage second to none. From Livingstone Hopkins, Norman Lindsay, Sir David Low, Mick Armstrong, Alex Gurney, William Pigeon, and Paul Rigby, to name but a few, through to the likes of today's cartoonists such as Alan Moir, Mark Knight, Bruce Petty, and David Rowe, you can now enjoy the acerbic wit and brilliant draughtsmanship of works that have not been seen since the day they were first published. This book visually chronicles the fortunes and misfortunes of the Australian military, as well as the civilian population at home, from the Boer War, the two World Wars, Korea, Vietnam, and Iraq, through to the present conflict in Afghanistan. With commentary throughout, with insights provided by the cartoonists themselves, each cartoon is put into historical perspective, in order for the reader to enjoy and appreciate the context within the cartoon. All the cartoons featured in this book were originally published either in Australian magazines or newspapers.
