Please note: This is a companion version & not the original book. Sample Book Insights: #1 I began training dogs in late 1986. I had just completed four years' active service in the Navy, and I looked at this as a chance to pursue my dream of being a dog trainer. However, the experience made the work harder than it should have been. #2 I was only 11 when Lassie went off the air in 1974, and I was 14 when my father went into business for himself. I was heavily involved in the development of my father's business, and I felt a responsibility that was implied, if not actually spoken, by my parents. #3 I was named Robert Weatherwax like my dad, which meant that I was always going to be associated with the dog training industry. I had been involved with Lassie since I was a kid, and when my father died, I decided to continue training dogs. #4 I have been training dogs privately since the end of my movie dog training years. I learned to appreciate my current clientele and have always felt that this career was for a bigger purpose than training a dog for a movie that might simply go straight to video.

America's foremost authorities on dog care and training distill decades of experience in a comprehensive "foundational" guide for dog owners. No matter what training method or techniques you use with your dog, the training is unlikely to be optimally successful unless it is predicated on an understanding of the dog's true nature. Dogs need food, water, exercise and play, rest, veterinary care--the basics. But since dogs naturally want to be led, they also need focused and compassionate guidance. Through abundant stories and case studies, the authors reveal how canine nature manifests itself in various behaviors, some potentially disruptive to domestic accord, and show how in addressing these behaviors you can strengthen the bond with your dog as well as keep the peace. The promise of this book is that, especially in an ever-accelerating world filled with digital distractions, you can learn from your dog's example how to live in the moment, thereby enriching your life immeasurably.
