Greek epics of the archaic period include
poems that narrate a particular heroic
episode or series of episodes and poems
that recount the long-term history of

families or peoples. They are an important
source of mythological record. Here is a
new text and translation of the examples
of this poetry that have come down to us.
The heroic epic is represented by poems
about Heracles and Theseus, and by two
great epic cycles: the Theban Cycle, which
tells of the failed assault on Thebes by the
Seven and the subsequent successful
assault by their sons; and the Trojan
Cycle, which includes Cypria, Little Iliad,
and The Sack of Ilion. Among the
genealogical epics are poems in which
Eumelus creates a prehistory for Corinth
and Asius creates one for Samos. In

presenting the extant fragments of these
early epic poems, Martin West provides
very helpful notes. His Introduction places
the epics in historical context.

The definitive translation by Dick Davis of
the great national epic of Iran—now newly
revised and expanded to be the most
complete English-language edition A
Penguin Classic Dick Davis—“our pre-
eminent translator from the Persian” (The
Washington Post)—has revised and
expanded his acclaimed translation of
Ferdowsi’s masterpiece, adding more than

100 pages of newly translated text. Davis's elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished

scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Discover a new passion for a very old language, a language that can express what can't be said in any other, and thrillingly relevant to our lives today. A language that rewards desire by giving its own modal verb; bequeaths lovers a special case beyond singular and plural; prioritises mindfulness and dynamic presence through its very own grammar. A language that can transform our relationship to time and to those around us. A love song to the language of the greatest poets, philosophers, adventurers, lovers, and generals that ever lived. In Marcolongo's words: "Greek has been the longest and most beautiful romance of my life." Whether or not readers are familiar with ancient Greek, they will find Marcolongo's boundless enthusiasm for her subject utterly infectious.

Heroines of the French Epic The Epic of Gilgamesh: Selected Readings from its Original Early Arabic Language
This book sets out to disentangle the complex chronology of early Greek epic poetry, which includes Homer, Hesiod, hymns and catalogues. The preserved

corpus of these texts is characterized by a rather uniform language and many recurring themes, thus making the establishment of chronological priorities a difficult task. The editors have brought together scholars working on these texts from both a linguistic and a literary perspective to address the problem. Some contributions offer statistical analysis of the linguistic material or linguistic analysis of subgenres within epic, others use a neoanalytical approach to the history of epic themes or otherwise seek to track the development and interrelationship of epic contents. All the contributors focus on the implications of their study for the dating of early epic poems relative to each other. Thus the book offers an overview of the current state of discussion.

The querelle des anciens et des modernes - the question whether writers should imitate the classics or use literary forms which seemed more suited to their own era - had been debated in Europe since the earliest days of the Renaissance. This book analyses the development of the

querelle following the adoption of the argument of the modernist faction of seventeenth-century France.

We use language all day, every day - probably without thinking much about it. But if you stop and consider it, language is not only extremely important, it's fascinating too! Use of language is one of the key things distinguishing humans from other animals, and nearly 7,000 languages are spoken around the world. Without it, we'd be hard pressed to communicate, express ourselves, or understand others. The Book of Languages begins with an introduction to why language is important, how it originated and how it changes. From there, the book profiles 21 of the world's languages. Each spread showcases a language's history, where it's spoken, what it looks like and how to speak a few phrases and count to ten. Rounded out with sections on non-verbal and animal language, this book will stimulate readers' curiosity about the world and spark appreciation for language learning.

This compendium (4 vols.) studies the continuity, flexibility, and variation of structural elements in epic narratives. It provides an overview of the structural patterns of epic poetry by means of a standardized, stringent terminology. Both diachronic developments and changes within individual epics are scrutinized in order to provide a comprehensive structural approach and a key to intra- and intertextual characteristics of ancient epic poetry.

'One of the great mythic poems of Europe' The New York Times Sharing its title with the poetic name for Finland - 'the land of heroes' - Kalevala is the soaring epic poem of its people, a work rich in magic and myth which tells the story of a nation through the ages from the dawn of creation. Sung by rural Finns since prehistoric times, and formally compiled by Elias Lönnrot in the nineteenth century, it is a landmark of Finnish culture and played a vital role in galvanizing its national identity in the decades leading to independence. Its themes, however, reach beyond borders and search the heart of human existence. Translated with an Introduction by Eino Friberg

Die beiden großen Epen des (alten) Indiens, das Mahabharata und das

Ramayana, sind in einer Sprache verfasst, die sich in vielen Einzelheiten von der Hochsprache des sog. klassischen Sanskrit unterscheidet. Bei der immensen

Bedeutung, die beide Texte bis zum heutigen Tag in Indien und darüber hinaus besitzen, wurde das Fehlen einer Grammatik, in der möglichst alle

Eigenarten des epischen Sanskrit beschrieben sind, immer schmerzlich beklagt. Die Grammar of Epic Sanskrit soll nun diese Lücke schließen.
