Encyclopedia of Bilingualism and Bilingual Education Multilingual Matters
Makes accessible to English speakers the current status of the development and distribution of the French language, the international movement for using it through nearly 50 countries and regions, and the cultural and political values it offers to the rest of the world. Outlines the development and distribution of Francophonie; problems of culture and

identity, the last colonies, economics and organization; and prospects in Africa, Asia and the Pacific, and Europe. For North Americans, places the otherwise sometimes perplexing concerns of Quebec into a historical and international perspective. Annotation copyright by Book News, Inc., Portland, OR

English in the German-speaking World Cambridge University Press
Monaco has long been known for its wealth. Readers discover the beautiful views, bustling casinos, and historic reputation that has made this small

sovereign city-state one of the most well-known tourist destinations on Earth. Stunning photographs of Monaco and the people who call it home are paired with informative text that details the history, lifestyle, and culture of this magical spot on the French Riviera. Fact-filled sidebars provide additional information, maps help readers develop essential skills, and recipes bring a taste of Monaco into readers' homes.

It is generally agreed that about 7,000 languages are spoken across the world today and at least half may no longer be spoken by the end of this century. This state-of-the-art Handbook examines the reasons behind this dramatic loss of linguistic diversity, why it matters, and what can be done to document and

support endangered languages. The volume is relevant not only to researchers in language endangerment, language shift and language death, but to anyone interested in the languages and cultures of the world. It is accessible both to specialists and non-specialists: researchers will find cutting-edge contributions from acknowledged experts in their fields, while students, activists and other interested readers will find a wealth of readable yet thorough and up-to-date information.

Six thousand years. Sixty languages. One "brisk and breezy" whirlwind armchair tour of Europe "bulg[ing] with linguistic trivia" (The Wall Street

Journal). Take a trip of the tongue across the continent in this fascinating, hilarious and highly edifying exploration of the many ways and whys of Euro-speaks—its idiosyncrasies, its histories, commonalities, and differences. Most European languages are descended from a single ancestor, a language not unlike Sanskrit known as Proto-Indo-European (or PIE for short), but the continent’s ever-changing borders and cultures have given rise to a linguistic and cultural diversity that is too often forgotten in discussions of Europe as a political entity. Lingo takes us into today’s remote mountain villages of Switzerland, where Romansh is still the lingua franca, to formerly Soviet Belarus, a country whose language was Russified by the Bolsheviks, to Sweden, where up until

the 1960s polite speaking conventions required that one never use the word “you.” “In this bubbly linguistic endeavor, journalist and polyglot Dorren thoughtfully walks readers through the weird evolution of languages” (Publishers Weekly), and not just the usual suspects—French, German, Yiddish, Irish, and Spanish, Here, too are the esoteric—Manx, Ossetian, Esperanto, Gagauz, and Sami, and that global headache called English. In its sixty bite-sized chapters, Dorret offers quirky and hilarious tidbits of illuminating facts, and also dispels long-held lingual misconceptions (no, Eskimos do not have 100 words for snow). Guaranteed to change the way you think about language, Lingo is a “lively and insightful . . . unique, page-turning book”

(Minneapolis Star Tribune).

“Movie Speak won’t guarantee you a job, but having a knowledge of the industry terms will fool everyone into thinking you own the place.” — Steven Spielberg
 “Finally a book that celebrates the process—the dynamic web of people, technique, and artistry—underneath every foot of celluloid.” —Jodie Foster
 Uncover the secret language of movie-making in a handbook for film buffs and language-lovers, as well as anyone who aspires to break into the business, with

hundreds of essential terms, explained. Opening a window into the fascinatingly technical, odd, colorful, and mysterious working language of movies, Oscar-winning producer, actor, and director Tony Bill sheds light on the hugely complex process of making a film, as well as on the hierarchies between the cast and crew and the on-set etiquette of any movie production. From why the Assistant Director calls “wrap” to the real reason Hollywood stars began wearing sunglasses, *Movie Speak* offers tricks of the trade learned over decades in Hollywood—to help you crack the code of the movie business.

The first global history of African linguistics as an emerging autonomous academic discipline, covering Africa, the Americas, Asia, Australia, and Europe. The Language Game Monaco

From the seventeenth century to the early years of the twentieth, the population of Martha's Vineyard manifested an extremely high rate of profound hereditary deafness. In stark contrast to the experience of most deaf people in our own society, the Vineyarders who were born deaf were so thoroughly integrated into the daily life of the community that they were not seen—and did not see themselves—as handicapped or as a group apart. Deaf people were included in all aspects of life, such as town politics, jobs, church affairs, and social life. How was this

possible? On the Vineyard, hearing and deaf islanders alike grew up speaking sign language. This unique sociolinguistic adaptation meant that the usual barriers to communication between the hearing and the deaf, which so isolate many deaf people today, did not exist.

"Francophonie" in the 1990's Random House

Of the approximately 7,000 languages in the world, at least half may no longer be spoken by the end of the twenty-first century. Languages are endangered by a number of factors, including globalization, education policies, and the political, economic and cultural marginalization of minority groups. This guidebook provides ideas and strategies, as well as some background, to help with

the effective revitalization of endangered languages. It covers a broad scope of themes including effective planning, benefits, wellbeing, economic aspects, attitudes and ideologies. The chapter authors have hands-on experience of language revitalization in many countries around the world, and each chapter includes a wealth of examples, such as case studies from specific languages and language areas. Clearly and accessibly written, it is suitable for non-specialists as well as academic researchers and students interested in language revitalization. This book is also available as Open Access on Cambridge Core.

What are the most widely spoken non-English languages in the USA? How did they reach the USA? Who speaks them, to whom, and for what purposes? What changes do these languages undergo as they come into contact with English?

This book investigates the linguistic

diversity of the USA by profiling the twelve most commonly used languages other than English. Each chapter paints a portrait of the history, current demographics, community characteristics, economic status, and language maintenance of each language group, and looks ahead to the future of each language. The book challenges myths about the 'official' language of the USA, explores the degree to which today's immigrants are learning English and assimilating into the mainstream, and discusses the relationship between linguistic diversity and national unity. Written in a coherent and structured style, *Language Diversity in the USA* is essential reading for advanced students and researchers in sociolinguistics, bilingualism, and education.

Monaco et le prisonnier du Rocher. Luigi Ciardelli En collaboration avec Corinne Héron-Mimouni, agent pénitentiaire. Placé sous les verrous en France pour braquage, Luigi Ciardelli est en route, extradé vers l'Italie, pour purger sa peine, lorsque le camion pénitentiaire dévie vers Monaco. La justice monégasque veut le récupérer. Considéré comme l'ennemi numéro 1, LUigi Ciardelli se retrouve emprisonné dans l'une des prisons la plus discrète du monde : celle de Monaco. On suit le confit qui, dès le début, l'oppose à l'administration monégasque qui refuse de l'envoyer dans une prison italienne. Le bras de fer est inégal, et Luigi Ciardelli n'aura dès lors qu'un seul but :

s'évader. Dans son projet d'évasion, il entraîne un ancien marin américain. L'auteur devient alors le personnage d'un réel roman d'aventure. L'évasion est réussie. Le Rocher est ébranlé. Des explications s'imposent. S'est-il évadé sans aide extérieure ? Une rumeur de complot commence à planer sur la Principauté. Ce document vécu, d'un homme qui accepte de témoigner, est l'occasion de réfléchir au thème de la justice sous un aspect jamais abordé. La peine de prison, seule réponse à la délinquance, n'est plus vue à travers le délabrement des prisons françaises et laisse ainsi l'auteur s'exprimer sur la notion d'enfermement. Un sujet intemporel. Luigi Ciardelli a prêté sa plume à Corinne Héron-Mimouni, auteur notamment de Matonne aux éditions

Ramsay.

Speech Pathology in Cultural and Linguistic Diversity Cambridge University Press

This volume offers an insider perspective on language policy in the EU, bringing together two key figures well acquainted with its development to reflect critically on the future of language policy and practices in post-Brexit Europe. Born out of Alice Leal's English and Translation in the European Union, this volume features annotated interviews with Seán Ó Riain, newly appointed Multilingualism Officer by the Irish diplomatic service, whose decades of experience in key milestones in EU language policy offer a unique perspective on its development. Each chapter, bookended by a contextual introduction and a closing

commentary by Leal, addresses such key questions as: How long can the EU keep linguistic and cultural spheres off the policy-making agenda? How has the ECRML impacted linguistic diversity in the region? How widespread is the dominance of English in EU institutions today and what impact does it have on EU multilingualism? Why is EU language policy not given the attention it warrants? What does the future of language policy hold in this post-Brexit era? Providing exclusive insights into EU language policy, this book will appeal to scholars in applied linguistics, translation studies, sociolinguistics, and political science, as well as stakeholders in language policy and planning.

It's not exactly Xanadu but the Kubla Khan, Ormand Monaco's new super-luxury hotel in Palm Desert, California is designed and built to transport visitors to what such a palace would be like. He's planned a beauty contest as part of the grand opening but what nobody had planned on are a couple of murders that stir things up and start to spoil the show. Who better than Shell Scott to come in and sort things out? As he unravels the knots--and the one holding up Lyssa Weldon's towel unravels all by itself--the usual mix of lust and mayhem that surrounds Shell Scott spreads in all directions--and threatens to drown him if he doesn't finish sorting things out in a hurry. The Kubla Khan Caper is the 32nd book in the Shell Scott Mysteries, but you may enjoy reading the series in any

order.

Hunter Davies's first major interview was with John Masefield for The Sunday Times in 1963. In the years since, he has interviewed many of the most famous people that the late twentieth century has to offer, from James Baldwin and Orson Welles to Jack Nicholson and Salman Rushdie. In an eclectic and highly readable selection, we learn that Noel Coward enjoyed watching operations and considered himself 'about as decadent as a suet pudding', David Hockney dyed his hair because 'blonds have more fun', and Anthony Burgess had yet to touch the body of an Englishwoman. Christy Brown concedes 'I'm just a run-of-the-mill genius', while

Alan Sugar admits 'I'm a miserable sod'. The book opens with a specially written introduction in which Hunter Davies explores the art of the Celebrity Interview, and turns the tables to interview fellow practitioners, such as Lynn Barber and Angela Lambert. What is the origin of the Romance

languages and how did they evolve? When and how did they become different from Latin, and from each other? Volume 2 of *The Cambridge History of the Romance Languages* offers fresh and original reflections on the principal questions and issues in the comparative external histories of the Romance languages. It is organised around the two key themes of influences and institutions, exploring the fundamental influence, of contact with

and borrowing from, other languages (including Latin), and the cultural and institutional forces at work in the establishment of standard languages and norms of correctness. A perfect complement to the first volume, it offers an external history of the Romance languages combining data and theory to produce new and revealing perspectives on the shaping of the Romance languages.
