Readers, be warned: you are about to fall in love. Tracy writes, "Good math teaching begins with us." With those six words, she invites you on a journey through this most magnificent book of stories and portraits...This book turns on its head the common misconception of mathematics as a black-and-white discipline and of being good at math as entailing ease, speed, and correctness. You will find it full of color, possibility, puzzles, and delight...Let yourself be drawn in. Elham Kazemi, professor, math education, University of Washington While mathematicians describe mathematics as playful, beautiful, creative, and captivating, many students describe math class as boring, stressful, useless, and humiliating. In *Becoming the Math Teacher You Wish You'd Had*, Tracy Zager helps teachers close this gap by making math class more like mathematics. Tracy spent years with highly skilled math teachers in a diverse range of settings and grades. You'll find this book jam-packed with new thinking from these vibrant classrooms. You'll grapple with big ideas: How is taking risks inherent to mathematics? How do mathematicians balance intuition and proof? How can teachers value both productive mistakes and precision? You'll also find dozens of practical teaching techniques you can try in your classroom right away--strategies to stimulate students to connect ideas; rich tasks that encourage students to wonder, generalize, conjecture, and persevere; routines to teach students how to collaborate. All teachers can move toward increasingly authentic, delightful, robust mathematics teaching and learning for themselves and their students. This important book helps us develop instructional techniques that will make the math classes we teach so much better than the math classes we took.

"A necessary addition to any collection on magic and witchcraft." — *Publisher's Weekly* From the bestselling author of *Practical*

Magic Nikki Van De Car comes *Shadow Magic*, an expansive, beautiful primer on cultivating your own innate power, magic, and strength through shadow work—the mystical art of engaging with your deepest internal self. Human beings are incredibly complex. We are more than just our happiness or sunny dispositions, and we have much to offer others and ourselves even on our worst days. There is magic and energy and potential in these moments—in the shadow—and we cannot be the fullest expression of ourselves, at our most powerful, unless we embrace and embody all that we are. *Shadow Magic* is here to assist you in uncovering, understanding, and celebrating your own shadow. Author Nikki Van De Car teaches us to work with the shadow, rather than trying to suppress or ignore it—allowing each of us to uncover the whole, integrated witch within. Through foundational lessons on psychologist Carl Jung's concept of the shadow; explorations of magical topics like the moon, dream magic, and symbology; and rituals and spells for connecting to your own deepest self, *Shadow Magic* invites all of us to harness the shadow's power to bring more magic into our lives. The spells and rituals in this book will help you bring awareness and healing to whatever you may be carrying that you would rather leave behind. As you do so, you'll uncover your personal power, including abilities and gifts that you may not have recognized within yourself. You'll work with sigil magic and symbology, with tarot and candle magic, with the moon, and with dreams. Each section includes three spells for you to try: one for creativity, one for intuition, and one for self-love. And along the way you'll encounter profiles of witches and women throughout history who embraced their own shadows, even when it wasn't popular. Throughout this book you will learn to embrace what it means to be in relationship with your own shadow, in a process of growth and exploration that will enhance all aspects of the self, allowing for a fuller, more magical life.
