Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language-quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your

unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio program called A Love Language Minute that can be heard on more than 150 radio stations as well as the weekly syndicated program Building Relationships with Gary Chapman,

which can both be heard on fivelovelanguages.com. The Five Love Languages is a consistent New York Times bestseller - with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running!

Grounded in history and guided by theory, this book proposes a new inclusive cultural label, Hualish, to remedy the limitations of the word "Chinese" and replace it as the culture label for the

people of "greater China" origin. The book first introduces the Culture Design Paradigm, a general culture design paradigm with three core components: vitality, structure, and foci. It then uses the Culture Design Paradigm to construct the new conceptual identity, Hualish. This is followed by detailed discussion of three practical paths that can lead to a desirable Hualish identity - the recipe path, the example path, and the normative path. Lastly, the book proposes Humanistic Hualish as a converging and gravitative Hualish culture. Built upon a rigorous academic foundation, the book provides practical guidance to individuals, families,

associates, as well as organizations.

Audit and inspection of local authorities

Taylor & Francis

Today, marriages have a 50 percent chance of lasting. Longing to improve those odds, pastor Clayton King, author of the popular *Dying to Live*, and his wife, Sharie, reveal a revolutionary biblical perspective—at the heart of a godly union is a heart of service. Love is more about understanding one's spouse than being understood. Offering wisdom from God's Word and beneficial advice from their decade of marriage, the Kings present 12 relationship-building questions for couples to ask before they wed.

They guide and encourage couples to discuss their: religious backgrounds past relationships desires for family and future financial habits and goals vocational aspirations These questions reveal expectations and concerns and help each person understand the needs and hopes of their loved one. A great resource for churches, counselors, dating couples, and young men and women who dream of a forever marriage.

Local authority control of audit and performance provides opportunities to improve value for money and to focus more closely on local priorities. However, there are significant

risks to accountability for public money unless new legal and practical arrangements are put in place to uphold the vital principle of auditor independence. Until now the Audit Commission has been the regulator, commissioner and major provider of local government audit services (undertaking 70% of the local government audit and commissioning the remaining 30% under contract from five private audit firms). Under the changes proposed, local government will in future appoint their own auditors. The Government plans to introduce a public audit bill in the autumn. The Committee argues this legislation must set out a number of key

principles to govern public audit arrangements in the future: strict adherence to the principle of auditor independence; a majority of independent members on any local audit committee; additional safeguards to ensure the continued effectiveness of public interest reporting; a proportionate and risk based approach to the scope of local government audit - to permit local innovation and application, particularly with regards to local value for money work. The Committee also welcomes the LGA's proposals for sector-led performance management, but calls on the Government to clarify arrangements for intervention in the exceptional cases of

serious corporate or service failure. It also repeats its call for the Government to examine the contribution which robust local government scrutiny arrangements could make to improving local government performance.

imagination from the beginning of the twentieth century to the present in the Indian context. This unique book uses methods from anthropology, cultural studies and history to explore the making of modern cultures of sexuality in India. It provides an analysis of the sexual and domestic politics of the period by focusing on the vast corpus of publications and journals on sexology from the 1920s to the 1940s, and links Indian activities with those in other parts of the world. The author analyzes material that has thus far been outside the purview of scholarly studies, namely, 'footpath pornography', magazines such as Sexology Mirror (in

Hindi), women's magazines dealing explicitly with sex and sexuality.

In spite of the

undoubtedly great and rising importance of the international legislative co-operation regarding private international law, it must be remembered that no successful unification or harmonization of conflict rules has ever taken place on the universal level, and that the conflict rules stemming from international legislative co-operation between a limited number of countries give rise to the same problems as non-harmonized rules, whenever they have to be used in relation to countries not participating in the legislative co-operation in question. This book will therefore focus on the last-mentioned problems and refrain from dealing with the particular issues

arising from international legislative co-operation in the field of private international law. One of the principal aims of Michael Bogdan is to demonstrate the relationship between the national rules of private international law and the rest of the legal system of the forum country, in the first place its substantive private law and its law of civil procedure, as well as to illustrate the impact of the forum country's general ethical and other values on its private international law.

Becoming a Marriage and Family Therapist Springer

Nature
 “After years of debate and inquiry, the key to a great marriage remained shrouded in mystery. Until now...”—Carol Dweck, author of *Mindset: The New Psychology of Success* Eli J. Finkel's insightful and groundbreaking investigation of marriage clearly shows that the best marriages today are better than the best marriages of earlier eras. Indeed, they are

the best marriages the world has ever known. He presents his findings here for the first time in this lucid, inspiring guide to modern marital bliss. The All-or-Nothing Marriage reverse engineers fulfilling marriages—from the “traditional” to the utterly nontraditional—and shows how any marriage can be better. The primary function of marriage from 1620 to 1850 was food, shelter, and protection from violence; from 1850 to 1965, the purpose revolved around love and companionship. But today, a new kind of marriage has emerged, one oriented toward self-discover, self-esteem, and personal growth. Finkel combines cutting-edge

scientific research with practical advice; he considers paths to better communication and responsiveness; he offers guidance on when to recalibrate our expectations; and he even introduces a set of must-try “lovehacks.” This is a book for the newlywed to the empty nester, for those thinking about getting married or remarried, and for anyone looking for illuminating advice that will make a real difference to getting the most out of marriage today.

New World Library
Most couples — because they watch so many of their peers divorce and are themselves the products of failed marriages — don't

have many successful long-term-relationship role models. Parenting and communication issues are perennial, while some challenges, like increasingly 24-7 work lives and economic hardships, mark the current decade. Despite all this, psychotherapist and clinical social worker Marcia Naomi Berger asserts that most couples can make love last — they just need to learn how. Berger answers this need with a deceptively simple prescription: have an interruption-free thirty-minute (or even shorter) meeting each week and follow an agenda that includes the kind of appreciation and planning for fun that foster intimacy and pave the way for

collaborative conflict resolution. Berger has refined these techniques while working with hundreds of couples — with results that are both practical and profound.

In this volume, black-letter Rules of Professional Conduct are followed

by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.
