Vietnam: Green Hell Never Ends Austin Macauley Publishers

In this dramatic, action-packed novel of the Vietnam War, U.S. Marine troops encounter North Vietnamese soldiers in the jungle. In war, every action has a beginning and an end . . . Echo Among Warriors is a story of close combat between two opposing, equally committed adversaries. The powerful narrative immerses the reader in both sides of the battle, playing and replaying the same battle sequence from alternating viewpoints—through the eyes of the Marines and through the eyes of the North Vietnamese. The bullet fired from a Marine’s M-16 at a silhouetted enemy soldier crouched on the jungle path will in the next chapter tear into the flesh of that crouched NVA trooper. The story—unfolding from the initial contact to the final horrific ending—represents just one of perhaps thousands of deadly encounters that reflect the reality of battle—a mind-numbing, intensely personal experience that forever changes the participant. Praise for Echo Among Warriors “An intense, you-are-there, fictionalized consideration of close-quarters fighting during the American war in Vietnam. The final ten chapters are as realistically and breathlessly action-packed as you will read anywhere.” —The VVA Veteran “Incredible detail . . . great read. . . . I know once I started reading it, it would be non-stop, and it was.” —Major Fred Allison USMC (Ret).

Freezing Cold Takes: NFL Brookings Institution Press

In *We Showed Baltimore*, Christian Swezey tells the dramatic story of how a brash coach from Long Island and a group of players unlike any in the sport helped unseat lacrosse's establishment. From 1976 to 1978, the Cornell men's lacrosse team went on a tear. Winning two national championships and posting an overall record of 42-1, the Big Red, coached by Richie Moran, were the class of the NCAA game. Swezey tells the story of the rise of this dominant lacrosse program and reveals how Cornell's success coincided with and sometimes fueled radical changes in what was once a minor prep school game centered in the Baltimore suburbs. Led on the field by the likes of Mike French and Eamon McEneaney, in the mid-1970s Cornell was an offensive powerhouse. Moran coached the players to be in fast, constant movement. That technique, paired with the advent of synthetic stick heads and the introduction of artificial turf fields, made the Cornell offensive game swift and lethal. It is no surprise that the first NCAA championship game covered by ABC Television was Cornell vs. Maryland in 1976. The 16-13 Cornell win, in overtime, was exactly the exciting game that Moran encouraged and that newcomers to the sport wanted to see. Swezey recounts Cornell's dramatic games against traditional powers such as Maryland, Navy, and Johns Hopkins, and gets into the strategy and psychology that Moran brought to the team. *We Showed Baltimore* describes how the game of lacrosse was changing—its style of play, equipment, demographics, and geography. Pulling from interviews with more than ninety former coaches and players from Cornell and its rivals, *We Showed Baltimore* paints a vivid picture of lacrosse in the 1970s and how Moran and the Big Red helped create the game of today.

No aircraft ever captured the curiosity & fascination of the public like the SR-71 Blackbird. Nicknamed "The Sled" by those few who flew it, the aircraft

was shrouded in secrecy from its inception. Entering the U.S. Air Force inventory in 1966, the SR-71 was the fastest, highest flying jet aircraft in the world. Now for the first time, a Blackbird pilot shares his unique experience of what it was like to fly this legend of aviation history. Through the words & photographs of retired Major Brian Shul, we enter the world of the "Sled Driver." Major Shul gives us insight on all phases of flying, including the humbling experience of simulator training, the physiological stresses of wearing a space suit for long hours, & the intensity & magic of flying 80,000 feet above the Earth's surface at 2000 miles per hour. SLED DRIVER takes the reader through riveting accounts of the rigors of initial training, the gamut of emotions experienced while flying over hostile territory, & the sheer joy of displaying the jet at some of the world's largest airshows. Illustrated with rare photographs, seen here for the first time, SLED DRIVER captures the mystique & magnificence of this most unique of all aircraft.

Analyzing regional challenges and their implications for U.S. foreign policy This book is an impressive overview of security and governance issues in South Asia and their implications for U.S. foreign policy in the region. The focus is on major enduring issues that include India-Pakistan relations, India-China relations, conventional forces, and nuclear weapons. The book's contributors also tackle a number of often underexplored issues, including democratic backsliding in India, authoritarian hardening in China, and the international ramifications of both. The impact of Pakistan's political culture on democracy, and the insurgency in Pakistan's Baluchistan province, along with examinations of the internal security challenges in Nepal, Bangladesh, and the Maldives provide lessons for other states on how to counterviolent extremism and insurgencies related to identity and marginalization. Anyone interested in South Asian security and U.S. policy toward the region will be rewarded with new insights on these topics, written by academics and analysts specializing in the issues. The chapter authors were close colleagues or advisees of long-time Brookings Institution senior fellow Stephen Philip Cohen. Cohen was the first American scholar to work on South Asian security studies. He largely defined the field, trained and mentored many of its leading analysts, and was himself its most experienced and insightful scholar-practitioner until his death in 2019. This book is dedicated to Cohen in recognition of his contributions to scholarship and policymaking on South Asia.
