Precalculus is adaptable and designed to fit the needs of a variety of precalculus courses. It is a comprehensive text that covers more ground than a typical one- or two-semester college-level precalculus course. The content is organized by clearly-defined learning objectives, and includes worked examples that demonstrate problem-solving approaches in an accessible way. Coverage and Scope Precalculus contains twelve chapters, roughly divided into three groups. Chapters 1-4 discuss various types of functions, providing a foundation for the remainder of the course.

Chapter 1: Functions

Chapter 2: Linear

Functions Chapter 3:

Polynomial and Rational

Functions Chapter 4:

Exponential and

Logarithmic Functions

Chapters 5-8 focus on

Trigonometry. In

Precalculus, we approach

trigonometry by first

introducing angles and

the unit circle, as opposed to the right triangle approach more commonly used in College Algebra and Trigonometry courses. Chapter 5: Trigonometric Functions Chapter 6: Periodic Functions Chapter 7: Trigonometric Identities and Equations Chapter 8: Further Applications of Trigonometry Chapters 9-12 present some advanced Precalculus topics that build on topics introduced in chapters 1-8. Most Precalculus syllabi include some of the topics in these chapters, but few include all. Instructors can select material as needed from this group of chapters, since they are not cumulative. Chapter 9: Systems of Equations and Inequalities Chapter 10: Analytic Geometry Chapter 11: Sequences, Probability and Counting Theory Chapter 12: Introduction to Calculus

The adoption of the Declaration of Independence on July 4, 1776, marked an important turning point in US history. Over the next five years, the colonists would fight to make their independence a reality.

The November 1994 midterm elections were a watershed event, making possible a Republican majority in Congress for the first time in forty years. Contract with America, by Newt Gingrich, the new Speaker of the House, Dick Armey, the new Majority Leader, and the House Republicans, charts a bold new political strategy for the entire country. The ten-point program, which forms the basis of this book, was announced in late September. It received the signed support of more than 300 GOP candidates. Their pledge: "If we break this contract, throw us out". Contract with America fleshes out the vision and provides the details of the program that swept the GOP to victory. Among the pressing issues addressed in this important book are: balancing the budget, stopping crime, reforming welfare, reinforcing families, enhancing fairness for seniors, strengthening national

defense, cutting government regulations, promoting legal reform, considering term limits, and reducing taxes.

In the early nineteenth century, the United States was growing quickly, and many people wanted to set up homes and farms in new areas. For centuries, American Indian nations—including the Cherokee—had been living on the land that white settlers wanted. The US government often stepped in to resolve conflicts between the groups with treaties. Many of these treaties called upon American Indians to give up some of their territory. The conflicts continued as more and more white settlers moved onto American Indian land. Finally, the US government passed the Indian Removal Act of 1830. This law ordered many American Indians to leave their homes. In 1838 military officials forced the Cherokee on a dangerous and heartbreaking journey from their homeland in the southeast region of the United States to territory 800 miles away in what is now the state of Oklahoma. Their journey

became known as the Trail of Tears. Learn about the Cherokee Nation's forced removal from their ancestral homeland. Track the events and turning points that led to this dark and tragic time period in US history.
