Intelligent Information and Database Systems Routledge Winner of the 2016 Man Booker International Prize NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Publisher's Weekly • Buzzfeed • Entertainment Weekly • Time • Wall Street Journal • Bustle • Elle • The Economist • Slate • The Huffington Post • The St. Louis Dispatch • Electric Literature Featured in the New York Times selection of "15 remarkable books by women that are shaping the way we read and write fiction in the 21st century" A beautiful, unsettling novel about rebellion and taboo, violence and eroticism, and the twisting metamorphosis of a soul Before the nightmares began, Yeong-hye and her husband lived an ordinary, controlled life. But the dreams—invasive images of blood and brutality—torture her, driving Yeong-hye to purge her mind and renounce eating meat altogether. It's a small act of independence, but it interrupts her marriage and sets into motion an increasingly grotesque chain of events at home. As her husband, her brother-in-law and sister each fight to reassert their control, Yeong-hye obsessively defends the choice that's become sacred to her.

Soon their attempts turn desperate, subjecting first her mind, and then her body, to ever more intrusive and perverse violations, sending Yeong-hye spiraling into a dangerous, bizarre estrangement, not only from those closest to her, but also from herself. Celebrated by critics around the world, The Vegetarian is a darkly allegorical, Kafka-esque tale of power, obsession, and one woman's struggle to break free from the violence both without and within her.

An Introduction to English grammar provides a comprehensive overview of all aspects of English grammar, and can be used in the classroom, for self-study, or as a reference book. The book is organised in two parts – on grammar and its applications – and provides everything a beginning student needs to get to grips with the theory and practice of English usage, including sections on style, punctuation and spelling. This third edition has been fully revised and updated to include an expanded section on English in Use, usage notes highlighting common errors, updated exercises, a glossary and a companion website with further graded exercises. *Chinese Computational Linguistics and Natural Language Processing Based on Naturally*

Annotated Big Data
Routledge
As digital convergence marks the transition from print to screen culture, translation plays an increasingly important role of in the production and dissemination of the news. The translation of information in the news media is a pervasive set of practices that affects the daily consumption of the news and a topic of relevance to scholars in several areas of the humanities and the social sciences. This book provides a wide-ranging and accessible introduction to research in news media translation practices, products and processes, illustrating and discussing historical, theoretical and descriptive perspectives. Inter- and multi-disciplinary research spans fields such as Translation Studies, Linguistics, Journalism and Media Studies, and includes approaches from Critical Discourse Analysis and narrative theory to Systemic Functional Linguistics and Corpus Linguistics. The book also offers first-hand analyses of news texts in English and Italian, approaching news translation from an ethnomethodological perspective.

English Vietnamese Translation Dictionary and Phrasebook

This international and interdisciplinary volume explores the relations between translation, migration, and memory. It brings together humanities researchers from a range of disciplines including history, museum studies, memory studies, translation studies, and literary, cultural, and media studies to examine memory and migration through the interconnecting lens of translation. The innovatory perspective adopted by Translating Worlds understands translation's explanatory reach as extending beyond the comprehension of one language by another to encompass those complex and multi-layered processes of parsing by means of which the unfamiliar and the familiar, the old home and the new are brought into conversation and connection. Themes

discussed include: How memories of lost homes act as aids or hindrances to homemaking in new worlds. How cultural memories are translated in new cultural contexts. Migration, affect, memory, and translation. Migration, language, and transcultural memory. Migration, traumatic memory, and translation.

Translating Worlds SAGE

The dynamics of immigration, international commerce and the postcolonial world make it inevitable that much translation is done into a second language, despite the prevailing wisdom that translators should only work into their mother tongue. This book is the first study to explore the phenomenon of translation into a second language in a way that will interest applied linguists, translators and translation teachers, and ESOL teachers working with advanced level students. Rather than seeing translation into a second language as deficient output, this study adopts an interlanguage framework to consider L2 translation as the product of developing competence; learning to translate is seen as a special variety of second language acquisition. Through carefully worked case studies, separate components of translation competence are identified, among them the ability to create

stylistically authentic texts in English, the ability to monitor and edit output, and the psychological attitudes that the translator brings to the task. While the case studies mainly deal with Arabic speakers undergoing translator training in Australia, the conclusions will have implications for translation into a second language, especially English, around the world. Translation into the Second Language is firmly grounded in empirical research, and in this regard it serves as a stimulus and a methodological guide for further research. It will be a valuable addition for advanced undergraduate and postgraduate students of applied linguistics, translation theory, bilingualism and second language acquisition as well as those involved in teaching or practicing translation at a professional level. Tuttle Publishing It's always been the same: good fortune seldom came the way of those endowed, they say, with genius and a dainty face. What tragedies take place within each circling space of years! 'Rich in good looks' appears to mean poor luck and tears of woe; which may sound strange, I know, but is not really so, I swear, since Heaven everywhere seems jealous of the fair of face. The tale of Kieu, a talented young girl, was written in verse in Vietnamese by Nguyen Du, who lived in Vietnam from 1765 to 1820. Although the

story is set in China, it was the greatest work of literature until then to be written in the Vietnamese language, and many would say it is still unrivalled. It tells the story of Kieu, a beautiful girl, who falls in love with Kim, a handsome student, and they become engaged. But while Kim is away, Kieu's father is arrested on a false charge, and Kieu follows the Confucian teaching that duty to one's parents overrides all other duties, and gives herself to be sold as a bride to a stranger. Her life continues with terrible suffering alternating with periods of relative happiness, but always she dreams of Kim. But eventually they are reunited and there is a happy ending. Michael Counsell lived as a civilian in Vietnam for almost four years during the Vietnam War. He read the tale of Kieu, and was deeply moved by the human drama and the descriptions of nature. It seemed to symbolise the suffering which the Vietnamese people, and especially Vietnamese women, endured during the twentieth century. Among the many misunderstandings of the Vietnamese people by the English-speaking world in our days, he says, we must include the failure to understand that they are a nation of poets and heirs to a great culture. So to make this story more widely known, he started to translate the poem into English. This was probably the first and may still be the only

translation made by a native speaker of English directly from the Vietnamese into English verse using the same scansion and rhyme-scheme as the original. Michael visited Hanoi in 1994, and was again struck by the beauty of the scenery and the friendliness of the people. His translation of Kieu was published in a bilingual edition, with beautiful illustrations, by the Thé Gioi Publishers. But it has proved difficult to buy that edition outside Vietnam, so in order that many more people should be able to enjoy it, the English text only is now published by Createspace, a branch of amazon, and also aas an e-book on Kindle. Michael Counsell is now living in Birmingham in England. His dream is that eventually, like Edward Fitzgerald's translation of The Rubaiyat of Omar Khayyam, his translation of Kieu may prove as popular among English-speakers as with those who can read the original. Janet Marshall writes: Kieu is not a love story in the romantic, light-hearted sense. But it expresses not only the profound and lasting love between Kieu and Kim, but also their patience and endurance through years of cruel, undeserved trials. Yet even through the darkest parts of the poem, the reader has hope of the triumph of goodness over evil, and that Kuan-Yin will eventually bring about a happy ending. All the characters are

delicately drawn, and bring a Far Eastern culture, with its modes and manners, vividly to life. So many stories from far-away lands lose much of their fascination and genuine warmth and believability in translation. It is not so in this instance. Michael Counsell, with a true understanding for, and sympathy with the Vietnamese traditions, has brought before the English reader a literary experience of extraordinary beauty.

Controlled Document Authoring in a Machine Translation Age
Chimayo Press
This book explains the concept, framework, implementation, and evaluation of controlled document authoring in this age of translation technologies. Machine translation (MT) is routinely used in many situations, by companies, governments, and individuals. Despite recent advances, MT tools are still known to be imperfect, sometimes producing critical errors. To enhance the performance of MT, researchers and language practitioners

have developed controlled languages that impose restrictions on the form or length of the source-language text. However, a fundamental, persisting problem is that both current MT systems and controlled languages deal only with the sentence as the unit of processing. To be effective, controlled languages must be contextualised at the document level, consequently enabling MT to generate outputs appropriate for their functional context within the target document. With a specific focus on Japanese municipal documents, this book establishes a framework for controlled document authoring by integrating various research strands including document formalisation, controlled language, and terminology management. It then presents the development and evaluation of an authoring support system, MuTUAL, that is designed to help non-professional writers create well-organised documents that are both readable and translatable. The book provides useful insights for researchers and practitioners interested in translation technology, technical writing, and natural language processing applications.

Topics in Aging Research Createspace Independent Publishing Platform EDITORS' INTRODUCTION BACKGROUND Currently, we are living in the fourth industrial revolution by which computers, automation, robots and people will work together in entirely new ways. Applying technological innovations will help the production process faster, less manpower and more fully collected data. Product quality is ensured by

controlling raw materials to forming and transferring to consumers. However, it may have raised many issues for humans. One of its drawbacks is many workers will lose their jobs due to replacement machinery, while businesses may face difficulties in recruiting human resources to meet the requirements of the job. This can lead to inequality, even to break the labor market. Economic uncertainties will lead to instability in life and even politics. In addition, new technology will cause changes in power, security concerns, and a big gap between rich and poor or the way of communication through the Internet which challenges information security for both people and political systems. These problems have urged the world to find the right solutions urgently to attain sustainable development which is favor of the Buddhist philosophy. In this theme, we highly focus on the Buddhist approach and response to the Fourth Industrial Revolution to generate happiness and peace for humankind.

The Holy Quran - English Translation

This thesis investigated the most common types of Strategies for Translating Religion-specific terminologies used in the translation of Vietnamese words. This aims at assisting learners of English in classifying meanings of English meditation terminologies as well

as their equivalents in Vietnamese in order to use them appropriately in especially translation. We are interested in dealing with the loss of meaning in the translation of Buddhism meditation works from English to Vietnamese versions in Buddhist documents. We normally have difficulties in understanding Buddhist terminologies in English. So doing research on the strategies and procedures that may apply to the translation of Vietnamese, cultural words must be useful for our students and us to improve their skills of reading English Buddhism documents. The researcher used a contrastive analysis to complete this study. The researcher took

this method from the statement by (Goetz, J. P., and LeCompte, M. D., 1985, p. 87). The data extracted from the book "Three pillars of Zen" and the Vietnamese versions entitled "Ba trụ thiền". There are 300 utterances in each version of the Buddhism meditation work, English and Vietnamese version to find out the phenomena of loss and gain take place regularly in the translational version the book" Three pillars of Zen" in the present thesis. We can see that it is very difficult to translate religious texts. Finding out the loss of meaning in the translation of Buddhism meditation works from English to Vietnamese versions has been concerned as

well. This is for helping readers of English apply in language skills as well as translation of English religious contexts into Vietnamese and vice versa
