 When most prospective hires come well prepared for interview questions we all expect, how do you distinguish their answers from any other applicant? This invaluable resource shows you how to dig deeper using competency-based behavioral interviewing methods to uncover truly relevant and useful information. Complete

with advice on evaluating answers and assessing cultural fit, the second edition of High-Impact Interview Questions features dozens of all-new questions designed to gauge: accountability, assertiveness, attention to detail, judgment, follow-through, risk-taking, and more. By the end of an interview, the real person behind the résumé will be revealed and you will be able to make an offer based on accurate findings, not hopeful hunches.

If you are interviewing with a company, you are likely qualified for the job. Through the mere action of conducting the interview, the employer essentially implies this. So why is it difficult to secure the job you love? Because there are three reasons you actually get the job—none of which are your qualifications— and, unfortunately, you can only control one of them. INTERVIEW INTERVENTION creates awareness of these undetected reasons that pose difficulty for the job-seeker and permeate to the interviewer, handicapping the employer's ability to secure the best talent. It teaches interview participants to use effective interpersonal communication techniques aimed at overcoming these obstacles. It guides job-seekers through the entire interview process to ensure they get hired. It teaches interviewers to extract the most relevant information to make sound hiring decisions. INTERVIEW INTERVENTION will become your indispensable guide to: ? Create self-awareness to ensure you understand the job you want before—not after—the fact. ?

Conduct research to surface critical employer information. ? Share compelling stories that include the six key qualities that make them believable and memorable. ? Respond successfully to the fourteen most effective interview questions. ? Sell yourself and gather intelligence through effective question asking. ? Close the interview to ensure the interviewer wants to hire you.

The interview is often the most important

step in job hunting, and solid preparation often spells the difference between a job offer and a friendly good-bye handshake. This book--each page in the form of a Q & A flashcard--offers ideal preparation for that big interview. Questions likely to be asked by an interviewer are printed on one side, with proven answers printed on the reverse. The book is designed so that pages can be pulled out, selected and shuffled according to need, and used as flashcards for practice. Interviewers are notorious for asking a wide range of questions, and this book covers virtually all of them, with 200 Q & A cards that fall into a variety of categories. For instance -- Work and Educations questions (What have you done?): Why did you leave your last job? What did you like most about your last job? What did you like least about it? Have you ever been fired? What is your management style? and many more . . . Skills and Competencies questions (What can you do?): Describe a challenging work issue you had to face. How do you handle an angry employee? and many more . . . Personality/Goals questions (Who are you?): What makes you a good team member? Where do you see yourself five years from now? and many more . . . Behavioral/Situational questions (Can you tell a story?): Tell me about a time when you had to juggle priorities to meet a deadline, and many more . . . Job Fit questions (Are you a match?): How would you describe your ideal work environment? What aspects of the job will you like least? and many more . . . Torture/Trick questions (Can you take the heat?): Why should we hire you for this position? What do you expect your starting salary to be? How do I rate as an interviewer? . . . The reverse side of each card tells why the question is asked, presents sample responses, and allows space to customize an answer. Here is an unusual and effective job-hunting tool that will be valued by job applicants, career coaches/counselors, and college placement offices.
