Addison Wesley Longman The bestselling guide to reporting writing, updated and reworked for today's practice Essentials of Assessment Report Writing offers effective solutions to the creation of reader-friendly, yet targeted, psychological, and educational assessment reports. Parents, clinicians, clients, and other readers need more than test-by-test descriptions—they need an accessible analysis of the entire situation to determine their next steps. This book provides clear guidance for busy practitioners seeking ways to improve their report writing skills. With a focus on current practice, this new second edition covers DSM-5 updates and the latest assessment instruments including the WJ IV, WISC-V, WAIS-IV, KTEA-3, and the CAS2. New discussion includes advice on tailoring the report to the audience, and annotated

case reports provide illustrative models of effective report styles, interpretation, and analysis. Key concepts are highlighted for quick reference throughout, and end-of-chapter questions help reinforce understanding. Reporting styles vary widely within the field, in both content and style; there is no definitive "standard," but many reports fail to reflect best practices and therefore prove less than useful to the reader. This book provides expert guidance throughout the reporting process to help practitioners provide high-quality, accessible reports. Integrate assessment results to provide a person-centered report Identify and navigate critical decision points in the interpretive process Write efficiently yet effectively while enhancing the reader's experience Provide an accurate, informative, and readable assessment report Incorporate practical recommendations to address the referral concerns Expertly-conducted assessments should culminate with a carefully constructed analysis that provides direction via clear communication. Because

this report will be used to inform treatment, intervention, and ultimately, the client's quality of life—it is critical that it provides clear, informative guidance in a way that readers can understand. Essentials of Assessment Report Writing provides comprehensive guidelines for navigating through the report writing process.

The present volume is based on the proceedings of the Advanced Study Institute (ASI) sponsored by the North Atlantic Treaty Organization (NATO). The Institute was conducted at the beautiful Chateau de Bonas, near

Toulouse, France in October, 1991. A number of scholars from different countries participated in the two-week institute on differential diagnosis and treatments of reading and writing problems. The accepted papers for this volume are divided into three sections: (a) Differential diagnosis of reading disabilities; (b) Access to language-related component processes; and (c) Reading/spelling strategies. The other papers appear in a companion volume: *Developmental and Acquired Dyslexia: Neuropsychological and Neurolinguistic Perspectives*, also coedited by Joshi and Leong and published by Kluwer Academic Publishers. Several people and organizations have helped us in this endeavor and their assistance is gratefully acknowledged. Our special thanks are due to: the Scientific Affairs Division of NATO for providing the major portion of the financial support; Dr. L. V. da Cunha of NATO and Dr. THo Kester and Mrs. Barbara Kester of the International Transfer of Science and Technology (ITST) for their help and support of the various

aspects of the institute; Mr. Charles Stockman and the entire staff of the Chateau de Bonas for making our stay a pleasant one by helping us to run the Institute smoothly. We also wish to thank our reviewers and the following people for other assistance: Christi Martin, and Xi-wu Fang. *Cognitive Diagnostic Assessment for Learning* A&C Black

An invaluable collection of sample case reports from experts in child and adolescent assessment

With contributions from authorities in the fields of psychology and special

education-including Dawn Flanagan, Elaine Fletcher-Janzen, Randy Kamphaus, Nadeen Kaufman, George McCloskey, Jack Naglieri, Cecil Reynolds, and Gale Roid—Comprehensive Evaluations provides over fifty sample case reports to help you draft carefully planned, goal-directed, and comprehensive evaluations that clearly explain the reasons for a student's school-related difficulties, from preschool to postsecondary level. A wellspring of information for educational professionals, Comprehensive Evaluations provides models for writing diagnostic reports to accompany the tests most frequently administered in the evaluation of children, adolescents, and adults, including the BASC-2, KABC-II, WAIS-IV, WISC-IV, and WJ III. The reports reflect various disciplines within psychology and education, different theoretical perspectives and paradigms, and span a broad spectrum of disabilities. The diagnostic reports found within Comprehensive Evaluations will help:

Expand your familiarity with widely used test instruments Enhance your understanding of the interpretation of test

scores Improve your ability to tailor written reports to the purposes of the evaluation Translate assessment results into meaningful treatment recommendations Recognize the differences in what evaluators from various school districts, agencies, and private practices consider to be a comprehensive evaluation Appreciate how your theoretical perspective and choice of tests can influence diagnostic conclusions Determine a report writing style that meets your needs Comprehensive Evaluations deftly illustrates how thorough assessments help empirically pinpoint the reasons a student is struggling in school, which then allows an evaluator to select the most appropriate accommodations and interventions to help the student succeed.

This book offers an easy-to-follow set of writing principles. For example, use active verbs whenever possible, favour concrete language over vague abstractions, avoid long strings of prepositional phrases, employ adjectives and adverbs only when they contribute something new to the meaning of a sentence and reduce your dependence on the "waste words": 'it', 'this', 'that' and 'there'. The author also shows these rules in action through examples from famous authors such as Shakespeare and Emily Dickinson. The book includes a test to help you assess your own writing

and get advice on problem areas.
