PHOEBE MASON**Start Something That Matters** Penguin

The inspiring, life-changing bestseller by the author of LEADERS EAT LAST and TOGETHER IS BETTER. In 2009, Simon Sinek started a movement to help people become more inspired at work, and in turn inspire their colleagues and customers. Since then, millions have been touched by the power of his ideas, including more than 28 million who've watched his TED Talk based on START WITH WHY -- the third most popular TED video of all time. Sinek starts with a fundamental question: Why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who've had the greatest influence in the world all think, act, and communicate the same way -- and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Find Your Why Houghton Mifflin Harcourt

Simon Sinek sparked a movement with his bestsellers START WITH WHY and LEADERS EAT LAST. Now this beautifully illustrated book will inspire more readers to ask for help, help others, and discover their own courage through a charming story about change. Life is a series of choices. Do we go left or right? Jump forward or hold back? Sometimes our choices work out for the better...and sometimes they don't. But there is one choice, regardless of every other decision, that profoundly affects how we feel about our journey: Do we go alone or do we go together? It is the courageous few who ask for help. It is the giving few willing to help others. We can all find the courage we need and know the joy of service - the minute we learn that together is better. Filled with inspiring quotes, this richly illustrated fable tells a delightful story of three kids who go on a journey to a new playground and take a stand for what they believe. The story is a metaphor for anyone looking to make a change or wondering how to pursue their dreams. And the message is simple: relationships - real, human relationships - really, really matter. The stronger our relationships, the stronger the bonds of trust and cooperation, the more we can accomplish and the more joy and fulfillment we get from our work and personal lives. The three heroes are archetypes who represent us all at various points in our lives. Their main challenge is the same one we face every day: How can we find the things we're looking for? According to Sinek, if we each do our part to help advance a shared vision, we can build the world we imagine. In addition to the story itself, Sinek shares such profound lessons as: · A team is not a group of people that work together. A team is a group of people that trust each other. · Fight against something and we focus on the thing we hate. Fight for something and we

focus on the thing we love. · Working hard for something we don't care about is called stress.

Working hard for something we love is called passion. · A star wants to see himself rise to the top. A leader wants to see those around him become stars. Together is Better was designed to be given as a gift to someone you want to inspire, or to say thank you to someone who inspires you. It's completely different from Sinek's previous work. It may look like a children's book, but it's definitely for adults. This book includes a special page featuring the Scent of Optimism.

The Power of Why Penguin

Do you have what it takes to succeed in any situation? According to a retired commander who ran training for Navy SEALs, true optimal performance goes beyond just skill. It's all about THE ATTRIBUTES. "Diviney's incredible book explains why some people thrive—even when things get hard."—Charles Duhigg, New York Times bestselling author of The Power of Habit During his twenty years as a Navy officer and SEAL, Rich Diviney was intimately involved in a specialized SEAL selection process, which whittled a group of hundreds of extraordinary candidates down to a handful

of the most elite performers. Diviney was often surprised by which candidates washed out and which succeeded. Some could have all the right skills and still fail, while others he might have initially dismissed would prove to be top performers. The seemingly objective criteria weren't telling him what he most needed to know: Who would succeed in one of the world's toughest military assignments? It is similarly hard to predict success in the real world. It happens often enough that underdog students accomplish exceptional achievements while highly skilled, motivated employees fail to meet expectations. Dark-horse companies pull away from the pack while dream teams flush with talent and capital go under. In working with and selecting top special operators for decades, Diviney saw that beneath obvious skills are hidden drivers of performance, surprising core attributes—including cunning, adaptability, courage, even narcissism—that determine how resilient or perseverant we are, how situationally aware and how conscientious. These attributes explain how we perform as individuals and as part of a team. The same methodology that Diviney used in the military can be applied by anyone in their personal and professional lives, and understanding these attributes can allow readers and their teams to perform optimally, at any time, in any situation. Diviney defines the core attributes in fresh and practical ways and shares stories from the military, business, sports, relationships, and even parenting to show how understanding your own attributes and those of the people around you can create optimal performance in all areas of your life.

Built to Last Harper Collins

"One of the most enjoyable marriages of the fantasy and mystery genres on the shelves,"(Cinescape) the Dresden Files have become synonymous with action-packed urban fantasy and nonstop fun. Fool Moon continues the adventures of Jim Butcher's most famous—and infamous—reluctant hero... You'd think there'd be a little more action for the only professional wizard listed in the Chicago phone book. But lately, Harry Dresden hasn't been able to dredge up any kind of work: magical, mundane, or menial. Just when it looks like he can't afford his next meal, a murder comes along that requires his particular brand of supernatural expertise. There's a brutally mutilated corpse, and monstrous animal markings at the scene. Not to mention that the killing took place on the night of a full moon. Harry knows exactly where this case is headed. Take three

guesses—and the first two don't count...

The Attributes Farrar, Straus and Giroux

The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

Dear Reader, When I got my breast cancer diagnosis, I was immediately inundated with books on Cancer. They terrified me. So, this book...is *Not Your Usual Boob*. A little informative, a little sarcastic, a little funny—I hope—and a lot real. This is the book I wish I could have read in my time of need. A little bit of what you can expect during your journey, and how to prepare yourself with a healthy mindset and coping skills before they're needed. The #NoFilter is exactly that...no filter on the front cover—me and all my wonkiness with no photoshop—and it's what you'll find inside these pages—including an F-bomb or five. Because more important than shielding myself is being real with you. You may laugh, you may cry, you may want to punch me in the face...but in the end, remember this. If you ever meet me, I'm hugging you. Because that's me. And more than anything, that is the big reason behind this book. I am still ME. And YOU are still YOU. XO ~ MK Meredith

Emergency Penguin

The New York Times, BusinessWeek, and Wall Street Journal Bestseller that redefined what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.

Together Is Better Gramedia Pustaka Utama

Nudge meets Hooked in a practical approach to designing products and services that change behavior, from what we buy to how we work. Deciding what to create at modern companies often looks like an episode of Mad Men: people throw ideas around until one sounds sexy enough to execute and then they scale it to everyone. The result? Companies overspend on marketing to drive engagement with products and services that people don't want and won't help them be happier and healthier. *Start at the End* offers a new framework for design, grounded in behavioral science.

Technology executive and behavioral scientist Matt Wallaert argues that the purpose of everything is behavior change. By starting with outcomes instead of processes, the most effective companies understand what people want to do and why they aren't already doing it, then build products and services to bridge the gap. Wallaert is a behavioral psychologist who has led product design at organizations ranging from startups like Clover Health to industry leaders such as Microsoft. Whether dissecting the success behind Uber's ridesharing service or Flamin' Hot Cheetos, he underscores with clarity and humor how this approach can improve the way we work and live. This is an essential roadmap for building products that matter--and changing behavior for the better.

Start with No offers a contrarian, counterintuitive system for negotiating any kind of deal in any kind

of situation—the purchase of a new house, a multimillion-dollar business deal, or where to take the kids for dinner. Think a win-win solution is the best way to make the deal? Think again. For years now, win-win has been the paradigm for business negotiation. But today, win-win is just the seductive mantra used by the toughest negotiators to get the other side to compromise unnecessarily, early, and often. Win-win negotiations play to your emotions and take advantage of your instinct and desire to make the deal. Start with No introduces a system of decision-based negotiation that teaches you how to understand and control these emotions. It teaches you how to ignore the siren call of the final result, which you can't really control, and how to focus instead on the activities and behavior that you can and must control in order to successfully negotiate with the pros. The best negotiators: * aren't interested in "yes"—they prefer "no" * never, ever rush to close, but always let the other side feel comfortable and secure * are never needy; they take advantage of the other party's neediness * create a "blank slate" to ensure they ask questions and listen to the answers, to make sure they have no assumptions and expectations * always have a mission and purpose that guides their decisions * don't send so much as an e-mail without an agenda for what they want to accomplish * know the four "budgets" for themselves and for the other side: time, energy, money, and emotion * never waste time with people who don't really make the decision Start with No is full of dozens of business as well as personal stories illustrating each point of the system. It will change your life as a negotiator. If you put to good use the principles and practices revealed here, you will become an immeasurably better negotiator.

From the bestselling author of *The Speed of Trust*, a revolutionary new way to lead, deemed "the defining leadership book in the 21st century" (Admiral William McRaven, author of *Make Your Bed*) that "every parent, teacher, and leader needs" (Esther Wojcicki, author of *How to Raise Successful People*). We have a leadership crisis today, where even though our world has changed drastically, our leadership style has not. Most organizations, teams, schools, and families today still operate from a model of "command and control," focusing on hierarchies and compliance from people. But because of the changing nature of the world, the workforce, work itself, and the choices we have for where and how to work and live, this way of leading is drastically outdated. Stephen M.R. Covey has made it his life's work to understand trust in leadership and organizations. In his newest and most transformative book, *Trust and Inspire*, he offers a simple yet bold solution: to shift from this "command and control" model to a leadership style of "trust and inspire." People don't want to be managed; they want to be led. *Trust and Inspire* is a new way of leading that starts with the belief that people are creative, collaborative, and full of potential. People with this kind of leader are inspired to become the best version of themselves and to produce their best work. In this "beautifully written page-turner" (Amy Edmondson, Harvard Business School professor), Covey offers the solution to the future of work: where a dispersed workforce will be the norm, necessitating trust and collaboration across time zones, cultures, personalities, generations, and technology. *Trust and Inspire* calls for a radical shift in the way we lead in the 21st century, and Covey shows us how.
