The Discovery of Global Warming Spark Notes

Excerpt from *Essays on the Civil War and Reconstruction: And Related Topics* OF the essays included in this volume all but one - that on *The Process of Reconstruction* - have been published before during the last eleven years: four in the *Political Science Quarterly*, one in the *Yale Review*, and one in the *Papers of the American Historical Association*. For the purpose of their present appearance all have been subjected to revision, which has resulted in some cases in considerable modifications. The first five essays are devoted immediately to various phases of the Civil War and Reconstruction. The last two, while not concerned exclusively with those topics, have nevertheless such a relation to the legal and political questions treated as to justify their inclusion in the volume. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Howard Fast's bestselling coming-of-age novel about one boy's introduction to the horrors of war amid the brutal first battle of the American Revolution On April 19, 1775, musket shots ring out over Lexington, Massachusetts. As the sun rises over the battlefield, fifteen-year-old Adam Cooper stands

among the outmatched patriots, facing a line of British troops. Determined to defend his home and prove his worth to his disapproving father, Cooper is about to embark on the most significant day of his life. The Battle of Lexington and Concord will be the starting point of the American Revolution—and when Cooper becomes a man. Sweeping in scope and masterful in execution, *April Morning* is a classic of American literature and an unforgettable story of one community's fateful struggle for freedom. This ebook features an illustrated biography of Howard Fast including rare photos from the author's estate.

Essays on the Civil War and Reconstruction and Related Topics; 1931 War College Series

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

Essays in European History University of Chicago Press

This is an introduction to the entire history of British involvement with slavery and the slave trade, which especially focuses on the two centuries from 1650, and covers the Atlantic world, especially North America and the West Indies, as well as the Cape Colony, Mauritius, and India. -;Slavery and the British Empire provides a clear overview of the entire history of British involvement with slavery and the slave trade, from the Cape Colony to the Caribbean. The book combines economic, social, political, cultural, and demographic history, with a particular focus on the Atlantic world and the plantations of North America and the West Indies from the mid-seventeenth century onwards. Kenneth Morgan analyses the distribution of slaves within the empire and how this changed over time; the world of merchants and planters; the organization and impact of the triangular slave trade; the work and culture of the enslaved; slave demography; health and family life; resistance and rebellions; the impact of the anti-slavery movement; and the abolition of the British slave trade in 1807 and of slavery itself in most of the British empire in 1834. As well as providing the ideal introduction to the history of British involvement in the slave trade, this book also shows just how deeply embedded slavery was in British domestic and imperial history - and just how long it took for British involvement in slavery to die, even after emancipation. -;...a clear overview of the entire history of British involvement with slavery and the slave trade - Spartacus Review

Reading, Thinking, and Writing About History Essaying the Past

How to write an IB History Essay: The Safe Hands Approach is for students studying IB History at either Higher or Standard Levels, at any point in the course. The Safe Hands Approach is a series of simple, effective techniques that are guaranteed to improve your essay writing. This book is all

about skills and their application: it doesn't matter which period or topics you are studying, the principles outlined in the book will apply to you. The book is collaborative: a teacher explains the techniques and an IB student provides both insight as to how the approach helps and annotated sample work. Your essay writing confidence and ability will improve if you adopt the Safe Hands Approach. "The approach gives you a way of safely knowing that, given any question, you can write a solid, convincing, and ultimately successful IB History essay." (Lorenzo Brewer, IB History Student)

Joe Thomas studied History at Oxford as an undergraduate and has spent the last thirteen years in education including almost a decade's worth of experience in the IB as teacher, coordinator and examiner. He has an MA in History from the University of Oxford, an MA with distinction in Creative Writing and Literature, is a PhD researcher at the University of London, and runs an academic consultancy. Lorenzo Brewer studied with Joe for eight months in the lead up to his IB examinations in 2013. He achieved a 7 in History at Higher Level.

Against the Current Palala Press

Scholars and enthusiasts of western American history have praised Elliott West as a distinguished historian and an accomplished writer, and this book proves them right on both counts. Capitalizing on West's wide array of interests, this collection of his essays touches on topics ranging from viruses and the telegraph to children, bison, and Larry McMurtry. Drawing from the past three centuries, West weaves the western story into that of the nation and the world beyond, from Kansas and Montana to Haiti, Africa, and the court of Louis XV. Divided into three sections, the volume begins with conquest. West is not the first historian to write about Lewis and Clark, but he is the first to contrast their expedition with Mungo Park's contemporaneous journey in Africa. "The Lewis and Clark expedition," West begins, "is one of the most overrated events in American history—and one of the most revealing." The humor of this insightful essay is a chief characteristic of the whole book, which comprises ten chapters previously published in major journals and magazines—but revised for this edition—and four brand-new ones. West is well known for his writings about frontier family life, especially the experiences of children at work and play. Fans of his earlier books on these subjects will not be disappointed. In a final section, he looks at the West of myth and imagination, in part to show that our fantasies about the West are worth studying precisely because they have been so at odds with the real West. In essays on buffalo, Jesse James and the McMurtry novel *Lonesome Dove*, West directs his formidable powers to subjects that continue to shape our understanding—and often our misunderstanding—of the American West, past and present.

History (and Other Things) Reconsidered Hassell Street Press

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded

the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Choice Among Essay Topics John Wiley & Sons

Architects of World History presents an innovative collection of original essays by leading scholars associated with World History, exploring through intellectual autobiography the ideas, challenges, and inspirations that are shaping the field. Features original, accessible contributions from pioneering scholars in the field. Offers insights into the process of developing a workable world history research topic and the experience of professional life as a world historian. Points to methodological challenges; the scholar's current research agenda in relation to the development of world history; and future directions anticipated for key areas within world history.

Architects of World History Ludwig von Mises Institute

These essays explore various topics in European history ranging from a study of the medieval Abbey of Bury St. Edmunds to an essay on the issue of the restoration of the Kaiser prior to Hitler's assumption of power. Enno Kraeh contributes a personal narrative of philosophical journey through the study of history. Three of the essays address literary and cultural themes dealing with German theatre politics, belle époque opera, and Polish drama. The volume has strong representation on Austrian history, including essays on diplomacy, the Anschluss, and Austrian anti-Semitism.

ESSAYS ON THE CIVIL WAR & RECO Wentworth Press

The social history of medicine over the last fifteen years has redrawn the boundaries of medical history. Specialised papers and monographs have contributed to our knowledge of how medicine has affected society and how society has shaped medicine. This book synthesises, through a series of essays, some of the most significant findings of this 'new social history' of medicine. The period covered ranges from ancient Greece to the present time. While coverage is not exhaustive, the reader is able to trace how medicine in the West developed from an unlicensed open market place, with many different types of practitioners in the classical period, to the nineteenth- and twentieth-century professionalised medicine of State influence, of hospitals, public health medicine, and scientific medicine. The book also covers innovative topics such as patient-doctor relationships, the

history of the asylum, and the demographic background to the history of medicine.

Essays on the Civil War and Reconstruction and Related Topics Teachers College Press
The articles collected here (two appearing for the first time in English) cover a number of topics central to naval history and illustrate the author's contention that this is not only, or even chiefly, a distinct area of special study, but rather a central theme running through the history of England, and of the whole British Isles. Though the subjects and the styles vary a good deal, the studies are linked by a common approach and some common ideas. Hence many examine ways in which naval history has formed a key element in such subjects as intellectual, religious, administrative or medical history and explored the nature and meaning of sea power as a theme. At the same time naval history is a technical subject, which demands a willingness to understand warships - the most complex artefacts - and the structure of large and complex organisations. Detailed evidence about ships and weapons can build large conclusions, for example about late Anglo-Saxon government and military organisation, or about the nature of warfare at sea in the Renaissance era. While mostly written from the British point of view, several essays explicitly survey naval developments over a range of countries, and even the most narrowly focused are at least implicitly aware of the wider world of war at sea.

History Teacher's Magazine Routledge

History is a fragile subject. It is easily modified by omission, interpretation, selective content, and selective emphasis. Since human events always have multiple points of view, it is probable that pure objectivity in historical interpretations cannot be obtained. Of course, writing on history is only one example of a condition that holds true for all human actions and interactions, there is always a subjective element. Part 1 is a diverse selection of short essays that discuss historical events that have been written about and discussed many times and will continue to be written about in the future. The choice of topics for these essays was partly based on prior interest or were suggested to me by contemporary events and social attitudes. The essay on Custer is an example of the first kind, while the essay on the historical beginnings of Christianity and Islam is an example of the second. Although, the subjects of these essays vary considerably, they all have the common problem of frequent, intentional or un-intentional, misrepresented. Part 2 begins with a miscellany of topics that are relevant to the following discussion on contemporary historiography and the social factors that are influencing writing on history in particular, and society, in general. That is, what is now become prevalent in historical commentaries, has also become prevalent within our society.

The Power of Culture London Publishing Partnership

The most important collection of essays on American Women's History This collection incorporates the most influential and groundbreaking scholarship in the area of American women's history, featuring twenty-three original essays on critical themes and topics. It assesses the past thirty years of scholarship, capturing the ways that women's historians confront issues of race, class, gender, and sexuality. This second edition updates essays related to Indigenous women, slavery, the American Revolution, Civil War, the West, activism, labor, popular culture, civil rights, and feminism. It also includes a discussion of laws, capitalism, gender identity and transgender experience, welfare, reproductive politics, oral history, as well as an exploration of the perspectives of free Blacks and migrants and refugees. Spanning from the 15th through the 21st centuries, chapters

show how historians of women, gender, and sexuality have challenged established chronologies and advanced new understandings of America's political, economic, intellectual and social history. This edition also features a new essay on the history of women's suffrage to coincide with the 100th anniversary of passage of the 19th Amendment, as well as a new article that carries issues of women, gender and sexuality into the 21st century. Includes twenty-three original essays by leading scholars in American women's, gender and sexuality history Highlights the most recent scholarship on the key debates and future directions of this popular and contemporary field Substantially updates the first edition with new authors and topics that represent the expanding fields of women, gender, and sexuality Engages issues of race, ethnicity, region, and class as they shape and are shaped by women's and gender history Covers the breadth of American Women's history, including Native women, colonial law and religion, slavery and freedom, women's activism, work and welfare, culture and capitalism, the state, feminism, digital and oral history, and more A Companion to American Women's History, Second Edition is an ideal book for advanced undergraduates and graduate students studying American/U.S. women's history, history of gender and sexuality, and African American women's history. It will also appeal to scholars of these areas at all levels, as well as public historians working in museums, archives, and historic sites.

A History of Six Ideas John Wiley & Sons

In this outstanding collection of essays, Isaiah Berlin, one of the great thinkers of the twentieth century, discusses the importance of dissenters in the history of ideas--among them Machiavelli, Vico, Montesquieu, Herzen, and Sorel. With his unusual powers of imaginative re-creation, Berlin brings to life original minds that swam against the current of their times--and still challenge conventional wisdom. In a new foreword to this corrected edition, which also includes a new appendix of letters in which Berlin discusses and further illuminates some of its topics, noted essayist Mark Lilla argues that Berlin's decision to give up a philosophy fellowship and become a historian of ideas represented not an abandonment of philosophy but a decision to do philosophy by other, perhaps better, means. "His instinct told him," Lilla writes, "that you learn more about an idea as an idea when you know something about its genesis and understand why certain people found it compelling and were spurred to action by it." This collection of fascinating intellectual portraits is a rich demonstration of that belief.

Essays on the Civil War and Reconstruction Open Road Media

The essential handbook for doing historical research in the twenty-first century The Princeton Guide

to Historical Research provides students, scholars, and professionals with the skills they need to practice the historian's craft in the digital age, while never losing sight of the fundamental values and techniques that have defined historical scholarship for centuries. Zachary Schrag begins by explaining how to ask good questions and then guides readers step-by-step through all phases of historical research, from narrowing a topic and locating sources to taking notes, crafting a narrative, and connecting one's work to existing scholarship. He shows how researchers extract knowledge from the widest range of sources, such as government documents, newspapers, unpublished manuscripts, images, interviews, and datasets. He demonstrates how to use archives and libraries, read sources critically, present claims supported by evidence, tell compelling stories, and much more. Featuring a wealth of examples that illustrate the methods used by seasoned experts, *The Princeton Guide to Historical Research* reveals that, however varied the subject matter and sources, historians share basic tools in the quest to understand people and the choices they made. Offers practical step-by-step guidance on how to do historical research, taking readers from initial questions to final publication Connects new digital technologies to the traditional skills of the historian Draws on hundreds of examples from a broad range of historical topics and approaches Shares tips for researchers at every skill level
