The Praetorian STARShip : the untold story of the Combat Talon Temple University Press

With 200,000+ copies in print, this New York Times bestseller shares the story and the recipes behind the chef and cuisine that changed the modern-day culinary landscape. Never before has there been a phenomenon like Momofuku. A once-unrecognizable word, it's now synonymous with the award-winning restaurants of the same name in New York City (Momofuku Noodle Bar, Ssâm Bar, Ko, Má Pêche, Fuku, Nishi, and Milk Bar), Toronto, and Sydney. Chef David Chang single-handedly revolutionized cooking in America and beyond with his use of bold Asian flavors and impeccable ingredients, his mastery of the humble ramen noodle, and his thorough devotion to pork. Chang relays with candor the tale of his unwitting rise to superstardom, which, though wracked with mishaps, happened at light speed. And the dishes shared in this book are coveted by all who've dined—or yearned to—at any Momofuku location (yes, the pork buns are here). This is a must-read for anyone who truly enjoys food.

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift

capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

#1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year "Wise and wildly entertaining . . . permeated with light, wit, youth." —The New York Times Book Review "A classic that we will read for years to come." —Jenna Bush Hager, Read with Jenna book club "Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope." —Bill Gates "A real joyride . . . elegantly constructed and compulsively readable." —NPR The bestselling author of A Gentleman in Moscow and Rules of Civility and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. "Once again, I was wowed by Towles's writing—especially because The Lincoln Highway is so different from A Gentleman in Moscow in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including The Iliad, The Odyssey, Hamlet, Huckleberry Finn, and Of Mice and Men. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." - Bill Gates

The longtime ticket director and front office mainstay has dedicated most of his life to creating memorable experiences for Eagles fans. He's played countless roles and has countless stories to tell as a result. A Bird's-Eye View is a fascinating, frank, in-the-room look at nearly 60 years of Eagles' history, spanning five different ownerships, 14 head coaches, so many stars, and, of course, a Super Bowl. From getting his start as a part-timer in 1960—when professional football in Philadelphia ranked a distant third in popularity to baseball and college football—to riding down Broad Street with his fellow Eagles hall of famers in the championship parade, Carlin opens up about the highlights, lowlights, and never-ending hijinks that come with the territory.

NEW YORK TIMES BESTSELLER • "Comprehensive, enlightening, and terrifyingly timely."—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for How Democracies Die "What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that."—The Washington Post "Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics."—Ezra Klein, Vox "If you only read one book for the rest of the year, read How Democracies Die. . . .This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest."—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) "A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal."—Fareed Zakaria, CNN

The Pulitzer Prize-winning biography of Harry S. Truman, whose presidency included momentous events from the atomic bombing of Japan to the outbreak of the Cold War and the Korean War, told by America's beloved and distinguished historian. The life of Harry S. Truman is one of the greatest of American stories, filled with vivid characters—Roosevelt, Churchill, Stalin, Eleanor Roosevelt, Bess Wallace Truman, George Marshall, Joe McCarthy, and Dean Acheson—and dramatic events. In this riveting biography, acclaimed historian David McCullough not only captures the man—a more complex, informed, and determined man than ever before imagined—but also the turbulent times in which he rose, boldly, to meet unprecedented challenges. The last president to serve as a living link between the nineteenth and the twentieth centuries, Truman's story spans the raw world of the Missouri frontier, World War I, the powerful Pendergast machine of Kansas City, the legendary Whistle-Stop Campaign of 1948, and the decisions to drop the atomic bomb, confront Stalin at Potsdam, send troops to Korea, and fire General MacArthur. Drawing on newly discovered archival material and extensive interviews with Truman's own family, friends, and Washington colleagues, McCullough tells the deeply moving story of the seemingly ordinary "man from Missouri" who was perhaps the most courageous president in our history.

Continuation of the reference work that originated with Robert Dodsley, written and published each year, which records and analyzes the year's major events, developments and trends in Great Britain and throughout the world. After 1815 the usual form became a number of chapters on Great Britain, paying particular attention to the proceedings of Parliament, followed by chapters covering other countries in turn, no longer limited to Europe. The expansion of the History came at the expense of the sketches, reviews and other essays so that the nineteenth-century publication ceased to have the miscellaneous character of its eighteenth-century forebear, although poems continued to be included until 1862, and a small number of official papers and other important texts continue to be reproduced.
