There was the FIRST HOST. The recent reunion of Eddie Brock and the Venom symbiote has been a shaky one. As their relationship has been fraught with secrets and lies, they have come to

struggle as much with each other as with their own violent impulses. Things don't get any easier when the symbiote's long lost first host returns in need of Venom's help -only by reuniting can the two avert cosmic ruin! Can Eddie and the symbiote trust one another long enough to save the galaxy, or will THE FIRST HOST prove to be Venom's undoing?! Reuniting VENOM superstars

Mike Costa and Mark Bagley, THE FIRST HOST is an action-filled epic befitting the Wicked Web-slinger's 30th Anniversary, with twists and turns as only the House of Ideas can provide! COLLECTING: Venom: First Host 1-5 Sabbat Worlds Motilal Banarsidass Publ. The countdown to doomsday began with the discovery in 1956 of the neutrino, a particle with no mass and no charge. By

the year 2001, the significance of this phantom particle was understood: it was a harbinger. A cosmic event was imminent, and would be close enough to touch. Soon the Sun would go nova; the demolition of Earth was assured. And so it happened in the year 3620. Over the centuries of knowing the end was at hand, humanity pulled together to launch probes into space. Primitive

ships, at first, carrying embryos to distant systems, relying on machines to incubate and rear the first people of a virgin land beneath an alien sun. On Earth the Lords of the Last Days lived with no need to care for the future of the world; it was the wildest of times, and the saddest. Last to leave was the Magellan carrying a million homeless; when cataclysm struck, its

<p>voyagers witnessed through telescopes the death of Earth and all its wonders, saw the Atlantic boil dry, the pyramids disintegrate, the land of Antarctica briefly bare of ice before fire consumed everything. Then the million slept. Five hundred years later, the Magellan must make planetfall to repair its quantum drive. Apocalyptic History

Marvel Aeldari: Waning and scattered as they are, the Sundered fragments of an empire that drowned in its own perversity and decadence. Yet woe betide those who think them weak. They are as shrewd as they are fickle, as disciplined as they are capricious. They read the skeins of fate

as if they are letters on a page. They handle the blade as if they were born to do nothing else. They fight for their survival and see all other species as irrevocably inferior, or even as vermin. To underestimate them means death. Moby Dick by Herman Melville Marvel Entertainment Deep within the Crystal Caves of Icefinger Mountains, the dreaded Snow Witch is plotting to

bring on a new Ice Age. A brave trapper dies in your arms and lays the burden of his mission on your shoulders. But time is running out - will YOU take the challenge. *Venom: First Host* Marvel Comics Group Carnage's maniacal reign of terror continues, courtesy of the critically acclaimed creative team of Zeb Wells and Clayton Crain! The Avengers must go on a brutal hunt to capture Cletus Kasady before

a small town in the American heartland falls under his mass-murdering spell! But when Carnage defeats the Avengers, only Spider-Man remains - but can he stop Carnage before the United States government make a devil's pact ...with symbiotes?! Buckle in and prepare for a violence packed adventure! Carnage U.S.A. wants YOU!

It seems that Faraway Hills, the modern community built on the site of the far, far older Crouch Heath, did not satisfy all the needs of the community. When the Castavette Estate reappeared on the edge of town, years after it had been demolished, those needs, those urges, those cravings were satisfied. But at what price? David Hine and Mark

Stafford, the team responsible for The Man Who Laughs and Lip Hook, bring a new tale of Urban Unease, a horror tale of dreams turned dark, and a mother's soul blackened with revenge.
The Indo-European Controversy
Marvel
The ultimate quest for the world's most mysterious creatures The Loch Ness Monster, Bigfoot, the Abominable Snowman -- these are the names of the elusive beasts

that have caught the eye and captured the imaginations of people around the world for centuries. Recently, tales of these "monsters" have been corroborated by an increase in sightings, and out of these legends a new science has been born: cryptozoology -- the study of hidden animals. Cryptozoology A to Z, the first encyclopedia of its kind, contains nearly two

hundred entries, including cryptids (the name given to these unusual beasts), new animal finds, and the explorers and scientists who search for them. Loren Coleman, one of the world's leading cryptozoologists, teams up with Jerome Clark, editor and author of several encyclopedias, to provide these definitive descriptions and many never-before-published drawings and photographs

from eyewitnesses' detailed accounts. Full of insights into the methods of these scientists, exciting tales of discovery, and the history and evolution of this field, *Cryptozoology A to Z* is the most complete reference ever of the newest zoological science.

Though his home was undamaged when the Wolf-Queen attacks,

Tristan loses it anyway. His father abandons him, sells their pottery shop, and leaves him with nothing but a rucksack full of worthless mementos. Desperate, he turns to his estranged uncle for help who gifts him an ancestral sword: a great paramarion from a bygone age. Tristan's only option is to join the mysterious Huntsmen and track down the horrors that haunt his village in the slim hope of finding the

fortune he needs to buy back his home and restore his family. The Huntsman and the She-Wolf is an action packed story of a young man carrying the responsibility of teaching himself to survive at the same time he tries to win back everything taken from him. It is a story that will appeal to readers who love adventure and understand that faith in a cause is a guidepost in the journey of

life we all take.

 "NOBODY DOES IT BETTER THAN NIVEN AND POURNELLE. -- Tom Clancy
 They first appear as a series of dots on astronomical plates, heading from Saturn directly toward Earth. Since the ringed planet carries no life, scientists deduce the mysterious ship to be a visitor from another star.

The world's frantic efforts to signal the aliens go unanswered. The first contact is hostile: the invaders blast a Soviet space station, seize the survivors, and then destroy every dam and installation on Earth with a hail of asteroids. Now the conquerors are descending on the American heartland, demanding servile surrender--or death for all humans. "ROUSING . . . THE BEST OF
