The Human Calling is a vigorously researched and profoundly spiritual narrative history of the world's religious movements as they relate to society's collective understanding of the duties they have to fellow people and looks ahead to what lessons from history can be applied as people navigate a technological age. Focusing on the rise and fall of spiritual movements in both the East and West, The Human Calling examines what the world's major religions have historically offered, asks what people are here for outside of pure survival, and makes the persuasive argument for Christianity as the best leader to guide individuals

on the path toward better caring for one another—our human calling. The Human Calling takes readers through humanity's three great thought movements: The first is the Axial Age, the source of the first great human reflection on public spirit and public order The second is the 12th-17th centuries, wrestles with the question of whether people can attain individual rationality in God's order The third delves into the independent reasoning societies of the 20th and 21st centuries and looks forward to what people want their third great reflection on God's plan to be during their own period of societal flux

The year is 1900 and life was about to change in a big way for Jaro Bauer. He and his father leave their small Bohemian village for the coal mines of western Canada in the search for a better life. After crossing the Atlantic Ocean and riding a train across the

great plains of Canada, they find mining work in the Rocky Mountains. Jaro is just 12 years old when his father dies in a tragic mining accident and is soon placed in an orphanage in Calgary. His only friend was a violin his grandfather had given him. He knew his country's folk music but little else until Annie Broder took the young Jaro Bauer into her care at the Calgary Music Conservatory. Annie Broder recognized Jaro's exceptional musical ability. After several years at the Conservatory, the first examination in Canada by a musical examiner from London came along. The prize: a two-year scholarship to study music at London's Royal Academy of Music. *Song and Symphony* follows Jaro Bauer's development as a classical musician and his adventures with friends Oskar Baarova and Maria Landon.

Under the rule of the descendants of Chinggis Khan (1167-1227), China saw the development of a new culture in which medical practice came to be considered a highly respected occupation for elite men. During this period, further major steps were also taken towards the codification of medical knowledge and promotion of physicians' social status. This book traces the history of the politics, institutions, and culture of medicine of China under Mongol rule, through the eyes of a successful South Chinese official Yuan Jue (1266-1327). As the first comprehensive monograph on history of medicine in China under the Mongols, it argues that this period was a separate moment in Chinese history, when a configuration of power different from that of previous and succeeding periods created its own medical culture. The Politics of Chinese Medicine under Mongol Rule emphasizes the impact of the political and institutional changes caused by the Mongols and their collaborators on the social and cultural history of medicine, which culminated in the medical theory of Zhu Zhenheng (1282-1358), still influential in East Asian medicine. Using a variety of Chinese-language sources including gazetteers, legal texts, biographies, poems, and medical texts, it analyses the roles of the Mongols and West and Central Asians as cultural brokers and also as unifiers of China. Further, it views North and South Chinese elites as agents of historical change rather than as victims of Mongol oppression. Underlining the complexity of the history of China under the Mongols and the significance of time and geography for the study of this history, this book will be of great interest to students and scholars of Chinese medical history, Chinese social and cultural history, and

medieval global history.

Xinjiang, named in 1759 by Emperor Qianlong (?? 1711-1799) of the Manchu-led Qing dynasty of China, was ruled by the Qing from the final phase of the Dzungar-Qing Wars when the Dzungar Khanate was conquered, and lasted until the fall of the imperial dynasty in 1912. Based on rare ancient maps and historical archives, the book tells stories of Xinjiang during the Qing. It involves Emperor Qianlong, Fragrant concubine (xiangfei ??, Uyghur concubine married with Emperor Qianlong), Lady Catherine (the wife of the British consul-general in Kashgar at the end of the 19th century, and lived in Xinjiang for nearly two decades), Swedish missionaries (persisted in spreading Christianity for 38 years among Uyghurs who believed in Islam), Guan Gong temples (the belief in Lord Guan, a religious tradition of the Han and Manchus) and so on.

TOC Section I: Prep Checkers - English Language, Reasoning Ability, Quantitative Aptitude, Section II: The Knock Outs - (1-15), Section III: The Real Nut - Solved Papers (2017-19) Grove's Dictionary of Music and Musicians Springer Nature "Compiled in 940 at the court of the kingdom of Shu, the Huajian ji is the earliest extant collection of song lyrics by literati poets. The collection has traditionally been studied as the precursor to the lyrics of the Song dynasty, or in terms of what it contributed to the later development of the genre. But scholars have rarely examined the work as an anthology, and have more often focused on the work of individual poets and their respective contributions to the genre. In this book, Anna Shields examines the influence of court culture on the creation of the anthology and the significance of imitation and convention in its lyrics. Shields suggests that by considering the Huajian ji only in terms of its contributions to a later "model," we unnecessarily limit ourselves to a single literary form, and risk overlooking the broader influence of Tang culture on the Huajian ji. By

illuminating the historical and literary contexts of the anthology, the author aims to situate the Huajian ji within larger questions of Chinese literary history, particularly the influence of cultural forces on the emergence of genres and the development of romantic literature."

In this evocative and moving book, composer and broadcaster Andrew Ford shares the vivid musical experiences – good, bad and occasionally hilarious – that have shaped his life. Ford's musical journey has traversed genres and continents, and his loves are broad and deep. The Memory of Music takes us from his childhood obsession with the Beatles to his passion for Beethoven, Brahms, Vaughan Williams, Stockhausen and Birtwistle, and to his work as a composer, choral conductor, concert promoter, critic, university teacher and radio presenter. The Memory of Music is more than a wonderful memoir – it also explores the nature and purpose of music: what it is, why it means so much to us and how it shapes our worlds. The result is a captivating work that will appeal to music lovers everywhere. 'Andrew Ford's wide-ranging musical autobiography is a pleasure to read. Accessible, informative and packed with anecdotes, it's an excellent guide to the life of a composer: what it entails, what matters, and how and why it happened in the first place.'

—Steven Isserlis 'I love discovering how people become who they are. Andrew Ford's book took me into a new world: composition. His insight into how we talk about music and what it brings up for people is fascinating.' —Julia Zemiro 'Andrew Ford is one of the greatest music broadcasters around – and not just in Australia – yet The Memory of Music shows that he is much more than that.'

What is most striking is the extraordinary honesty in the way that he opens up how a composer really works and thinks, and the detail of a composer's everyday concerns – the ways that real life impinges on the artistic process. Having spent a lifetime in music myself, this book rings more true than anything else I have read. It's beautifully written, the prose flows effortlessly, and it's from the heart.' —Gavin Bryars

Love Set to Music - A Song for You and Me BRILL

"The Mongol conquest of north China between 1211 and 1234 inflicted terrible wartime destruction, wiping out more than one-third of the population and dismantling the existing social order. In the Wake of the Mongols recounts the riveting story of how northern Chinese men and women adapted to these trying circumstances and interacted with their alien Mongol conquerors to create a drastically new social order. To construct this story, the book uses a previously unknown source of inscriptions recorded on stone tablets. Jinping Wang explores a north China where Mongol patrons, Daoist priests, Buddhist monks, and sometimes single women—rather than Confucian gentry—exercised power and shaped events, a portrait that upends the conventional view of imperial Chinese society. Setting the stage by portraying the late Jin and closing by tracing the Mongol period's legacy during the Ming dynasty, she delineates the changing social dynamics over four centuries in the northern province of Shanxi, still a poorly understood region."

This volume, by offering a score of new insights derived from a wide variety of recent archaeological and textual sources, bring to life an important overseas trading port in Southeast Asia: Quanzhou. During the Song and Yuan dynasties active official and unofficial engagement in trade had formative effects on the development of the maritime trade of Quanzhou and its social and economic position both regionally and supraregionally. In the first part subjects such as the impact of the Song imperial clan and the local élites on these developments, the economic importance of metals, coins, paper money, and changes in the political economy, are amply discussed. The second part concentrates on the quantitative and qualitative analysis of archaeological data and materials, the investigation of commodities from China, their origins, distribution and final destinations, the use of foreign labour, and the particular role of South Thailand in trade connections, thus supplying the hard data underlying the main argument of the book.

Confucius is perhaps the most important philosopher in history. Today, his teachings shape the daily lives of more than 1.6 billion people. Throughout East Asia, Confucius's influence can be seen

in everything from business practices and family relationships to educational standards and government policies. Even as western ideas from Christianity to Communism have bombarded the region, Confucius's doctrine has endured as the foundation of East Asian culture. It is impossible to understand East Asia, journalist Michael Schuman demonstrates, without first engaging with Confucius and his vast legacy. Confucius created a worldview that is in many respects distinct from, and in conflict with, Western culture. As Schuman shows, the way that East Asian companies are managed, how family members interact with each other, and how governments see their role in society all differ from the norm in the West due to Confucius's lasting impact. Confucius has been credited with giving East Asia an advantage in today's world, by instilling its people with a devotion to learning, and propelling the region's economic progress. Still, the sage has also been highly controversial. For the past 100 years, East Asians have questioned if the region can become truly modern while Confucius remains so entrenched in society. He has been criticized for causing the inequality of women, promoting authoritarian regimes, and suppressing human rights. Despite these debates, East Asians today are turning to Confucius to help them solve the ills of modern life more than they have in a century. As a wealthy and increasingly powerful Asia rises on the world stage, Confucius, too, will command a more prominent place in global culture. Touching on philosophy, history, and current affairs, Confucius tells the vivid, dramatic story of the enigmatic philosopher whose ideas remain at the heart of East Asian civilization.

This book clarifies the fundamental difference between North America-based instrumental motivation and Korea (and East Asia)-specific competitive motivation by which the EFL learners' excessive competition to be admitted to famous universities and to be hired at a large-scale conglomerate is the main source of L2 motivation. It enables readers to understand that EFL-learning motivation reflects unique sociohistorical contexts grounded in a specific region or country. This book in turn necessitates the need

to develop EFL motivation theory and research tradition which are firmly based on East Asian values and culture.

Remembered today primarily as a poet, calligrapher, and critic, the protean Su Shi was an outspoken player in the contentious politics and intellectual debates of the Northern Song dynasty. In this comprehensive study, Ronald C. Egan analyzes Su's literary and artistic work against the background of eleventh-century developments within Buddhist and Confucian thought and Su's dogged disagreement with the New Policies of Wang Anshi. Egan explicates Su's views on governance, the classics, and Buddhism; and he describes Su's social-welfare initiatives, arrest for disloyalty, and exiles. Finding a key to the richness of Su's artistic activities in his vacillation on the significance of aesthetic pursuits, Egan explores Su's shi and ci poetry and Su's promotion of painting and calligraphy, looking specially at the problem of subjectivity. In a concluding chapter, he reconsiders Su's role as a founder of the wenren ("literati") and challenges the conventional understanding of both Su and the Northern Song wenren generally.
