 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving

ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

 This memoir of an injured dog's rescue and rehabilitation is "an uplifting story with tremendous heart. I couldn't put it down" (Helen Brown, international bestselling author of *Cleo*) Joal Derse Dauer was donating blankets at a local no-kill animal shelter when an injured and despondent dog caught her eye. With three "fur babies" already at home, Joal wasn't looking to adopt another dog. But there was something special about Sadie . . . Having just barely survived multiple gunshot wounds, nobody thought Sadie would have much of a life. But with patience, hope, and plenty of love, Joal saw her canine companion grow in strength and joy. Before long, she discovered that sweet Sadie had transformed her life in ways she never could have imagined.

Joyous and inspiring, *Saving Sadie* is “a triumphant tale of second chances that shows how patience, hope, compassion and love can truly transform lives” (Modern Dog).

Mutual Rescue Farrar, Straus and Giroux

A moving and scientific look at the curative powers--both physical and mental--of rescuing a shelter animal, by the president of Humane Society Silicon Valley. MUTUAL RESCUE profiles the transformational impact that shelter pets have on humans, exploring the emotional, physical, and spiritual gifts that rescued animals provide. It explores through anecdote, observation, and scientific research, the complexity and depth of the role that pets play in our lives. Every story in the book brings an unrecognized benefit of adopting homeless animals to the forefront of the rescue conversation. In a nation plagued by illnesses--16 million adults suffer from depression, 29 million have diabetes, 8 million in any given year have PTSD, and nearly 40% are obese--rescue pets can help: 60% of doctors said they prescribe pet adoption and a staggering 97% believe that pet ownership provides health benefits. For people in chronic emotional, physical, or spiritual pain, adopting an animal can transform, and even save, their lives. Each story in the book takes a deep dive into one potent aspect of animal adoption, told through the lens of people's personal experiences with their rescued pets and the science that backs up the results. This book will resonate with readers hungering for stories of healing and redemption.

 “No Dog Should Die Alone” was the attention-grabbing — and heart-stirring — headline of journalist Laura T. Coffey’s TODAY show website story about photographer Lori Fusaro’s work with senior shelter pets. While generally calm, easy, and already house-trained, these animals often represent the highest-risk population at shelters. With gorgeous, joyful photographs and sweet, funny, true tales of “old dogs learning new tricks,” Coffey and Fusaro show that adopting a senior can be even more rewarding than choosing a younger dog. You’ll meet endearing elders like Marnie, the irresistible shih tzu who has posed for selfies with Tina Fey, James Franco, and Betty White; Remy, a soulful nine-year-old dog adopted by elderly nuns; George Clooney’s cocker spaniel, Einstein; and Bretagne, the last known surviving search dog from Ground Zero. They may be slower moving and a tad less exuberant than puppies, but these pooches prove that adopting a senior brings immeasurable joy, earnest devotion, and unconditional love.
