Have you recently learned that you can make money with mini storage auctions? If so, you may be wondering how the process works and, better yet, how much you can make. To make money with self-storage auctions, you must buy merchandise for sale at an auction and then resell it for a profit. There is some risk involved. Rarely do you get to see up close or inspect what you are bidding on. With that said, there is always the possibility of making a profit. As for how much money you can make with mini storage auctions, it depends on a number of different factors. Start with how much you spend. When reselling for a profit, you need to limit your business expenses. This starts at the self-storage

auction. If you see a storage unit filled with antique furniture, it is a good buy. You may have to bid high to walk away the winner, but never bid more than you need to. The less money you spend, the more you will make after your expenses have been deducted. It also depends on the merchandise you walk away with. Why there is the potential to make money is because a wide range of items can be found in self-storage units. As previously stated, it is common to find furniture stored in them. When two households are consolidated into one, a storage unit is often rented. You may get lucky and find an auction where the whole contents of a home are up for bid. Toys, books, movies, and clothes can also be found.

NATIONAL BOOK AWARD FINALIST • A sweeping, genre-bending “masterpiece” (Minneapolis Star Tribune) exploring Black art, music, and culture in all their glory and complexity—from Soul Train, Aretha Franklin, and James Brown to The Fresh Prince of Bel-Air, Whitney Houston, and Beyoncé ONE OF THE TEN BEST BOOKS OF THE YEAR: Chicago Tribune, The Philadelphia Inquirer, The Dallas Morning News, Publishers Weekly “Gorgeous essays that reveal the resilience, heartbreak, and joy within Black performance.”—Brit Bennett, #1 New York Times bestselling author of The Vanishing Half “I was a devil in other countries, and I was a little devil in America, too.” Inspired by these few

words, spoken by Josephine Baker at the 1963 March on Washington, MacArthur “Genius Grant” Fellow and bestselling author Hanif Abdurraqib has written a profound and lasting reflection on how Black performance is inextricably woven into the fabric of American culture. Each moment in every performance he examines—whether it’s the twenty-seven seconds in “Gimme Shelter” in which Merry Clayton wails the words “rape, murder,” a schoolyard fistfight, a dance marathon, or the instant in a game of spades right after the cards are dealt—has layers of resonance in Black and white cultures, the politics of American empire, and Abdurraqib’s own personal history of love, grief, and performance. Touching on Michael Jackson, Patti LaBelle, Billy Dee Williams,

the Wu-Tan Clan, Dave Chappelle, and more, Abdurraqib writes prose brimming with jubilation and pain. With care and generosity, he explains the poignancy of performances big and small, each one feeling intensely familiar and vital, both timeless and desperately urgent. Filled with sharp insight, humor, and heart, *A Little Devil in America* exalts the Black performance that unfolds in specific moments in time and space—from midcentury Paris to the moon, and back down again to a cramped living room in Columbus, Ohio. The reality is that a tremendous number of men, women and business enterprises have found themselves in need of off-site storage facilities. At the outset, storage facilities were all rather similar. In simple terms they were rather like garages of different sizes, some as simple as a garage which had been divided up into small units. More recently, storage facilities have really differentiated and serve a variety

of different functions and purposes. In this book you will be provided with in depth and useful information about the various types of storage facilities that are possible self-storage investments for you.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers)

the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it

provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

The old adage of buy low and sell high works, but it is not that cut and dry in today's market. This is especially the case when self-storage is selling for a premium. It is daunting competing for facilities with large, well funded operators and REITS. This book will show you the three step process to successfully purchase self-storage today, even in large markets where the REITS are active, and provide all the resources you will need. By the end of this tutorial you will possess the essential tools to effectively find, analyze risk, and compete with the larger players. You will not only have the knowledge to BUY

facilities, but BUY them in a way that fulfills your pre-determined parameters and business plan. Mark Helm, CCIM explains in detail how he did just that, and with very limited startup funds. As

the economy improves and more people use self-storage, it is going to be more important than ever to know how to effectively compete with large well funded operators in purchasing facilities.
