Investigator Handbook

Penguin

Once there was a jolly

Santa who wanted to leave the North Pole on a worldwide vacation! He decides he wants to visit Mount Rushmore and see the stone faces of George Washington, Thomas Jefferson, Abraham Lincoln, and Theodore Roosevelt. Then he'll ski the silky slopes of the Swiss Alps. And after that, he'll ride an elephant in South Africa on a safari. Santa is eager for a new adventure, but Mrs. Claus isn't so sure he's ready just yet. Before he takes off, she's going to make sure he's got his rock climbing gear. And his skis, and his hat. He must be ready! It isn't long before Santa realizes that maybe his adventure would be more fun with a friend. Mrs. Claus is clearly an expert adventurer herself, and so the two take off together on a runaway adventure. They have a little time before Christmas, after all, and everybody needs a break sometimes! Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for

children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

DK Eyewitness Travel Guide Sweden Call of

Cthulhu Roleplaying In this third book of the Sundering series kicked off by R.A. Salvatore and the dark elf Drizzt, SCRIBE award-winning author Erin M. Evans thrusts her signature character Farideh into a maelstrom of devilish politics and magical intrigue that will have far-reaching implications for the future of the Forgotten Realms.

As the chaos of the Sundering rages around her, young warlock Farideh faces a more personal turmoil wrought by a deal she made with a devil years ago. Hoping to protect her twin sister,

she leaves everything she holds dear to assist a wizard in a scheme that pits the devils of the Nine Hells against the gods above. But when Farideh casts the spell to enter the wizard's remote mountaintop fortress, she picks up a stowaway—a Harper agent named Dahl who isn't so inclined to follow devilish demands. Dahl attempts to escape only to run into a village of odd people, lurking behind an impenetrable wall. Forced to gaze into the villagers' souls, Farideh points out the ones who seem different, only to watch as the wizard's guard carts them off to fates unknown. Are these villagers or prisoners? Are they blessed or doomed by the gods? As the wizard's guessing game proves more and more diabolical, Farideh resolves to unravel his secrets—even if it means she'll lose her own soul to the Nine Hells. From the Hardcover edition.

A Guide to Japanese Role-Playing Games Penguin

An important part of every manager's job is changing people's behavior: to improve someone's performance, get them to better manage relationships with colleagues, or to stop them doing something. Yet, despite the fact that changing people's behavior is such an important skill for managers, too many are unsure how to actually go about it. This book reveals the simple, but powerful techniques for changing behavior that experts from a range of disciplines have been using for years, making them available to all managers in a single and comprehensive toolkit for change that managers can use to drive and improve the performance of their staff. Based on research conducted for this book, it introduces practical techniques drawn from the fields of psychology, psychotherapy, and behavioral economics, and show how they can be applied to address some of the most common, every-day challenges that managers face. #changingpeople

[Ape Escape 2 Official Strategy Guide](#) Rune Factory Frontier

For many tabletop RPG players, the joy of an in-depth game is that anything can happen. Typical adventure modules include a map of the adventure's primary location, but every other location?whether it's a woodland clearing, a random apothecary or the depths of a temple players elect to explore?has to be

improvised on the fly by the Game Master. As every GM knows, no matter how many story hooks, maps or NPCs you painstakingly create during session prep, your best-laid plans are often foiled by your players' whims, extreme skill check successes (or critical fails) or their playful refusal to stay on task. In a game packed with infinite possibilities, what are GMs supposed to do when their players choose those for which they're not prepared? The Game Master's Book of Random Encounters provides an unbeatable solution. This massive tome is divided into location categories, each of which can stand alone as a small stop as part of a larger campaign. As an example, the "Taverns, Inns, Shops & Guild Halls" section includes maps for 19 unique spaces, as well as multiple encounter tables designed to help GMs fill in the sights, sounds, smells and proprietors of a given location, allowing for each location in the book to be augmented and populated on the fly while still ensuring memorable moments for all your players. Each map is presented at scale on grid, enabling GMs to

determine exactly where all of the characters are in relation to one another and anyone (or anything) else in the space, critical information should any combat or other movement-based action occur. Perhaps more useful than its nearly 100 maps, the book's one-shot generator features all the story hooks necessary for GMs to use these maps as part of an interconnected and contained adventure. Featuring eight unique campaign drivers that lead players through several of the book's provided maps, the random tables associated with each stage in the adventure allow for nearly three million different outcomes, making The Game Master's Book of Random Encounters an incredible investment for any would-be GM. The book also includes a Random NPC Generator to help you create intriguing characters your players will love (or love to hate), as well as a Party Makeup Maker for establishing connections among your PCs so you can weave together a disparate group of adventurers with just a few dice rolls. Locations include taverns, temples, inns, animal/creature lairs, gatehouses, courts, ships,

laboratories and more, with adventure hooks that run the gamut from frantic rooftop chases to deep cellar dungeon-crawls, with a total of 97 maps, more than 150 tables and millions of possible adventures. No matter where your players end up, they'll have someone or something to persuade or deceive, impress or destroy. As always, the choice is theirs. But no matter what they choose, with *The Game Master's Book of Random Encounters*, you'll be ready.
