Atlas of the 2020 Elections Wipf and Stock Publishers

A timely and moving collection from the renowned inaugural poet on issues facing our country and people—immigration, gun violence, racism, LGBTQ issues, and more. Through an oracular yet intimate and accessible voice, Richard Blanco addresses the complexities and contradictions of our nationhood and the unresolved sociopolitical matters that affect us all. Blanco digs deep into the very marrow of our nation through poems that interrogate our past and present, grieve our injustices, and note our flaws, but also remember to celebrate our ideals and cling to our hopes. Charged with the utopian idea that no single narrative is more important than another, this book asserts that America could and ought someday to be a country where all narratives converge into one, a country we can all be proud to love and where we can all truly thrive. The poems form a mosaic of seemingly varied topics: the Pulse nightclub massacre; an unexpected encounter on a visit to Cuba; the forced exile of 8,500 Navajos in 1868; a lynching in Alabama; the arrival of a young Chinese woman at Angel Island in 1938; the incarceration of a gifted writer; and the poet's abiding love for his partner, who he is finally allowed to wed as a gay man. But despite each poem's unique concern or occasion, all are fundamentally struggling with the overwhelming question of how to love this country.

From California Governor Gavin Newsom comes an empowering picture book about a young boy with dyslexia who discovers a new way to look at reading. Ben loves baseball. He loves the lines of diamond-shaped field and the dome of the pitcher's mound. What Ben doesn't like is reading. Ben has dyslexia, which means letters and sounds get jumbled up in his brain, and then the words don't make sense. But when Ben starts looking at reading like he looks at baseball, he realizes that if he keeps trying, he can overcome any obstacle that comes his way. In this empowering story by California Governor Gavin Newsom, inspired by his own childhood diagnosis of dyslexia, readers will learn that

kids with the determination to try (and try again) can do big things. *This book is set in a font specifically designed to be easier for people with dyslexia to read.

"Drawing on a wealth of scholarship by second-wave feminists and historians of religion, race, and colonialism, Scott shows that the gender equality invoked today as a fundamental and enduring principle was not originally associated with the term "secularism" when it first entered the lexicon in the nineteenth century. In fact, the inequality of the sexes was fundamental to the articulation of the separation of church and state that inaugurated Western modernity. Scott points out that Western nation-states imposed a new order of women's subordination, assigning them to a feminized familial sphere meant to complement the rational masculine realms of politics and economics. It was not until the question of Islam arose in the late twentieth century that gender equality became a primary feature of the discourse of secularism"-- Publisher's description

NATIONAL JEWISH BOOK AWARD WINNER • Visually and emotionally rich, *MetaMaus* is as groundbreaking as the masterpiece whose creation it reveals. In the pages of *MetaMaus*, Art Spiegelman re-enters the Pulitzer prize-winning *Maus*, the modern classic that has altered how we see literature, comics, and the Holocaust ever since it was first published twenty-five years ago. He probes the questions that *Maus* most often evokes—Why the Holocaust? Why mice? Why comics?—and gives us a new and essential work about the creative process. Compelling and intimate, *MetaMaus* is poised to become a classic in its own right.

Integrity Counts HarperCollins

A post-coronavirus evolution-based how-to for putting living ahead of work. Bestselling author Frank Schaeffer offers a passionate political, social, and lifestyle "blueprint" for changes millions of us know are needed to rebalance our work lives with

thriving relationships: Fall in Love, Have Children, Stay Put, Save the Planet, Be Happy. Even before everything was disrupted by COVID-19 (not to mention by Trump), millions of Americans were already questioning capitalism's "values." We were already challenging the idea that your job defines you. We already knew something was wrong. Loneliness, frustration, and alienation were already on the rise. Even the most successful of us felt too busy, too preoccupied, and too distracted to enjoy what we intuitively know are life's greatest rewards: vibrant relationships, family life, connection to others, involvement in our community, and the thrilling experience of love. *Fall in Love . . .* builds a well-researched and entertaining bridge to living happier lives and to a better future. It shows us that based on a better understanding of our evolutionary selves, we can thrive in family life and in our work life, too. But to do both joyfully—and at the same time—depends on rediscovering the priority of relationships, connections, community, and love.

The power of words has rarely been given a more compelling demonstration than in the Gettysburg Address. Lincoln was asked to memorialize the gruesome battle. Instead, he gave the whole nation "a new birth of freedom" in the space of a mere 272 words. His entire life and previous training, and his deep political experience went into this, his revolutionary masterpiece. By examining both the address and Lincoln in their historical moment and cultural frame, *Wills* breathes new life into words we thought we knew, and reveals much about a president so mythologized but often misunderstood. *Wills* shows how Lincoln came to change the world and to effect an intellectual revolution, how his words had to and did complete the work of the guns, and how Lincoln wove a spell that has not yet been broken.

You were transformed to transform your world! For too long, Christianity has been defined by a false concept of church. As a result, believers have built walls around their lives, keeping culture at a distance. As Christians have tried to keep culture out of the church, unfortunately, the church has kept itself out of the culture. This was never Jesus' design for the your life! Before church was established as a place that people "came to," Jesus instituted it as an army that brought transformation to society, starting with salvation and continuing with seven spheres of

influence: Church, family, education, government, media, arts, and commerce. Six revolutionary voices in the modern church deliver *Invading Babylon*. This essential guide will equip you to: Understand your vital role in shaping society. Release God's will in your sphere of influence. Become an unstoppable citizen in God's Kingdom. It's your time to arise and be a light in a dark world.

The plan was perfect. No cameras, no microphones, no prying eyes and plenty of security. The setting for a clandestine meeting could not have been better. Former President Bill Clinton exited Attorney General Loretta Lynch's private plane 20-minutes after he boarded. Both thought they got away with it. Both were wrong. Amid a heated Presidential race, federal investigations involving emails and Benghazi and society looking for clarity on the future of the country, the secret tarmac meeting would only complicate things. The secret meeting would have never been revealed if it weren't for a veteran journalist and a trusted source. It wasn't the Emmys, Murrows or Associated Press Awards, it was decades of experience and relationships that led to the moment Christopher Sign broke the story of the secret tarmac meeting. His former teammates and coaches at the University of Alabama would play a personal and critical role after breaking the story. From politics to football, to friendship and journalism, this is the unfiltered story of the secret tarmac meeting. Christopher takes you behind the scenes for a step by step account of how it all unfolded in the summer of 2016 on a blazing tarmac. Details revealed for the first time, the process, the questions of sabotage, the attempt at a coverup, the contradictions from Clinton & Lynch, and the source who saw it all. Take a ride and tackle *THE SECRET ON THE TARMAC*.

Lance Loud came to represent the gay community, and in

addition, embodied the creative spirit and genius of outsider status that became the 1980s and fuelled so much of what has evolved today in our culture in terms of art, music and literature. In 2003, PBS broadcast the program, *Lance Loud: A Death in an American Family*, which was filmed in 2001 while visiting the family again, at the invitation of Lance before his death at age 50. As seen here, short as Lance's life was, it was a monumental one that continues to resonate to the present day.

Superheroes Are Everywhere St. Martin's Essentials

This is the story of Condoleezza Rice that has never been told, not that of an ultra-accomplished world leader, but of a little girl--and a young woman--trying to find her place in a sometimes hostile world, of two exceptional parents, and an extended family and community that made all the difference. Condoleezza Rice has excelled as a diplomat, political scientist, and concert pianist. Her achievements run the gamut from helping to oversee the collapse of communism in Europe and the decline of the Soviet Union, to working to protect the country in the aftermath of 9-11, to becoming only the second woman--and the first black woman ever--to serve as Secretary of State. But until she was 25 she never learned to swim, because when she was a little girl in Birmingham, Alabama, Commissioner of Public Safety Bull Connor decided he'd rather shut down the city's pools than give black citizens access. Throughout the 1950's, Birmingham's black middle class largely succeeded in insulating their children from the most corrosive effects of racism, providing multiple support systems to ensure the next generation would live better than the last. But by 1963, Birmingham had become an environment where blacks were expected to keep their head down and do what they were told--or face violent consequences. That spring two bombs exploded in Rice's neighborhood amid a series of chilling Klu Klux Klan attacks. Months later, four young girls lost their lives in a particularly vicious bombing. So how was Rice able to achieve what she ultimately did? Her father, John, a minister and educator, instilled a love of sports and politics. Her mother, a teacher, developed Condoleezza's passion for piano and exposed her to the fine arts. From both, Rice learned the value of faith in the face of hardship and the importance of giving back to the community. Her parents' fierce unwillingness to set limits propelled her to the venerable halls of Stanford University, where she quickly rose through the ranks to become the university's

second-in-command. An expert in Soviet and Eastern European Affairs, she played a leading role in U.S. policy as the Iron Curtain fell and the Soviet Union disintegrated. Less than a decade later, at the apex of the hotly contested 2000 presidential election, she received the exciting news—just shortly before her father’s death—that she would go on to the White House as the first female National Security Advisor. As comfortable describing lighthearted family moments as she is recalling the poignancy of her mother’s cancer battle and the heady challenge of going toe-to-toe with Soviet leaders, Rice holds nothing back in this remarkably candid telling.

This lecture by Mott, delivered 17 December 1849, was in response to one by an unidentified lecturer criticizing the demand for equal rights for women. She makes a very gentle appeal, here, for women's enfranchisement, placing emphasis, instead on the injustices done to women in marriage.

Zero Fail Crown

A conservative college professor's compelling defense of liberal education Not so long ago, conservative intellectuals such as William F. Buckley Jr. believed universities were worth fighting for. Today, conservatives seem more inclined to burn them down. In

Let's Be Reasonable, conservative political theorist and professor Jonathan Marks finds in liberal education an antidote to this despair, arguing that the true purpose of college is to encourage people to be reasonable—and revealing why the health of our democracy is at stake. Drawing on the ideas of John Locke and other thinkers, Marks presents the case for why, now more than ever, conservatives must not give up on higher education. He recognizes that professors and administrators frequently adopt the language and priorities of the left, but he explains why conservative nightmare visions of liberal persecution and indoctrination bear little resemblance to what actually goes on in college classrooms. Marks examines why advocates for liberal education struggle to offer a coherent defense of themselves against their conservative critics, and demonstrates why such a defense must rest on the cultivation of reason and of pride in being reasonable. More than just a campus battlefield guide, *Let's Be Reasonable* recovers what is truly liberal about liberal education—the ability to reason for oneself and with others—and shows why the liberally educated person considers reason to be more than just a tool for scoring political points.

From the author of *A New Kind of Christianity* comes a bold proposal: only doubt can save the world and your faith. ONE of the Best Spiritual Books of 2021—Spirituality & Practice "Will help you live fuller and breathe easier.." —Glennon Doyle Sixty-five million adults in the U.S. have dropped out of active church attendance and about 2.7 million more are leaving every year. *Faith After Doubt* is for the millions of people around the world who feel that their faith is falling apart. Using his own story and the stories of a diverse group of struggling believers, Brian D. McLaren, a former pastor and now an author, speaker, and activist shows how old assumptions are being challenged in nearly every area of human life, not just theology and spirituality. He proposes a four-stage model of faith development in which questions and doubt are not the enemy of faith, but rather a portal to a more mature and fruitful kind of faith. The four stages—Simplicity, Complexity, Perplexity, and Harmony—offer a path forward that can help sincere and thoughtful people leave behind unnecessary baggage and intensify their commitment to what matters most.

What's the Matter with White People? Simon and Schuster

NEW YORK TIMES BESTSELLER • "This is one of those books that will go down as the seminal work—the determinative work—in this field. . . . Terrifying."—Rachel Maddow The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming mismanagement of the Obama and Trump years, right up to the insurrection at the Capitol on January 6—by the Pulitzer Prize winner and #1 New York Times bestselling co-author of *A Very Stable Genius* and *I Alone Can Fix It* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST Carol Leonnig has been reporting on the Secret Service for *The Washington Post* for most of the last decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today—from a toxic work culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency's once-hallowed image before fixing its flaws. But the Secret Service wasn't always so

troubled. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But this reputation for courage and excellence would not last forever. By Barack Obama's presidency, the once-

proud Secret Service was running on fumes and beset by mistakes and alarming lapses in judgment: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump's arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To

explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a hobbled agency that's in desperate need of reform. "I will be forever grateful to them for risking their careers," she writes, "not because they wanted to share tantalizing gossip about presidents and their families, but because they know that the Service is broken and needs fixing. By telling their story, they hope to revive the Service they love."
