FINANCIAL TIMES,

BOOK OF THE YEAR •
“The riveting, definitive
account of WeWork, one
of the wildest business
stories of our time.”—Matt
Levine, Money Stuff
columnist, Bloomberg
Opinion The definitive
story of the rise and fall of

WeWork (also depicted in the upcoming Apple TV+ series WeCrashed, starring Jared Leto and Anne Hathaway), by the real-life journalists whose Wall Street Journal reporting rocked the company and exposed a financial system drunk on the elixir of Silicon Valley innovation. **ONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** WeWork would be worth \$10 trillion, more

than any other company in the world. It wasn't just an office space provider. It was a tech company—an AI startup, even. Its WeGrow schools and WeLive residences would revolutionize education and housing. One day, mused founder Adam Neumann, a Middle East peace accord would be signed in a WeWork. The company might help colonize Mars. And Neumann would become the world's first trillionaire. This was the vision of Neumann and his primary cheerleader,

SoftBank's Masayoshi Son. In hindsight, their ambition for the company, whose primary business was subletting desks in slickly designed offices, seems like madness. Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion—on paper.

With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning

through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. Nearly \$40 billion of value vaporized in one of corporate America's most spectacular meltdowns. Peppered with eye-popping, never-before-reported details, *The Cult of We* is the gripping story of careless and often absurd people—and the financial system they

have made. *Federal School Code List* Macmillan

Marian Forrester arrives in the prairie town of Sweet Water as a young bride — beautiful, aristocratic, and spirited. To Captain Daniel Forrester, her pioneer husband, she's a precious jewel, and in the eyes of her new neighbor, young Niel Herbert, she's the perfect lady. But like the

burgeoning promise of the American frontier, Marian's charms decline with the passing of time, and the world's admiration curdles into pity and contempt. Pulitzer Prize-winning novelist Willa Cather looked back from the perspective of the modern industrial world to an era when the American frontier offered an abundance of fresh possibilities. The country's inevitable change is reflected in this bittersweet coming-of-age story, whose themes

explore the passing of a proud pioneer spirit, the triumph of materialism, and the struggles of women in a patriarchal society. A Lost Lady brilliantly recaptures a specific chapter in American history and its evocation of loss and nostalgia remains recognizable to readers of every time and place. The story of Steve Schwarzman, Blackstone, and a financial revolution, King of Capital is the greatest untold success story on Wall Street. In King of Capital, David Carey and John Morris show how Blackstone (and other private equity firms) transformed themselves from gamblers, hostile-takeover artists, and 'barbarians at the gate' into disciplined, risk-conscious investors while the financial establishment—banks and investment bankers such

as Citigroup, Bear Stearns, Lehman, UBS, Goldman Sachs, Merrill Lynch, Morgan Stanley—were recklessly assuming risks, leveraging up to astronomical levels and driving the economy to the brink of disaster. Now, not only have Blackstone and a small coterie of competitors wrested control of corporations around the globe, but they have emerged as a major force on Wall Street, challenging the likes of Goldman Sachs and Morgan Stanley for

dominance. Insightful and hard-hitting, filled with never-before-revealed details about the workings of a heretofore secretive company that was the personal fiefdom of Schwarzman and Peter Peterson, King of Capital shows how Blackstone and private equity will drive the economy and provide a model for how financing will work in the years to come.

In this groundbreaking book, Scalia and Garner systematically explain all the most important principles of constitutional, statutory,

and contractual interpretation in an engaging and informative style with hundreds of illustrations from actual cases. Is a burrito a sandwich? Is a corporation entitled to personal privacy? If you trade a gun for drugs, are you using a gun in a drug transaction? The authors grapple with these and dozens of equally curious questions while explaining the most principled, lucid, and reliable techniques for deriving meaning from authoritative texts. Meanwhile, the book

takes up some of the most controversial issues in modern jurisprudence. What, exactly, is textualism? Why is strict construction a bad thing? What is the true doctrine of originalism? And which is more important: the spirit of the law, or the letter? The authors write with a well-argued point of view that is definitive yet nuanced, straightforward yet sophisticated. [Boston Directory](#) Crown Since the 1980s, the theme park industry has developed into a global

 BESTSELLER From
 Blackstone chairman,
 CEO, and co-founder
 Stephen A. Schwarzman,
 a long-awaited book that

uses impactful episodes from Schwarzman's life to show readers how to build, transform, and lead thriving organizations. Whether you are a student, entrepreneur, philanthropist, executive, or simply someone looking for ways to maximize your potential, the same lessons apply. People know who Stephen Schwarzman is—at least they think they do. He's the man who took \$400,000 and co-founded Blackstone, the investment firm that manages over \$500 billion

(as of January 2019). He's the CEO whose views are sought by heads of state. He's the billionaire philanthropist who founded Schwarzman Scholars, this century's version of the Rhodes Scholarship, in China. But behind these achievements is a man who has spent his life learning and reflecting on what it takes to achieve excellence, make an impact, and live a life of consequence. Folding handkerchiefs in his father's linen shop, Schwarzman dreamed of

a larger life, filled with purpose and adventure. His grades and athleticism got him into Yale. After starting his career in finance with a short stint at a financial firm called DLJ, Schwarzman began working at Lehman Brothers where he ascended to run the mergers and acquisitions practice. He eventually partnered with his mentor and friend Pete Peterson to found Blackstone, vowing to create a new and different kind of financial institution. Building Blackstone into

the leading global financial institution it is today didn't come easy. Schwarzman focused intensely on culture, hiring great talent, and establishing processes that allow the firm to systematically analyze and evaluate risk. Schwarzman's simple mantra "don't lose money" has helped Blackstone become a leading private equity and real estate investor, and manager of alternative assets for institutional investors globally. Both he and the firm are known

for the rigor of their investment process, their innovative approach to deal making, the diversification of their business lines, and a conviction to be the best at everything they do. Schwarzman is also an active philanthropist, having given away more than a billion dollars. In philanthropy, as in business, he is drawn to situations where his capital and energy can be applied to drive transformative solutions and change paradigms, notably in education. He

uses the skills learned over a lifetime in finance to design, establish, and support impactful and innovative organizations and initiatives. His gifts have ranged from creating a new College of Computing at MIT for the study of artificial intelligence, to establishing a first-of-its-kind student and performing arts center at Yale, to enabling the renovation of the iconic New York Public Library, to founding the Schwarzman Scholars fellowship program at

Tsinghua University in Beijing—the single largest philanthropic effort in China’s history from international donors. Schwarzman’s story is an empowering, entertaining, and informative guide for anyone striving for greater personal impact. From deal making to investing, leadership to entrepreneurship, philanthropy to diplomacy, Schwarzman has lessons for how to think about ambition and scale, risk and opportunities, and how to achieve success through

the relentless pursuit of excellence. Schwarzman not only offers readers a thoughtful reflection on all his own experiences, but in doing so provides a practical blueprint for success.

A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana

became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate

personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past. [History of Windham County, Connecticut: 1600-1760](#)
