How did a couple of quirky  
siblings from suburban

Pittsburgh end up as the king and queen of eclectic-design chic with their own HGTV show? They never let fear get in the way of a great idea. Leanne and Steve Ford share their secrets for how to turn dreams into reality. Leanne and Steve were middle-class kids growing up in Pittsburgh in the 80s and 90s. There was nothing particularly glamorous or unusual about their lives as kids. Leanne was a shy, stubborn child who lived a rich life in her own imagination. Steve was outdoorsy and offbeat and was bullied mercilessly at school for being different. Their parents, grounded in faith and always encouraging of both creativity and hard work, gave them the confidence and the encouragement they needed to pursue the often difficult creative life. Leanne's slogan as a child was, "My name is Leanne. If I want to, I can." Leanne studied clothing design and pulled gigs at fashion houses in New York and as a stylist to country music stars in Nashville before she found her true passion: interior design. Steve threw himself into kayaking and snowboarding and opening his own men's clothing store in

Pittsburgh. And then their individual passions converged when Leanne asked Steve to help renovate her bathroom. There was magic in their collaboration, and they began renovating for clients in Pittsburgh—creating unique, authentic spaces that manage to feel both chic and completely obtainable—before catching the eye of producers at HGTV. Leanne and Steve share the details of their journey, including the beliefs that have inspired them and the experiences that have challenged them along the way. *Algorithmic Trading with Interactive Brokers* HarperCollins

 Explore the history and cultural impact of a groundbreaking television show adored by old and new fans alike: *Buffy the Vampire Slayer*. Over the

course of its seven-year run, *Buffy the Vampire Slayer* cultivated a loyal fandom and featured a strong, complex female lead, at a time when such a character was a rarity. Evan Ross Katz explores the show's cultural relevance through a book that is part oral history, part celebration, and part memoir of a personal fandom that has universal resonance still, decades later. Katz—with the help of the show's cast, creators, and crew—reveals that although *Buffy* contributed to important conversations about gender, sexuality, and feminism, it was not free of internal strife, controversy, and shortcomings. Men—both on screen and off—would taint the show's reputation as a feminist masterpiece, and changing networks, amongst other factors, would drastically alter the show's tone. Katz addresses these issues and more, including interviews with stars Sarah Michelle Gellar, Charisma Carpenter, Emma Caulfield, Amber Benson, James Marsters, Anthony Stewart Head, Seth Green, Marc Blucas, Nicholas Brendon, Danny Strong, Tom Lenk, Bianca

Lawson, Julie Benz, Clare Kramer, K. Todd Freeman, Sharon Ferguson; and writers Douglas Petrie, Jane Espenson, and Drew Z. Greenberg; as well as conversations with *Buffy* fanatics and friends of the cast including Stacey Abrams, Cynthia Erivo, Lee Pace, Claire Saffitz, Tavi Gevinson, and Selma Blair. *Into Every Generation a Slayer Is Born* engages with the very notion of fandom, and the ways a show like *Buffy* can influence not only how we see the world but how we exist within it. [Voices 2000 Travel by Design](#) A real-world guide to Attachment Parenting from the *Big Bang Theory* actress, neuroscientist, and mother Mayim Bialik—a book hailed by Dr. William Sears as “delightful” and by Ricki Lake as “a fantastic guide to birth and parenting that is packed with invaluable wisdom.” Mayim Bialik was the child star of the popular 1990s TV sitcom *Blossom*, but she definitely didn't follow the typical child-star trajectory. Instead, Mayim got her PhD in neuroscience from UCLA, married her college sweetheart, and had two kids. Mayim then did what many new moms do—she

read a lot of books, talked with other parents, and she soon started questioning a lot of the conventional wisdom she heard about the “right” way to raise a child. That's when she turned to Attachment Parenting, a philosophy and lifestyle popularized by well-known physicians like Dr. William Sears and Dr. Jay Gordon. To Mayim, Attachment Parenting's natural, child-led approach not only felt right emotionally, it made sense intellectually and instinctually. She found that when she followed her intuition and relaxed into her role as a mother instead of following some rigid parenting script, both she and her children thrived. Taking into account her experience as a mother (and her scientific background), Mayim presents the major tenets of Attachment Parenting, including: Baby wearing: How to “wear” your baby in a sling or a wrap to foster a closer bond with your child—it's possible even for mamas with bad backs (and with big babies)! Breastfeeding: Learn how to listen to your baby's cues rather than sticking to a rigid schedule—and why people on airplanes love a nursing mother! Gentle discipline: How to

get your child to behave without yelling, threats, or time-outs—it really is possible. Co-sleeping: How to avoid “sleep training” and get a great night’s sleep for the whole family. Without the pretense and luxuries typical of so many Hollywood actors and parents, Mayim describes the beauty, simplicity, and purposefulness of Attachment Parenting, and how it’s become the guiding principle for her family. Much more than a simple how-to parenting guide, *Beyond the Sling* shows us that the core principles underlying Attachment Parenting are universal and can be appreciated no matter how you decide to raise your child.

This volume synthesizes and advances existing knowledge of consumer response to visuals. Representing an interdisciplinary perspective, contributors include scholars from the disciplines of communication, psychology, and marketing. The book begins with an overview section intended to situate the reader in the discourse. The overview describes the state of knowledge in both academic research and actual practice, and provides concrete sources

for scholars to pursue. Written in a non-technical language, this volume is divided into four sections: Image and Response - illustrates the difficulty encountered even in investigating the basic influences, processes, and effects of "mere exposure" to imagery. Image and Word - presents instances in which the line between words and pictures is blurred, such as the corporate logo which is often pictorial in nature but communicates on an abstract level usually attributed to words. Image and the Ad - contributes to our appreciation for the exquisite variations among advertising texts and the resultant variability in response, not only to different ads but among different viewers of the same ad. Image and Object - carries the inquiry of visual response over the bridge toward object interaction. Having traveled a path that has gone from the precise working of the brain in processing visual stimuli all the way to the history of classical architecture, readers of this volume will have a new respect for the complexity of human visual response and the research that is trying to

explain it. It will be of interest to those involved in consumer behavior, consumer psychology, advertising, marketing, and visual communication.

This book addresses cultural variability in children's social worlds, examining the acquisition, development, and use of

culturally relevant social competencies valued in diverse cultural contexts. It discusses the different aspects of preschoolers' social competencies that allow children – including adopted, immigrant, or at-risk children – to create and maintain relationships, communicate, and to get along with other people at home, in daycare or school, and other situations. Chapters explore how children's social competencies reflect the features of the social worlds in which they live and grow. In addition, chapters examine the extent that different cultural value orientations manifest in children's social functioning and describes how parents in autonomy-oriented cultures tend to value different social skills than parents with relatedness or autonomous-relatedness orientations. The book concludes with recommendations for future research directions. Topics featured in this book include: Gender development in young children. Peer interactions and relationships during the preschool years. Sibling interactions in western and non-western cultural groups. The roles

of grandparents in child development. Socialization and development in refugee children. Child development within institutional care. Children's Social Worlds in Cultural Context is a valuable resource for researchers, clinicians/practitioners, and graduate students in developmental psychology, child and school psychology, social work, cultural anthropology, family studies, and education.
