The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.

With full legalization seeming inevitable, it's time to shift the conversation—from whether recreational cannabis should be legalized to how. *Weed Rules* argues that it's time for states to abandon their "grudging tolerance" approach to legal weed and to embrace "careful exuberance." In this thorough and witty book, law professor Jay Wexler invites policy makers to responsibly embrace the

enormous benefits of cannabis, including the joy and euphoria it brings to those who use it. The "grudging tolerance" approach has led to restrictions that are too strict in some cases—limiting how and where cannabis can be used, cultivated, marketed, and sold—and far too loose in others, allowing employers and police to discriminate against users. This book shows how focusing on joy and community can lead us to an equitable marijuana policy in which minority communities, most harmed by the war on drugs, play a leading role in the industry. Centering pleasure and fun as legitimate policy goals, *Weed Rules* puts forth specific policies to advocate for a more just, sensible, and joyous post-legalization society.
