Illuminates how religion
has shaped Latino politics
and community building
Too often religious politics
are considered peripheral
to social movements, not
central to them. Faith and

Power: Latino Religious
Politics Since 1945 seeks
to correct this
misinterpretation,
focusing on the
post-World War II era. It
shows that the religious
politics of this period were
central to secular
community-building and
resistance efforts. The
volume traces the
interplay between Latino
religions and a variety of

pivotal movements, from the farm worker movement to the sanctuary movement, offering breadth and nuance to this history. This illuminates how broader currents involving immigration, refugee policies, de-industrialization, the rise of the religious left and right, and the Chicana/o, immigrant, and Puerto Rican civil rights movements helped to give rise to political engagement among Latino religious actors. By addressing both the

influence of these larger trends on religious movements and how the religious movements in turn helped to shape larger political currents, the volume offers a compelling look at the twentieth-century struggle for justice.

Many guides claim to offer an insider view of top undergraduate programs, but no publisher understands insider information like Vault, and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate

institutions. Each 2- to 3-page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed, balanced perspectives.

Black Harvard Doctorate in Poetics launches poetry that explores modern blackness. Clint Smith's debut poetry collection, *Counting Descent*, is a

coming of age story that seeks to complicate our conception of lineage and tradition. Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing

us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward. - Winner, 2017 Black Caucus of the American Library Association Literary Award - Finalist, 2017 NAACP Image Awards - 2017 'One Book One New Orleans' Book Selection

There is an enormous amount of financial aid money available in direct scholarships and grants to

fund college study; the trick is to identify the sources of athletic awards and to find the right one for you. In *Free Money for Athletic Scholarships*, Laurie Blum shows the high school athlete where and how to apply for the millions of dollars available each year to help finance education costs.

You Can Afford College 2001 Sam Houston State University: Environmental Science Program Features the Environmental Science Program at Sam Houston State University

in Huntsville, Texas. Provides information about the program's history, faculty, courses, internships, related organizations, and financial aid. *Counting Descent* Today's graduates should be grounded in the basics of personal finance and possess the skills and knowledge necessary to make informed decisions and take responsibility for their own financial well-being. Faced with an array of complex financial services and sophisticated products, many graduates

lack the knowledge and skills to make rational, informed decisions on the use of their money and planning for future events, such as retirement. This book shows what you can do to improve financial literacy awareness and education. It covers the use of interactive games and tutorials, peer-to-peer mentoring, and financial literacy contests in addition to more formal education. It gives you a sample of approaches and experiences in the financial literacy arena.

Divided into three parts, the book covers financial literacy education for grades K-12, college, and post-college.

This book addresses the uncertain state of financial literacy among today's college students and examines steps colleges and universities are taking to address this widespread concern. This work introduces a four-fold typology of organizational models for college-based financial education programs and uses these as optics for grouping and presenting case studies. The case studies presented provide

a holistic representation of how universities develop, sustain and grow financial education programs. Details on the nature of programs, goals, administrative support, resources, partnerships, scale of operations, program content and delivery, advertising, evaluation, program spinoffs, and much more are captured in this work. In addition to detailed case studies, this book presents general findings on the availability of and delivery modes for college-based financial

education. This work has significant utility for universities and colleges seeking to implement new financial education programs, changing existing programs, improving program relevancy or expanding program delivery on campus. It is an important contribution to the experiential understanding on how college students as consumers can acquire financial education as part of their broader college curricula and be able to better manage their

financial lives. Included in the coverage: The financial literacy imperative. Program delivery and organizational models in state colleges and universities. The academic model. The full-fledged money management center. The aspirational/seed program. The branch/interspersed model. As financial literacy is increasingly recognized as a core life skill, it becomes more crucial as a component of higher education.

Personal Financial Education in State Colleges and Universities in the U.S. is salient reading for college and university administrators, researchers, social workers and mental health professionals working with college students, policy analysts and faculty from any discipline interested in promoting the financial literacy of their students. **Complete Book of Colleges, 2005 Edition** Offers a ten-step, personalized action plan designed to guide

students and their parents through the financial aid process, and includes advice and instructions for

researching aid options, filling out forms, and managing expenses.
