William Kennedy (1814–1890) was an explorer and fur trader. In 1851 he was recommended to Lady Franklin as the commander of her second sponsored expedition in search of her husband, Arctic explorer Sir John Franklin (1786–1847), who had not returned from his 1845 expedition to chart the remaining unexplored section of the Arctic and the Northwest Passage. This volume, first published in 1853, contains Kennedy's account of his 1851 Arctic expedition to rescue Sir John Franklin. Written in the form of a diary, Kennedy describes in detail the hazardous conditions of the Arctic. The crew's experiences including snow

blindness, frostbite, scurvy and explorations of land on foot accompanied by Husky dogs are described in detail. Kennedy's use of Inuit survival methods and the type of provisions which were used are also described, providing valuable insights into early nineteenth century methods of Arctic exploration.

Listening in on public conversation that recreates Elvis after death, Marcus tracks Presley's resurrection. He grafts together snatches of film, music, books, newspapers, photos, posters, and cartoons, and amazes us with what America has been saying as it raises its late king--and also what this obsession with dead Elvis says about America itself.

Stars do have real power, but not all of them wield it wisely. This work explores how a variety of celebrities developed their brands and how celebrity can become a jumping-off point to entirely unrelated activities. Over the past century, a new breed of entertainer has arisen—one where the old division between on-camera talent and the suits behind the scenes has largely eroded. From Mabel Normand and Charlie Chaplin to Lady Gaga and Quentin Tarantino, entertainers have attempted to cross specialties and platforms to new arenas, from politics to philanthropy and more. An ideal resource for general readers as well as students of American popular culture and media at the undergraduate through scholar level, *Star Power: The Impact of Branded Celebrity* details the new ways entertainers are working in expanded environments to broaden their brands while also providing the history behind this recent trend. The two-volume set comprises four main sections: one that provides historical background, a second on entertainers moving beyond stardom, a third focused on commerce and education, and a final section on cultural missions. The work documents how earlier entertainers "set the stage" for today's stars by exploiting their celebrity to take greater artistic control of their projects and provides articles that depict each artist from a number of perspectives. Readers

will understand what motivates the most important contemporary entertainers working today and better grasp the business of entertainment as a whole—how Hollywood works, and who is really in control.

"This is a fascinating book. It will educate you. Schwartzel has done some extraordinary reporting." — The New York Times Book Review "In this highly entertaining but deeply disturbing book, Erich Schwartzel demonstrates the extent of our cultural thrall to China. His depiction of the craven characters, American and Chinese, who have enabled this situation represents a significant feat of investigative journalism. His narrative is about not merely the movie business, but the new world order." —Andrew Solomon, author of *Far from the Tree* and *The Noonday Demon* An eye-opening and deeply reported narrative that details the surprising role of the movie business in the high-stakes contest between the U.S. and China From trade to technology to military might, competition between the United States and China dominates the foreign policy landscape. But this battle for global influence is also playing out in a strange and unexpected arena: the movies. The film industry, Wall Street Journal reporter Erich Schwartzel explains, is the latest battleground in the tense and complex rivalry between these two world powers. In recent decades, as China has grown into a giant of the international economy, it has become a crucial source of revenue for the American film industry. Hollywood studios are now bending over backward to make movies that will appeal to China's citizens—and gain approval from severe Communist Party censors. At the same time, and with America's unwitting help,

China has built its own film industry into an essential arm of its plan to export its national agenda to the rest of the world. The competition between these two movie businesses is a Cold War for this century, a clash that determines whether democratic or authoritarian values will be broadcast most powerfully around the world. *Red Carpet* is packed with memorable characters who have—knowingly or otherwise—played key roles in this tangled industry web: not only A-list stars like Matt Damon, Angelina Jolie, and Richard Gere but also eccentric Chinese billionaires, zany expatriate filmmakers, and starlets who disappear from public life without explanation or trace. Schwartzel combines original reporting, political history, and show-biz intrigue in an exhilarating tour of global entertainment, from propaganda film sets in Beijing to the boardrooms of Hollywood studios to the living rooms in Kenya where families decide whether to watch an American or Chinese movie. Alarming, occasionally absurd, and wildly entertaining, *Red Carpet* will not only alter the way we watch movies but also offer essential new perspective on the power struggle of this century.

The Fire Starter Sessions is an apathy-kicking, integrity-infusing guide to defining success on your own terms. Danielle LaPorte's straight-talk life-and-livelihood sermons have been read by over one million people. Bold but empathetic, in *The Fire Starter Sessions* she reframes popular self-help and success concepts, including: - Life balance is a myth, and the pursuit of it is causing us more stress than the craving for balance itself. - Being well-rounded is over-rated. When you focus on developing your true strengths, you enter your mastery zone. - Screw your principles

(they might be holding you back). - We have ambition backwards. Getting clear on how you want to feel in your life + work is more important than setting goals. It's the most potent form of clarity that you can have, and it's what leads to true fulfillment.

A top celebrity portrait photographer, Jill Greenberg has a unique ability to coax powerful emotions out of her subjects - whether human or animal. Her portraits of bears, collected here for the first time, surprise and engage. We encounter cubs as cute as a child's Teddy, grizzlies that look like they might swallow you whole, and Polar bears seated in Sphinx-like tranquility. Full-grown brown bears, grizzlies, black bears, Polar bears, and bear cubs are photographed on location against a portrait backdrop. The poses and facial expressions are at turns oddly comedic, pensive, terrifying, and sometimes unexpectedly human. Alive with Greenberg's signature lighting and seen through the unique perspective of her lens, these startling bear portraits bring us face to face with our fears and fantasies.

When Helen Fielding first wrote Bridget Jones's Diary, charting the life of a 30-something singleton in London in the 1990s, she

introduced readers to one of the most beloved characters in modern literature. The book was published in 40 countries, sold more than 15 million copies worldwide, and spawned a best-selling sequel, *Bridget Jones: The Edge of Reason*. The two books were turned into major blockbuster films starring Renée Zellweger, Hugh Grant and Colin Firth. With her hotly anticipated third instalment, *Bridget Jones: Mad About the Boy*, Fielding introduces us to a whole new enticing phase of Bridget's life set in contemporary London, including the challenges of maintaining sex appeal as the years roll by and the nightmare of drunken texting, the skinny jean, the disastrous email cc, total lack of twitter followers, and TVs that need 90 buttons and three remotes to simply turn on. An uproariously funny novel of modern life, *Bridget Jones: Mad About the Boy* is a triumphant return of our favourite Everywoman.

"A guide to English grammar and usage for the twenty-first century, pairing grammar rules with interesting and humorous quotations from American popular culture"--

Letters of Little Edie Beale Little, Brown

Adam Hills was a quiet primary school kid with a prosthetic foot, who did all his homework and only spoke when spoken to. His dad sparked in him a love of comedy and together they'd spend hours watching and listening to the greats like Peter Sellers and Mel Brooks, so, when it was Adam's turn to speak, he made sure he was funny. Once he hit high school, comedy was Adam's obsession (along with a deep love for the South Sydney Rabbitohs). While his mates were listening to Iron Maiden and AC/DC, he was listening to Kenny Everett and Billy Connolly. And

when a report card came home with a comment praising his sense of humour, he was far prouder of that than his grades (his mum not so much). Adam's shyness and his missing foot never held him back, though wearing thongs was tricky. While other teens snuck off to meet girls and drink cheap booze, Adam snuck off to see a young Jim Carrey perform. After that, a steady diet of Rodney Rude, Vince Sorrenti and Robin Williams led this sheltered, virginal university student from The Shire to his first stand-up open mic night on his 19th birthday. In *Best Foot Forward*, Adam describes his early years on the Australian comedy scene sharing gigs with Steady Eddy and Jimeoin, how he coped the first time he died on stage, his early-morning apprenticeship in radio, touring the world's comedy festivals, the magic of Spicks and Specks and his hosting gig for the 2008 Paralympics that led to his ongoing hit UK TV show *The Last Leg*. Whoopi Goldberg, Barry Humphries, Billy Connolly, Kermit the Frog - Adam's learned from the best. This charming, witty memoir is a lesson in following your heart, being positive and discovering that what makes you different also makes you unique.

*Why do seemingly rational, intelligent people commit acts of cruelty and violence? *What are the root causes of destructive behavior? *How can we control the emotions that drive these impulses? *Can we learn to live at peace with ourselves and others? Imagine sitting with the Dalai Lama in his private meeting room with a small group of world-class scientists and philosophers. The talk is lively and fascinating as these leading minds grapple with age-old questions of compelling contemporary urgency. Daniel Goleman, the internationally

bestselling author of *Emotional Intelligence*, provides the illuminating commentary—and reports on the breakthrough research this historic gathering inspired. Destructive Emotions Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the “three poisons”: craving, anger, and delusion. It also provides antidotes of astonishing psychological sophistication—which are now being confirmed by modern neuroscience. With new high-tech devices, scientists can peer inside the brain centers that calm the inner storms of rage and fear. They also can demonstrate that awareness-training strategies such as meditation strengthen emotional stability—and greatly enhance our positive moods. The distinguished panel members report these recent findings and debate an exhilarating range of other topics: What role do destructive emotions play in human evolution? Are they “hardwired” in our bodies? Are they universal, or does culture determine how we feel? How can we nurture the compassion that is also our birthright? We learn how practices that reduce negativity have also been shown to bolster the immune system. Here, too, is an enlightened proposal for a school-based program of social and emotional learning that can help our children increase self-awareness, manage their anger, and become more empathetic. Throughout, these provocative ideas are brought to life by the play of personalities, by the Dalai Lama’s probing questions, and by his surprising sense of humor. Although there are no easy answers, the dialogues, which are part of a series sponsored by the Mind and Life Institute, chart an ultimately hopeful course. They are sure to spark discussion among educators, religious and political leaders, parents—and all people who seek peace for themselves and the world. The Mind

and Life Institute sponsors cross-cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers. Mind and Life VIII, on which this book is based, took place in Dharamsala, India, in March 2000.

Francis Spufford's *Unapologetic* is a wonderfully pugnacious defense of Christianity. Refuting critics such as Richard Dawkins, Sam Harris, and the "new atheist" crowd, Spufford, a former atheist and Fellow of the Royal Society of Literature, argues that Christianity is recognizable, drawing on the deep and deeply ordinary vocabulary of human feeling, satisfying those who

believe in it by offering a ruthlessly realistic account of the grown-up dignity of Christian experience. Fans of C. S. Lewis, N. T. Wright, Marilynne Robinson, Mary Karr, Diana Butler Bass, Rob Bell, and James Martin will appreciate Spufford's crisp, lively, and abashedly defiant thesis. *Unapologetic* is a book for believers who are fed up with being patronized, for non-believers curious about how faith can possibly work in the twenty-first century, and for anyone who feels there is something indefinably wrong, literalistic, anti-imaginative and intolerant about the way the atheist case is now being made.

Community and Growth Bantam

If you've ever thought about community, whether as a lifestyle or simply as an expression of deeper fellowship with others, this book is essential reading. In the fifteen years since it first appeared in English, it has become the classic text on the subject -- read, dog-eared, borrowed, and discussed. Vanier is not a rosy idealist. That is because his writing is based not on theories, but on a wealth of wisdom gleaned over many years living in community, experiencing difficult days and joyous celebrations, times of struggle and hard-won success, moments of doubt and inspiration. He acknowledges the inevitable little frustrations of a life lived with and for others, but he also helps the reader see that without struggle there is no true growth.

NAMED ONE OF THE TOP 10 ROCK MEMOIRS OF ALL TIME BY

ROLLING STONE From Chic to Daft Punk, Nile Rodgers is the creative force behind some of the biggest hits ever recorded.

Here is the story of how global pop's greatest genius transformed his own dramatic life into the brilliantly joyful playlist of a

generation. You will hear a Nile Rodgers song today. It will make you happy. In the 1970s and 1980s, Nile Rodgers wrote and produced the songs that defined the era and everything that came after: “Le Freak,” “Good Times,” “We Are Family,” “Like a Virgin,” “Let’s Dance,” “I’m Coming Out,” “Rapper’s Delight”—and worked with every influential pop star to create a string of enduring hits, from Diana Ross and Madonna to Duran Duran and David Bowie. Even today, he is still musically relevant: writing and performing record-breaking hits like “Get Lucky” with Daft Punk and Pharrell. But before he reinvented pop music, Nile Rodgers invented himself. From jamming with Jimi Hendrix in a Greenwich Village haze to the decadence of the disco era to witnessing the birth of Madonna on the Danceteria dance floor, *Le Freak* traces one of the greatest musical journeys of our time. Praise for *Le Freak* “[An] amazing memoir . . . steeped in the incestuous energy of the times: Punk, funk and art rock mixed it up in the downtown clubs, where musicians partied together and shared ideas. . . . *Le Freak* has plenty of sex and drugs. But it’s the music that makes it essential. . . . Rodgers gave those dreams a beat—and helped invent pop as we know it today.”—Rob Sheffield, *Rolling Stone* “This book is an absolute knockout: exhilarating, warm, and courageous, deeply moving and deeply funny. *Le Freak* is as much about the greatness of life

as it is about Nile Rodgers’s extraordinary musical journey. As Rodgers well knows, the best music is the stuff we feel, the stuff that speaks to us and won’t let go. *Le Freak* does all that and much more. This is truly one of the best books ever written about art, music, life, and the way we grow to be exactly who we are. Actually, one of the best books period.”—Cameron Crowe “A coming-of-age tale every bit as impressive as the musical insights and star-time chronicles that follow.”—*The New York Times Book Review* “Consistently entertaining . . . His legacy as a funk-rock visionary is assured, and his autobiography serves as further proof that disco does not suck.”—*San Francisco Chronicle* “An unforgettable, gripping book.”—*The Sunday Times (UK)* “Name a star and you can bet they’re in this book, playing or partying with Rodgers. But far from being a succession of name-dropping anecdotes, this autobiography is a wonderfully funny, moving and wise reflection upon the important things in life: the people you love and the things you create.”—*The Sunday Telegraph (UK)* “Rodgers’s page-turning memoir is packed with emotionally charged vignettes of a tumultuous childhood and equally dramatic adulthood that found him awash in cash, cars, and celebrities. . . . His storytelling skills propel the reader through the book, making the ending all the more jarring. Remarkable for its candor, this rags-to-riches story is on the year’s shortlist of celebrity memoirs.”—*Publishers Weekly* (starred review)
