When do you feel most at home in yourself? What is your relationship to Africa, real or imagined? Black Powerful examines Black Americans' relationship with Africa and intersperses their reflections with Continental Africans' thoughts on Black Folx raised elsewhere in a monumental chorus of authentic joy, tragedy, and imagination. Black Powerful is one sacred act of witnessing. Random House Books for Young Readers Blood at the Root: A Racial Cleansing in America W. W. Norton & Company *The best short stories by negro writers* Indiana Historical Society Discusses twelve cases in which racial cleansing emptied entire counties of African Americans from 1864 to 1923. Washington County, Mississippi Grosvenor House Publishing A move at age ten from a Detroit suburb to Chattanooga in 1984 thrusts Anjali Enjeti into what feels like a new world replete with Confederate flags, Bible verses, and whiteness. It is here that she learns how to get her bearings as a mixed-race brown girl in the Deep South and begins to understand how identity can inspire, inform, and shape a commitment

to activism. Her own evolution is a bumpy one, and along the way Enjeti, racially targeted as a child, must wrestle with her own complicity in white supremacy and bigotry as an adult. The twenty essays of her debut collection, *Southbound*, tackle white feminism at a national feminist organization, the early years of the AIDS epidemic in the South, voter suppression, gun violence

and the gun sense movement, the whitewashing of southern literature, the 1982 racialized killing of Vincent Chin, social media's role in political accountability, evangelical Christianity's marriage to extremism, and the rise of nationalism worldwide. In our current era of great political strife, this timely collection by Enjeti, a journalist and organizer, paves the way for a path forward, one

where identity drives coalition-building and social change.

When the bustle of a city slows, towns dissolve into abandoned buildings or return to woods and crumble into the North Georgia clay. The remains of numerous towns dot the landscape—pockets of life that were lost to fire or drowned by the water of civic works

projects. In 1832, Auraria was one of the sites of the original American gold rush. Cassville was a booming educational and cultural epicenter until 1864.

Allatoona found its identity as a railroad town. Author and professor Lisa M. Russell unearths the forgotten towns of North Georgia.

Penguin  
Reeling from her boyfriend's indiscretions at a party,

Lacey Montgomery escapes into the throes of a torrential storm. Her car spins out of control and hurtles into the depths of an icy, black lake. She awakens in the arms of a handsome stranger, in a place she's never heard of—thirty-four years before she was born. Bobby Reynolds is smitten the moment the storm-ravaged woman opens her eyes. Learning the truth about her origin does nothing

to stop the passion taking root in his heart and leaves him torn between finding a way to return Lacey to her time and convincing her stay with him. Will the couple be able to discover the key to a mysterious portal before time rips them apart? Or will their spirits wander forever through a ghost town buried beneath the lake?

The first comprehensive study of one of America's most gifted civil rights activists and political mavericks. When civil rights leader Hosea Lorenzo Williams died in 2000, U.S. Congressman John Lewis said of him, "Hosea Williams must be looked upon as one of the founding fathers of the new America. Through his actions, he helped liberate all of us." In this first comprehensive biography of

Williams, Rolundus Rice demonstrates the truth in Lewis's words and argues that Williams's activism in the Southern Christian Leadership Conference (SCLC) was of central importance to the success of the larger civil rights movement. Rice traces Williams's journey from a local activist in Georgia to a national leader and one of Martin Luther King Jr.'s chief lieutenants. He helped plan the

Selma-to-Montgomery march and walked shoulder-to-shoulder with Lewis across the Edmund Pettus Bridge on "Bloody Sunday." Williams played the role of enforcer in SCLC, always ready to deploy what he called his "arsenal of agitation." While his hard-charging tactics may have seemed out of step with the more diplomatic approach of other SCLC leaders, Rice suggests that

it was precisely this contrast in styles that made the organization so successful. Rice also follows Williams's career after King's assassination, as Williams moved into local Atlanta politics. While his style made him loved by some and hated by others, readers will come to appreciate the central role that Williams played in the most successful nonviolent revolution in

American history. Andrew Young Jr., former SCLC executive director, U.S. Congressman, U.S. Ambassador to the United Nations, and mayor of Atlanta, provides a foreword. **Black Genius** University of Georgia Press In the late eighteenth century, waves of intrepid settlers made their way down the Great Wagon Road into the virgin wilderness of Northeast

Georgia to find new homes and opportunity for land and wealth. Against a dramatic mountainous backdrop, these pioneers carved out farms and small communities in perilous isolation and created an American experience vastly different from that of the plantation-style society established along Georgia's coast. Battling Creek and Cherokee warriors,

government intervention, natural disasters, and a landscape not easily tamed, year after year, these men and women of Northeast Georgia stamped their self-reliance, their perseverance, and their industriousness upon generations to follow and upon the very geography they called home. In Northeast Georgia: A History, readers travel across several centuries of change, from

the early American Indian tribes that once made this territory their hunting grounds to the present day, a time of unprecedented growth and expansion in both industry and population. Truly a world unto itself, Northeast Georgia has served as a haven and destination for all classes over the past two centuries: the bold gold miners of 1829, the stalwart sustenance farmers, the

social elite enjoying fresh mountain air at the many summer resorts, a multitude of businessmen seeking opportunity in railroading, cotton, lumber, and poultry farming, and bootleggers finding the landscape convenient for clandestine whiskey-making and distribution. These stories and more provide insight into understanding a people and place unique in Georgia. Book of the

 an epic, sweeping history of Cuba and its complex ties to the United States—from before the arrival of Columbus to the present day—written by one of the world’s leading historians of Cuba. In 1961,

at the height of the Cold War, the United States severed diplomatic relations with Cuba, where a momentous revolution had taken power three years earlier. For more than half a century, the stand-off continued—through the tenure of ten American presidents and the fifty-year rule of Fidel Castro. His death in 2016, and the retirement of his brother and successor Raúl Castro in 2021, have spurred

questions about the country's future. Meanwhile, politics in Washington—Barack Obama's opening to the island, Donald Trump's reversal of that policy, and the election of Joe Biden—have made the relationship between the two nations a subject of debate once more. Now, award-winning historian Ada Ferrer delivers an "important" (The Guardian) and moving

chronicle that demands a new reckoning with both the island's past and its relationship with the United States. Spanning more than five centuries, *Cuba: An American History* provides us with a front-row seat as we witness the evolution of the modern nation, with its dramatic record of conquest and colonization, of slavery and freedom, of independence and revolutions made and

unmade. Along the way, Ferrer explores the sometimes surprising, often troubled intimacy between the two countries, documenting not only the influence of the United States on Cuba but also the many ways the island has been a recurring presence in US affairs. This is a story that will give Americans unexpected insights into the history of their own nation and, in so doing, help

them imagine a new relationship with Cuba; “readers will close [this] fascinating book with a sense of hope” (The Economist). Filled with rousing stories and characters, and drawing on more than thirty years of research in Cuba, Spain, and the United States—as well as the author’s own extensive travel to the island over the same period—this is a stunning and monumental

account like no other. **Shabaka's Stone** The Wild Rose Press Inc Now available in ebook format--one of the important books that marked the beginning of the ongoing conversation about slavery and our nation's history. From the sixth great-grandson of Thomas Jefferson and enslaved woman Sally Hemmings comes an anthology of Jefferson's living descendants.

Told in the style of a family photo album—with a combination of photographs and interviews—Jefferson’s Children is the riveting story of Thomas Jefferson and Sally Hemming’s sixth great-grandson, Shannon Lanier’s, travels across the country to meet his relatives from both sides of the family. The profiles contained chart the multiple perspectives of Jefferson’s

and Hemming's descendants, from those who embrace their heritage to those who want nothing to do with Jefferson's legacy. A fascinating picture soon emerges, one that begins with a pairing of two individuals with vastly disparate levels of power—on the one side, the third president of the United States and the author of the Declaration of Independence ; on the other, the woman who was his

property—and that ultimately represents America's complicated history with issues of diversity and race and the unusual ways in which we define family. An ALA Best Book for Young Adults "The portraits that emerge are as generous and jumbled as America itself." —The New York Times "A book about American history, racial identity and the bonds of family that will help young people

navigate these difficult areas." —Black Issues Book Review *Lost Mill Towns of North Georgia* Forgotten Books For long-time residents of Washington, DC's Shaw/U Street, the neighborhood has become almost unrecognizable in recent years. Where the city's most infamous open-air drug market once stood, a farmers' market now sells grass-fed beef and homemade duck egg

ravioli. On the corner where AM.PM carryout used to dish out soul food, a new establishment markets its \$28 foie gras burger. Shaw is experiencing a dramatic transformation , from “ghetto” to “gilded ghetto,” where white newcomers are rehabbing homes, developing dog parks, and paving the way for a third wave coffee shop on nearly every block. Race, Class, and

Politics in the Cappuccino City is an in-depth ethnography of this gilded ghetto. Derek S. Hyra captures here a quickly gentrifying space in which long-time black residents are joined, and variously displaced, by an influx of young, white, relatively wealthy, and/or gay professionals who, in part as a result of global economic forces and the recent development of central

business districts, have returned to the cities earlier generations fled decades ago. As a result, America is witnessing the emergence of what Hyra calls “cappuccino cities.” A cappuccino has essentially the same ingredients as a cup of coffee with milk, but is considered upscale, and is double the price. In Hyra’s cappuccino city, the black inner-city neighborhood undergoes

enormous transformation and becomes racially "lighter" and more expensive by the year. *William Berry Hartsfield* Univ of South Carolina Press From the time he became mayor in 1937 until he retired in 1961, William Hartsfield dedicated himself to the problems and promise of the city of Atlanta. In the twenty-five years he served as mayor, Atlanta grew from a depression-haunted city

to the third most populous capital city in the nation, as well as the leading cultural, commercial, and financial center of the south. During his administration, potentially explosive race relations and controversial annexation issues were handled, laying the foundation for modern Atlanta. Published in 1978, Harold H. Martin's biography is a chronicle of how Hartsfield strove to fulfill the destiny of

Atlanta, and in doing so, left his mark on the city forever. *Bottom Dwellers* University of Chicago Press La exposición refleja la historia del Black Mountain College (BMC), fundado en 1933 en Carolina del Norte y concebido como universidad experimental que situaba al arte en el centro de una educación liberal que pretendía educar mejor a los ciudadanos

para participar en la sociedad democrática. La educación era interdisciplinaria y concedía gran importancia al debate, la investigación y la experimentación, dedicando la misma atención a las artes visuales -pintura, escultura, dibujo- que a las llamadas artes aplicadas -tejidos, cerámica, orfebrería, así como a la arquitectura, la poesía, la música y la danza.

**and Politics in the Cappuccino City** National Geographic Books  
By the bestselling author of *The Painted Girls*  
When a remote, ancient settlement is threatened, it is up to one girl to save her family and her community  
It's the season of Fallow, the first century AD. In a misty northern bog surrounded by woodlands and wheat fields, lies a settlement far beyond the reach of the

Roman invaders, who are still hundreds of miles to the southeast.  
Here, life is simple, or so it seems to the tightly knit community.  
Sow. Reap.  
Honour Mother Earth, who will provide at harvest time.  
A girl named Devout comes of age. She flirts sweetly with the young man who has tilled the earth alongside her all her life, envisioning a future of love and abundance.  
Seventeen

years later, however, the settlement is a changed place. Famine has brought struggle, and outsiders, with their military might and foreign ways, have arrived at the doorstep. For Devout's young daughter, life is more troubled than her mother ever anticipated. But this girl has an extraordinary gift. As worlds collide and peril threatens, it will be up to her to save her family and

her community. Immersing readers in a lost world of pagan traditions, *Daughter of Black Lake* is a transporting story of love, family, survival and the sublime power of the natural world. **Leap Before You Look** Arcadia Publishing The names Elizabeth Eckford and Hazel Bryan Massery may not be well known, but the image of them from September 1957 surely is: a black high

school girl, dressed in white, walking stoically in front of Little Rock Central High School, and a white girl standing directly behind her, face twisted in hate, screaming racial epithets. This famous photograph captures the full anguish of desegregation --in Little Rock and throughout the South-- and an epic moment in the civil rights movement. In this gripping book, David Margolick tells

the remarkable story of two separate lives unexpectedly braided together. He explores how the haunting picture of Elizabeth and Hazel came to be taken, its significance in the wider world, and why, for the next half-century, neither woman has ever escaped from its long shadow. He recounts Elizabeth's struggle to overcome the trauma of her hate-filled school experience,

and Hazel's long efforts to atone for a fateful, horrible mistake. The book follows the painful journey of the two as they progress from apology to forgiveness to reconciliation and, amazingly, to friendship. This friendship foundered, then collapsed--perhaps inevitably--over the same fissures and misunderstandings that continue to permeate American race relations more than half a

century after the unforgettable photograph at Little Rock. And yet, as Margolick explains, a bond between Elizabeth and Hazel, silent but complex, endures. *A Dark Skin Woman's Revenge* Arcadia Publishing Named "most anticipated" book of February by Marie Claire, Essence, and A.V. Club "...extraordinary and representative."—NPR "Drayton explores the ramifications

of racism that span generations, global white supremacy, and the pitfalls of American culture."—Shondaland After following her mother to the US at a young age to pursue economic opportunities, one woman must come to terms with the ways in which systematic racism and resultant trauma keep the American Dream inaccessible to Black people. In the early '90s, young Tiffanie Drayton and

her siblings left Trinidad and Tobago to join their mother in New Jersey, where she'd been making her way as a domestic worker, eager to give her children a shot at the American Dream. At first, life in the US was idyllic. But chasing good school districts with affordable housing left Tiffanie and her family constantly uprooted--moving from Texas to Florida then back to New Jersey. As

Tiffanie came of age in the suburbs, she began to ask questions about the binary Black and white American world. Why were the Black neighborhoods she lived in crime-ridden, and the multicultural ones safe? Why were there so few Black students in advanced classes at school, if there were any advanced classes at all? Why was it so hard for Black families to achieve stability? Why were Black

girls treated as something other than worthy? Ultimately, exhausted by the pursuit of a "better life" in America, twenty-year old Tiffanie returns to Tobago. She is suddenly able to enjoy the simple freedom of being Black without fear, and imagines a different future for her own children. But then COVID-19 and widely publicized instances of police brutality bring America front and center

again. This time, as an outsider supported by a new community, Tiffanie grieves and rages for Black Americans in a way she couldn't when she was one. An expansion of her New York Times piece of the same name, Black American Refugee examines in depth the intersection of her personal experiences and the broader culture and historical ramifications

of American racism and global white supremacy. Through thoughtful introspection and candidness, Tiffanie unravels the complex workings of the people in her life, including herself, centering Black womanhood, and illuminating the toll a lifetime of racism can take.
