 "[The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights."--Publisher website.

This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a ?user friendly? reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors.

[Crime Types and Criminals](#) DIANE Publishing  
 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic

Federal statutes and revised sentencing guides covered in this edition reflect a growing interest in preventing terrorism, punishing terror-related crimes, and promoting greater uniformity of sentencing. There is also new material on intellectual property law, on legislation stemming from corporate scandals, such as the Sarbanes- Oxley Act, and on legislation to cut individual and corporate tax rates, such as the Jobs and Growth Tax Relief Reconciliation Act. Chapters are in sections on areas including business planning and litigation, contract and property law, and law office issues. The Spirit of the Constitution covers the impact and reputation of both McCulloch and Justice Marshall himself throughout American history. One of the central threads of American history is the battle over the proper reach of the federal government's power, and that story cannot be told without reference to McCulloch. Schwartz's analysis of the shifting interpretations of McCulloch and Marshall over the course of American history not only reaffirms the case's importance, it also helps us understand the circuitous process by which American constitutional law and ideology are made.

 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

 Leading for Equity tells the compelling story of the Montgomery County (Maryland) Public Schools and its transformation—in less than a decade—into a system committed to breaking the links

between race and class and academic achievement. In chapters organized around six core themes, the authors lay out the essential elements of MCPS's success. They identify key lessons other districts can draw from MCPS's experience and offer a framework for applying them. A dramatic departure from "business as usual," MCPS has won nationwide attention as a compelling model for tackling the achievement and opportunity issues that confront our nation as a whole.

Today, the Chesapeake Bay watermen's way of life is under pressure to survive. Captain Larry Simns has worked as a commercial fisherman in the waters of Maryland for nearly sixty years, serving as President of the Maryland Watermen's Association since the 1970s. Through good and hard times, Simns has labored to keep working watermen profitable and relevant in spite of declining water quality and severe encroachment of

prime fishing grounds. Here, find a funny, pointed, and candid portrait of one man's journey to lead independent, hard-charging commercial fishermen. In chronological order, Larry shares 65 stories reflecting memories of his "best of times," peppered with views on everything from fishing to politics. Enjoy his practical wisdom and dry humor; see part of his past through pen and ink drawings created by Anne Crane Harlan of Centreville, Maryland.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S.

Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.
