`This is a worthwhile read and many of the ideas could well be used in schools to address the issues of bullying. There is something for everyone in the book, and it should be on any reading list for student teachers and certainly for the senior manager with responsibility for pastoral systems in every school' - Emotional & Behavioural Difficulties `This book is a

must for all teachers in secondary school throughout the country. The value of this book lies in the potential for its application in a realistic school setting by staff from the head teacher, to teachers, to pupils and all those who are in the school environment' - Dr L F Lowenstein, Clinical and Educational Psychologist `The authors of this book adopt a new approach to dealing with bullying. Instead of discussing how often it occurs, who bullies and who is bullied, they see bullying as part of a social dynamic and unsafe school culture. This book is an essential practical guide to dealing with bullying for teachers, teachers trainers, counsellors, pupil and families' - Childright `This book is an important and comprehensive resource dealing with school bullying issues in a practical way, with strategies designed to be used easily in the classroom. It gives valuable advice to teachers on dealing with bullies in the most effective way, using victims and bystanders as part of the solution. It should be required reading in every secondary school' - Liz Carnell, Director, Bullying Online This book is a practical guide to dealing with bullying in secondary schools. The authors present

what we know about bullying, describe development issues for adolescence and discuss the social context of the school. They analyze key features of healthy and unhealthy schools, and set out a whole school approach to bullying and other social problems that arise in the secondary school. The authors show that by empowering the bystanders through providing effective teacher support, much of the bullying can be stopped at an early age and a healthy and safe school can be created. Their suggestions are based on student-centred responses and on programmes developed specifically to deal with bullying. This book is written especially for secondary school teachers, administrators and students, and the families and caregivers of the students. It is also for those who train teachers, for counsellors and for educators at all levels. *Dare to Lead* Unhooked Books Max is on a mission to find out if she is unique. The digital age of education is more prominent than ever and it is an appropriate time to examine the blending of the digital age and the field of social studies. What is digital social studies? visions, what digital social studies can/should look like, while providing research and rationales for why digital social studies is needed and important. This volume includes twenty-two scholarly chapters discussing relevant topics of importance to digital social studies. The twenty-two chapters are divided into two sections. This stellar collection of writings includes contributions from leading scholars like Cheryl Mason Bolick, Michael Berson, Elizabeth Washington, Linda Bennett, and many more.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who

takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found

that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
