Can you succeed in business when your strength is more about sensitivity than swagger?
If you're moved by meaning, more than

manipulation? In other words: Can you succeed while still being you? Christine Kane is living proof that the answer is yes. Far too many of us have swallowed the notion that business owners have to be a certain way to be successful—strategy-obsessed, data-driven, and relentlessly aggressive. Bookstore shelves are lined with guides for entrepreneurs that urge them to "Crush it!" "10X It!" or "Unf**k it!" Those who aren't crushers or unf**kers of anything

are left wondering if something's wrong with them. Like, maybe they're just not cut out for business. A former songwriter and performer, and then founder of Uplevel YOU—a multi-million-dollar business coaching company—Christine Kane shows a new class of entrepreneurs another way. It's time to connect, not crush. In *The Soul-Sourced Entrepreneur*, Kane shares the insights that have helped thousands find success without losing

themselves. In these pages, readers will find a practical plan to:

- Toss out ineffective, old-school goal-setting models.
- Reframe your intuition and sensitivity as valuable assets, not as flaws to hide.
- Examine old patterns for clues as to what's been holding you back.
- Clean up the spaces and distractions draining your energy and power.
- Learn to confidently trust in your own wisdom.
- Break free from fear-based decision-making that plagues most businesses.

Throughout

the book, you'll hear stories from other soul-sourced entrepreneurs, who employ their own reliable, unique set of best practices based as much in intuition and self-awareness as on specific skills and strategies. Forget business as usual. Your business is personal, and in this new era, authenticity, creativity, and sensitivity are what set businesses apart. The Soul-Sourced Entrepreneur is your unconventional plan to build the business of your dreams, and being wildly

successful by being you. Vision Board Clip Art Book Harrison House

Lean Startup and *The Startup Way* Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In *Why Startups Fail*, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • *Bad Bedfellows*. Startup success is thought to rest largely on the founder's talents and instincts. But

the wrong team, investors, or partners can sink a venture just as quickly. • **False Starts.** In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand. • **Speed Traps.** Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. •

Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a

sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

Are you like so many people who have tried unsuccessfully to attain your goals with a vision board? Vision boards are based on the so-called, law of attraction; like always attracts like. As in the book, *The Secret*, if you think it and live it, the universe will deliver it to you. Unfortunately, the law of attraction does not work 99.9% of the time. In his thorough and candid analysis, Dr. Farber takes

This is not just a book about what not to do. This book

shows us how to upgrade our vision boards and boost our success by utilizing mind-brain science and positive psychology research. Dr. Farber has the solution to our goal-achieving desires.
