### **Your Purebred Puppy**

Ravenio Books

If you are looking for a job you need every advantage you can get.

What Does Somebody

Have to Do to Get a Job

Around Here? puts a

former Human Resources

executive turned

employee advocate in

your corner. Cynthia

Shapiro reveals the best-

kept job secrets that

employers don't want you

to know including: \*Secret

#8: A computer is

deciding your job

prospects. \*Secret #12:

Professional references

are useless. \*Secret #18:

There is a "type" that

always gets the offer.

\*Secret #21: The Thank-

You note is too late.

\*Secret #28: Always

negotiate. \* ...and thirty-

nine more! Once you

know the secrets you can

create a winning resume,

ace the interview, and

land the job of your dreams. Cynthia Shapiro, M.B.A., E.L.C., P.H.R., author of Corporate Confidential, is a former human resources executive and consultant.

Now a personal career coach and employee advocate, she provides consultations and advice for employees all over the world. Her unique brand of career advice has been seen on ABC, CNN, FOX News, PBS and MSNBC; in the pages of Fortune, Glamour, Self, Details, Essence, Marie Claire, and is widely read in major newspapers across the U.S. Cynthia Shapiro lives and works in Los Angeles, California.

### Copycat Killer Harlequin

In "Search and Rescue Dogs: Training Methods," the ARDA teaches everyone what it takes to make a true canine hero. With emphasis on handler and unit training, the principles of obedience as well as handler readiness and equipment are explored. Of particular value is the detailed information on conditioning and first aid for search dogs. The chapters on organizing and carrying out a search will be of great interest to anyone who may wonder how a dog's mind works and to what extent it can

be trained. "Search and Rescue Dogs," in the authoritative voice of ARDA, explores the ultimate experience of the interdependence of Man and Dog.

### **Animal Assisted Play Therapy** Sunshine Books (MA)

Provides busy parents with simple, realistic advice to help ensure that the relationship between their kids and their dog is safe and enjoyable for all. You will learn how to help your child and dog develop a strong relationship, built on trust and cooperation; set your family up for success with a minimum of effort; recognize canine stress signals and know when your dog is getting worried about normal kid activity; identify serious behavior problems before someone gets hurt; prevent your child from becoming part of a growing statistic--children who have been bitten by a dog.

Sway Simon and Schuster In what promises to become an "Omnivore's Dilemma" for dog lovers—breed devotees and adoption advocates alike—The Dog Merchants is the first book to explain the complex and often surprisingly similar business practices that

extend from the American Kennel Club to local shelters, from Westminster champions to dog auctions. Without judging dog lovers of any stripe, *The Dog Merchants* makes it clear that money spent among these dog merchants has real-world effects on people and canines. Kavin reveals how dog merchants create markets for dogs, often in defiance of the usual rules of supply and demand. She takes an investigative approach and meets breeders and rescuers at all levels, shedding much-needed light on an industry that most people don't even realize is an industry. Kavin's goal is to advance the conversation about how all dogs are treated, from puppy mills to high-kill shelters. She shows that a great deal can be improved by understanding the business practices behind selling dogs of all kinds. Instead of pitting rescue and purebred people against each other, *The Dog Merchants* shows how all dog lovers can come together, with one voice as consumers, on behalf of all our beloved companions.

Fourth Edition  
The Finders St. Martin's  
Griffin  
No matter how cushy their lives, dogs live on our terms. They compromise their freedom and instinctual pleasure, as well as their innate strategies for coping with stress and anxiety, in exchange for the love, comfort, and care they get from us. But it is possible to let dogs be dogs without wreaking havoc on our lives, as biologist Marc Bekoff and bioethicist Jessica Pierce show in this fascinating book. They begin by illuminating the true nature of dogs and helping us "walk in their paws."; They reveal what smell, taste, touch, sight, and hearing mean to dogs and then guide readers through everyday ways of enhancing dogs's freedom in safe, mutually happy ways. The rewards, they show, are great for dog and human alike.

*Everything Puppy Book*  
Dogwise Publishing  
Coinciding with the 200th anniversary of the publication of *Frankenstein* in 1818, a prize-winning poet delivers a major new biography of Mary Shelley—as she has never been seen before. We know the facts of Mary

Shelley's life in some detail—the death of her mother, Mary Wollstonecraft, within days of her birth; the upbringing in the house of her father, William Godwin, in a house full of radical thinkers, poets, philosophers, and writers; her elopement, at the age of seventeen, with Percy Shelley; the years of peripatetic travel across Europe that followed. But there has been no literary biography written this century, and previous books have ignored the real person—what she actually thought and felt and why she did what she did—despite the fact that Mary and her group of second-generation Romantics were extremely interested in the psychological aspect of life. In this probing narrative, Fiona Sampson pursues Mary Shelley through her turbulent life, much as Victor Frankenstein tracked his monster across the arctic wastes. Sampson has written a book that finally answers the question of how it was that a nineteen-year-old came to write a novel so dark, mysterious, anguished, and psychologically astute that it continues to resonate two centuries later. No previous

biographer has ever truly considered this question, let alone answered it.

Living with Kids and Dogs ... Without Losing Your Mind New World Library

The original edition was the first book to provide a comprehensive overview of the ways in which animals can assist therapists with treatment of specific populations, and/or in specific settings. The second edition continues in this vein, with 7 new chapters plus substantial revisions of continuing chapters as the research in this field has grown. New coverage includes: Animals as social supports, Use of AAT with Special Needs students, the role of animals in the family-insights for clinicians, and measuring the animal-person bond.

\*Contributions from veterinarians, animal trainers, psychologists, and social workers

\*Includes guidelines and best practices for using animals as therapeutic companions \*Addresses specific types of patients and environmental situations

### **Aggression in Dogs**

Howell Books

The tools you need to think and train like a professional Jean Donaldson is one of the

top dog trainers in the United States, and her training academy has gained a reputation as the Harvard for dog trainers and behavioral counselors. Now, you can harness her highly effective dog-training techniques and benefit from her expert guidance without leaving your home. If you're like most dog owners, you treat your four-legged friend as a valued member of the family who enjoys the full run of the house-which is why good behavior is so important. Train Your Dog Like a Pro offers a trusted, systematic approach to positive dog training that anyone can follow. You'll get clear, detailed instructions for teaching essential behaviors, more advanced skills, and even some fun tricks. Plus, a bonus DVD shows you exactly how to accomplish each technique. Bonus DVD contains 2 hours and 30 minutes of hands-on instruction Training is based only on positive reinforcement, patience, and persistence Donaldson is the best-selling author of The Culture Clash: The Revolutionary New Way to Understanding the Relationship Between Humans and Domestic Dogs Whether you're the

proud parent of a puppy, an adolescent, or an adult dog, this book and DVD truly give you everything you need to train your dog like a pro. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Train Your Dog Like a Pro

\*Howell Book House

A fascinating journey into the hidden psychological influences that derail our decision-making, Sway will change the way you think about the way you think. Why is it so difficult to sell a plummeting stock or end a doomed relationship? Why do we listen to advice just because it came from someone "important"? Why are we more likely to fall in love when there's danger involved? In Sway, renowned organizational thinker Ori Brafman and his brother, psychologist Rom Brafman, answer all these questions and more. Drawing on cutting-edge research from the fields of social psychology, behavioral economics, and organizational behavior, Sway reveals dynamic forces that influence every aspect of our personal and business lives, including loss aversion (our tendency to go to great lengths to

avoid perceived losses), the diagnosis bias (our inability to reevaluate our initial diagnosis of a person or situation), and the “chameleon effect” (our tendency to take on characteristics that have been arbitrarily assigned to us). Sway introduces us to the Harvard Business School professor who got his students to pay \$204 for a \$20 bill, the head of airline safety whose disregard for his years of training led to the transformation of an entire industry, and the football coach who turned conventional strategy on its head to lead his team to victory. We also learn the curse of the NBA draft, discover why interviews are a terrible way to gauge future job performance, and go inside a session with the Supreme Court to see how the world’s most powerful justices avoid the dangers of group dynamics. Every once in a while, a book comes along that not only challenges our views of the world but changes the way we think. In *Sway*, Ori and Rom Brafman not only uncover rational explanations for a wide variety of irrational behaviors but also point readers toward ways to avoid succumbing to their pull.

The Akita Dogwise Publishing  
Puppy Socialization: What It Is and How to Do It defines and demystifies the most important thing you can do for your puppy: socialization. The authors don't just tell you what you need to know about socialization. They show you with dozens of photographs and exclusive linked videos (a live internet connection is needed to view the videos). You'll see other owners socialize their puppies under the guidance of a nationally certified dog trainer and behavior consultant. These real-life examples of socialization show you what to do when things go well and when they don't go so well. You'll learn about: • The magical time. Did you know that there is a special time in a puppy's life when he is primed to accept new things? The authors tell you when that time is, when that socialization window starts closing, and how a little effort by an owner during that time can save heartache later. • Canine body language. Puppies and dogs are talking all the time—with their body language. Learn to tell when a puppy or dog is relaxed and happy, a bit nervous

about something, or outright fearful. • Myth-busting. There's a lot of advice out there about socialization and not all of it is good. Some common myths can actually cause a puppy harm. The authors give you the most up-to-date information on puppy socialization and put some harmful myths to rest. • Socializing a puppy during COVID-19. Puppies have so much to get used to: people, environments, noises, and more. The authors provide strategies for keeping humans and puppies safe while socializing puppies, even during the COVID-19 pandemic. • What supplies are needed during socialization. The authors provide checklists of things owners need when socializing a puppy at home and away from home.

#### Puppy Socialization

Harper Collins  
 Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on *The Oprah Winfrey Show* to his roster of celebrity clients to his reality television series, Cesar Millan is America’s most sought-after dog-behavior expert.

But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn:

- What your dog really needs may not be what you're giving him
- Why a dog's natural pack instincts are the key to your happy relationship
- How to relate to your dog on a canine level
- There are no "problem breeds," just problem owners
- How to choose a dog

who's right for you and your family

- The difference between discipline and punishment
- And much more!

Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

### **Unleashing Your Dog**

#### **Crown Archetype**

In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the

experts say about Canine Enrichment: Don't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of *Animal Training: Successful Animal Management Through Positive Reinforcement* Canine Enrichment is a deep dive into what dogs really need and how we can provide it. It's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of *The Other End of the Leash* and *The Education of Will* The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. Friedman, Ph.D., Professor Emeritus, Utah

State University, and founder of Behavior Works, LLC

What Does Somebody Have to Do to Get A Job Around Here?

HarperCollins

Hyper dogs are often overly energetic, wickedly smart, and incredibly stubborn. How do you turn your furry flurry of activity into a sane, mild-mannered companion? This book gives you fun, hip techniques especially for hyper dogs and harried pet parents who want quick results. You'll discover how to: Help your dog burn excess energy quickly and safely Use communication and training skills to gain control Use obedience games, attention builders, and outdoor adventures to train and bond with your dog Create the perfect canine chill-out sanctuary Handle problems like separation anxiety and special circumstances like vet visits With a canine personality profile to help you better understand your pet and real-life stories of dogs who may make your rambunctious renegade seem saintly, this book will help you channel your dog's energy and turn her into a cool, calm, and collected companion.

**In Search of Mary Shelley: The Girl Who Wrote Frankenstein**

Dogwise Publishing

Hunting Success Begins Here! In Tom Dokken's Retriever Training, America's leading trainer helps you channel your hunting dog's huge ambition so he works for you, the way you want, and does so happily. After using the time-tested methods in Tom Dokken's Retriever Training, you'll have a reliable retriever that:

- Obeys commands on- and off-leash •
- Retrieves birds to hand •
- Remains steady to shot •
- Quarters and flushes upland game •
- Finds downed birds •
- Takes hand signals

\*Howell Book House

Covers breeding, training and health issues for this strong breed from Japan.

*Cesar's Way* Simon and Schuster

"Traditional gundog training is based on compulsion and rooted in a picture of the dog's nature as similar to a wolf with much emphasis on dominance and subordination. Milner turns that theory upside down citing research which finds that wolf packs operate in cooperative family groups with minimal factors of dominance. Dogs, Milner

believes, learn much faster with a cooperative training model. Milner has chucked compulsion and embraced reward as the primary training tool. He gives the reader a simple, reasonable easy-to-perform training model. His extensive practical experience leads him to condense gundog training down to a few critical behaviors. Milner gives the reader clear concise instructions producing those behaviors to develop an excellent gundog who excels also as a family dog. This is a book on how to manage the strong instincts of retrievers and influence them to work for you and with you to produce a valuable companion that enhances your outdoors experience, be it hunting ducks, or fishing for trout, or hiking in the back country."--Page [4] cover.

**Kids And Dogs**

Everything

Outlines a program to successfully train dogs shown in both conformation competition and obedience trials

Search and Rescue Dogs

Dogwise Publishing

Jeffrey B. Burton's *The Finders* marks the beginning of a fast-paced new mystery series featuring a heroic golden retriever cadaver dog

named Vira and her handler, Mason Reid. Mason "Mace" Reid lives on the outskirts of Chicago and specializes in human remains detection. He trains dogs to hunt for the dead. Reid's coming off a taxing year—mourning the death of a beloved springer spaniel as well as the

dissolution of his marriage. He adopts a rescue dog with a mysterious past—a golden retriever named Vira. And when Reid begins training Vira as a cadaver dog, he comes to realize just how special the newest addition to his family truly is... Suddenly,

Reid and his prize pupil find themselves hurled into a taxing murder case, which will push them to their very limits. Paired with determined Chicago Police Officer Kippy Gimm, Mace must put all his trust in Vira's abilities to thwart a serial killer who has now set his sights on Mace himself.
