In a business world where

we are told that time is money, the real currency is communicating clearly at a poised and measured pace. *Better Business Speech: Techniques, Tricks, and Shortcuts for Public Speaking at Work* by Paul Geiger focuses on the challenges of being a strong communicator in a range of business settings. It begins with the basic premise that all speaking for business is public speaking. Therefore, these are the communication scenarios where any lack of confidence in speech

ability will be magnified. The obstacles that stand in the way of successful meetings, presentations, networking events, job interviews, and sales calls are all clearly described. Seasoned speech coach Paul Geiger offers tricks, techniques, and shortcuts that all seem shockingly simple; but it is the retraining of the mind and body that is the hard part. He details practical daily exercises that lead to better speech habits and addresses the causes of ineffective speech pattern in both personal and

business settings. The physical and mental aspects of speech are explored in the context of forming a strong speech technique foundation that never loses sight of the importance of always sounding authentic. By offering action steps and helpful online tutorials, Geiger provides readers with the tools necessary to make lasting changes that will enhance speaking skills in all facets of business life. The room darkens and grows hushed, all eyes to the front as the screen comes to life. Eagerly the audience starts to thumb

the pages of their handouts, following along breathlessly as the slides go by one after the other... We're not sure what the expected outcome was when PowerPoint first emerged as the industry standard model of presentation, but reality has shown few positive results. Research reveals that there is much about this format that audiences positively dislike, and that the old school rules of classical rhetoric are still as effective as they ever were for maximizing

impact. Renowned communications researcher, consultant, and speech coach Max Atkinson presents these findings and more in a groundbreaking and refreshing approach that highlights the secrets of successful communication, and shows how anyone can put these into practice and become an effective speaker or presenter. Topics Include: DT How to win and hold the attention of audiences; DT Using visual aids and PowerPoint more

effectively; DT Getting your message across and winning applause; DT Inspiring audiences; DT How to prepare quickly; DT Fact and fiction about body language and non-verbal communication

Public Speaking for Criminal Justice Professionals: A Manner of Speaking is a one-of-a-kind public speaking guide specifically written for criminal justice professionals, written by a criminal justice professional. Author Thomas Mauriello has

worked his entire professional career both as a practitioner and as an educator in the fields of criminal justice and forensic science. This book outlines the public speaking skills he has learned, used, and taught to thousands of criminal justice, forensic science, security, and counterintelligence professionals over the years. The book can either be read from cover-to-cover—to fine tune the reader's existing oral communication skills—or read in a modular fashion,

as a reference guide to focus on certain skills and techniques. A list of over 55 proven, effective presentation tools will be listed, discussed, and demonstrated throughout the book—using illustrated criminal justice and forensic sciences topic examples. Contrary to popular believe, simply knowing your subject or being an expert in the subject does not guarantee a successful presentation. Aristotle, who many recognize as the Father of Public Speaking and Forensic

Debate, said it best when he declared, "It is not enough to know what to say, one must know how to say it." This guide focuses on technique and the recognition that a speaker must have of both the subject and the listener. The purpose is to improve readers' skill level and ability to engage and, thereby, inform the listener. Whether preparing to speak to one person, or one thousand people, *Public Speaking for Criminal Justice Professionals* provides specific techniques for

professionals to speaking with confidence, and present effective engaging presentations.
