Recalculating Ten Speed Press

A leading workplace expert provides an inspirational, practical, and forward-looking career playbook for recent grads, career changers, and transitioning

professionals looking to thrive in today's rapidly evolving workplace. Covid-19 has heightened career uncertainty in a work landscape dominated by turbulence and change, and it is directly impacting how people are entering—or re-entering—the workplace. But as Lindsey Pollak makes clear, the pandemic merely accelerated career and hiring trends that have been building. Changes that were once slowly spreading have been rapidly implemented

across all industries. This means that the old job hunting and career success rules no longer apply. Job seekers of all generations and skill sets must learn how to thrive in this “new normal,” which will include a hybrid of remote and in-person experiences, increased reliance on virtual communication and automation, constant disruption, and renewed employer emphasis on workers’ health and well-being. While this new world is complicated and constantly evolving, you

won’t have to navigate it alone. For twenty years, Pollak has been following the trends and successfully advising young professionals and organizations on workplace success. Now, she guides you through the changes currently happening—and those to come. Combining insights from both experts and professionals across generations, she provides encouraging, strategic, and actionable advice on making lifelong decisions about education; building a resilient personal brand;

using virtual communication to remotely interview, network, and work; skilling and reskilling for the future; and maintaining self-care and mental health. Like your personal GPS, Pollak equips you to handle workplace obstacles, helping you see them as challenges to navigate rather than impossible roadblocks. There is no perfect path to a dream career, but with Recalculating you’ll be prepared with the necessary skills and tools

to succeed.

This book consists of two titles, which are the following: Book 1: Are you nervous about your job interview? Do you have the feeling that you are not prepared to face an invasive number of questions about your accomplishments and career choices? Well, have no fear, my friend. You are at the right address. This book can guide you along. Topics that will be discussed in

this book include how to make a lasting first impression, asking specific questions about your motivation, how to dress, what to bring, how to react on the phone (if applicable), how to show your interviewer that you are listening and interacting, etc. Book 2: This book will lead you in your next job interview. It will help you understand the reasons why interviewers ask specific questions and how to answer them. Being prepared for those questions can increase

your chances of getting the job you want. It will also show you which questions are smart to ask your potential future employer, because, as opposed to what some people may suppose, this is an important part of the interview to show how passionate you may be about your future job. Last but not least, most people forget to follow up and simply wait for the interviewer to contact them. This is a big mistake. If you want to stand out among the crowd, it is important to

follow up after the interview, and show how driven and motivated you are.
