PONCE ISRAEL

My First Year of School Starting school is a big thing for children and their parents/carers. This fun-filled activity book helps children get ready for school. Together with a grown up, children can learn about school and explore the things they are wondering about. This book was made by Banyule Community Health's We Love Stories and Olympic Village Primary School to support school transition. 2019 Preps and Grade 1s imagined back to when they were starting school and what they wish they knew. They shared their ideas with incoming 2020 Preps and together

we made this book.
