55 Corrective Exercises for Horses
 Trafalgar Square Books
 This book discusses ground-pole training for all disciplines and shows how you can make the most of precious schooling time. It provides quick and easy pole layouts, using just a handful of poles. Different exercises are given for each pole layout, so there is no need to move the poles during a session. Exercises range from the simple to the more intricate, with the inclusion of more transitions, lateral work, raised poles/cavalletti, or riding in a different gait. Claire Lilley explains how these pole exercises can help you to ride with precision and improve your horse's way of going, adhering to the scales of training. You can also use the different

layouts to check whether you are sitting straight, turning correctly, and riding transitions and lateral movements properly. She lists common rider faults for each exercise to help riders self-correct if schooling alone. As an experienced trainer herself, Claire knows that this book will prove an invaluable resource for riding instructors, providing a veritable cookbook of ideas for lesson plans. Poles are a great teaching tool, adding variety to every lesson and helping the teacher to explain lessons to the pupil. Teacher's tips are given for each exercise. Claire says: "Try the exercises for yourself and I'm sure you will be amazed at the improvements that can be made both in your riding technique and in your horse's way of going. You will never be bored with schooling again!"

 Faverot de Kerbrech's 'Methodical Dressage of the Saddle Horse' is considered the 'Bible of Baucherism'. Together with it, in 'Dressage of the Outdoor Horse' General de Lagarenne gives us the teaching of Faverot de Kerbrech. Both excellently translated by Michael L. M. Fletcher. FREE DOMESTIC MEDIA MAIL SHIPPING
 Francois Faverot de Kerbrech's (1837 1905) first riding master was his father, General Baron Faverot, student of Chevalier D'Abzac. At Saint Cyr, his teachers were students of the Count d'Aure. Faverot completed his studies by following Francois Baucher. Faverot became one of Baucher's favorite students. A horseman of great repute, he remained the loyal successor to the work of Francois Baucher. The Master Francois Baucher brought numerous modifications

to his first method of dressage. His best student, Faverot de Kerbrech gives us the definitive description and explanation of Baucher's second manner in his work: *Methodical Dressage of the Saddle Horse from the Last Teaching of Baucher*, recalled by one of his students (1891). Published twenty years after the death of Baucher, this work is the result of a quest to bring French equitation out of its academic approach; enriched by the experience of Baucher's most illustrious student. It is widely considered the best representation Baucher's second method. In *Dressage of the Outdoor Horse*, General de Lagarenne gives us the last teaching of Faverot de Kerbrech. This work consists of a simplified progression of the second manner of Baucher with regard to the preparation of a horse for outdoor riding. *Everyday Jumping for Riders and Instructions* J.A. Allen

This book is designed for training jumping riders and horses, whether schooling at home, or under instruction in group lessons or as individuals. It provides a collection of exercises, on the flat, and over poles and fences, as well as detailed background information on jumping technique and tips on how to achieve a clear round in faultless style. The book includes: the five stages of the horse's jump (approach, take-off, jump, landing, departure); the effects of the rider's position (i.e. what happens when the rider is tight with the reins, sits down too quickly, moves too quickly over a fence, or is in front of the movement or left behind it); fences to improve the horse's jump; overcoming typical problems and faults; flatwork exercises to improve the horse's canter and turning ability; pole work; grids and related distance; influencing the canter lead over a fence; building and riding courses; indoor cross-country practice; tables of distances; and notes on fence building.

Stride Control Trafalgar Square Books Originally published in France 1854 then translated into English in 1919 by John Swire. The author's methods are simple and practical. He treats a horse like a

human being he maintains that the rider can only influence his mount by placing it in such a position that the movement desired is the only possible one, and then stimulating it the placing being made easy by specially graduated exercises which supple the horse's will as well as his muscles. Contents Include: New method of giving the Rider a good Seat. Control and Distribution of Energy. The Suppling Exercises. Suppling the Hindquarters. The Use of the Horse's Energy by the Rider. Concentration of the Horse's Energy by the Rider. The Canter. Jumping. The Piaffer. Scheme of Work. A Concise Explanation of the Method by means of Question and Answer. . Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Home Farm Books are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. *Horse & Pony Jumping* Storey Publishing, LLC

In this handbook, Linda Allen teaches exercises every horse and rider ought to know, from the simplest skills to the most complex techniques. The jumping exercises start with basic work over and around poles to help horse and rider maintain a dialogue with each other. As the exercises progress, so do their complexity, teaching the rider correct balance, technique and confidence.

Jane Savoie's books have changed the way people ride. She was the first to promote mental training tools and techniques as integral to competitive riding success, and her cross-training concepts for the horse--how to use dressage fundamentals for every equestrian sport--have been called "not just a read, but a must read for every hunter-jumper rider" by George Morris, former Chef d'Equipe of the US Show Jumping Team. Now Savoie has created a book specifically for equestrian sports with a jumping component--hunter, jumper, equitation, and eventing. In *Dressage Between the Jumps*, she breaks down the six most common problem areas she sees when horses jump: "whoa" and "go;" rhythm; suppleness through the poll, neck, body, back, and hindquarters; contact and connection; collection; and flying changes. Then she fills the rider's toolbox with targeted exercises on the flat--simple solutions to the nagging problems that prevent riders and horses from doing their

best over all kinds of obstacles. Her excellent lessons gradually incorporate ground poles and low fences to build skills without stressing the horse's body. Throughout, top riders share their own stories and insight, demonstrating numerous ways dressage exercises helped solve real problems over fences. With incredible clarity and her trademark enthusiasm, Savoie arms readers with knowledge, confidence, and problem-solving prowess that will result not only in clear rounds, but a happier horse, ready and willing to perform in partnership.
