 The winningest man in barbecue shares the secrets of his success. Rule number one? Keep it simple. In the world of competitive barbecue, nobody's won more prize money, more trophies, or more adulation than Myron Mixon. And he comes by it honestly: From the time he was old enough to stoke a pit, Mixon learned the art of barbecue at his father's side. He grew up to expand his parent's sauce business, Jack's Old South, and in the process became the leader of the winningest team in competitive barbecue. It's Mixon's combination of killer instinct and killer recipes that has led him to three world championships and more than 180

grand championships and made him the breakout star of TLC's BBQ Pitmasters. Now, for the first time, Mixon's stepping out from behind his rig to teach you how he does it. Rule number one: People always try to overthink barbecue and make it complicated. Don't do it! Mixon will show you how you can apply his "keep it simple" mantra in your own backyard. He'll take you to the front lines of barbecue and teach you how to turn out 'cue like a seasoned pro. You'll learn to cook like Mixon does when he's on the road competing and when he's at home, with great tips on • the basics, from choosing the right wood to getting the best smoker or grill • the formulas for the marinades, rubs, injections, and sauces you'll need • the perfect ways to cook up hog, ribs, brisket, and chicken, including Mixon's famous Cupcake Chicken Mixon shares more than 75 of his award-winning

recipes—including one for the most sinful burger you'll ever eat—and advice that will end any anxiety over cooking times and temps and change your backyard barbecues forever. He also fills you in on how he rose to the top of the competitive barbecue universe and his secrets for succulent success. Complete with mouth-watering photos, *Smokin' with Myron Mixon* will fire you up for a tasty time.

The Social Construction of Technological Systems, anniversary edition Pine Forge Press

Illuminating Social Life has enjoyed increasing popularity with each edition. It is the only book designed for undergraduate teaching that shows today's students how classical and contemporary social theories can be used to shed new light on such topics as the internet, the world of work, fast food restaurants, shopping malls, alcohol use,

body building, sales and service, and new religious movements. A perfect complement for the sociological theory course, it offers 13 original essays by leading scholars in the field who are also experienced undergraduate theory teachers. Substantial introductions by the editor link the applied essays to a complete review of the classical and modern social theories used in the book.

State Persecution and Vulnerability

Verso Books

For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Strengthen programs of family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students' education, more students succeed in school. Based on 30 years of research and fieldwork, the fourth edition of the bestseller *School, Family, and Community Partnerships: Your Handbook for Action*, presents tools and guidelines to help develop more effective and more equitable programs of family and community engagement. Written by a team of well-known experts, it provides a theory and framework of six types of involvement for action; up-to-date research on school, family, and community collaboration; and new materials for professional development and on-going technical assistance. Readers also will find: Examples of best practices on the six types of involvement from preschools, and elementary, middle, and high schools Checklists, templates, and evaluations to plan goal-linked partnership programs and assess progress CD-ROM with slides and notes for two presentations: A new awareness session to orient colleagues on the major components of a research-based partnership program, and a full One-Day Team Training Workshop to prepare school teams to develop their partnership programs. As a foundational text, this handbook demonstrates a proven approach to implement and sustain inclusive, goal-linked programs of partnership. It shows how a good partnership program is an essential component of good school organization and school improvement for student success. This book will help every district and all schools strengthen and continually improve their programs of family and community engagement.

Weber's Big Book of Grilling Fernwood Publishing

An anniversary edition of an influential book that introduced a groundbreaking approach to the study of science, technology, and society. This pioneering book, first published in 1987, launched the new field of social studies of technology. It introduced a method of inquiry—social construction of technology, or SCOT—that became a key part of the wider discipline of science and technology studies. The book helped the MIT Press shape its STS list and inspired the Inside Technology series. The thirteen essays in the book tell

stories about such varied technologies as thirteenth-century galleys, eighteenth-century cooking stoves, and twentieth-century missile systems. Taken together, they affirm the fruitfulness of an approach to the study of technology that gives equal weight to technical, social, economic, and political questions, and they demonstrate the illuminating effects of the integration of empirics and theory. The approaches in this volume—collectively called SCOT (after the volume's title) have since broadened their scope, and twenty-five years after the publication of this book, it is difficult to think of a technology that has not been studied from a SCOT perspective and impossible to think of a technology that cannot be studied that way.

20 Best Slow Cooker Dinner Recipes

Vintage

Disarmament, Demobilization, and Reintegration (DDR) and Security Sector Reform (SSR) have emerged in recent years as promising though generally poorly understood mechanisms for consolidating stability and reasserting state sovereignty after conflict. Despite the considerable experience acquired by the international community, the critical interrelationship between DDR and SSR and the ability to use these mechanisms with consistent success remain less than optimally developed. The chapters in this book reflect a diversity of field experience and research in DDR and SSR, which suggest that these are complex and interrelated systems, with underlying political attributes. Successful application of DDR and SSR requires the setting aside of preconceived assumptions or formulas, and should be viewed flexibly to restore to the state the monopoly of force.

The New Spirit of Capitalism Routledge

This book covers both theory and practice for the trainee who wants to understand not only how, but why electrical installations are designed, installed and tested in particular ways. It complies with the latest IEE Wiring Regulations.

Managing California's Water Royal Society of Chemistry

Through a cross-national lens Political Corruption and Democratic Governance explores political corruption and how it influences electoral politics, political trust, citizens' evaluations of democratic norms and values, economic development, and distributional justice in both developed and developing nations.

Discipline and Punish Courier

Corporation

A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the

abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

Overview of the Privacy Act of 1974
HarperCollins

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

Smokin' with Myron Mixon World Bank Publications

In recent years, several new concepts have emerged in the field of stratospheric ozone depletion, creating a need for a concise in-depth publication covering the ozone-climate issue. This monograph fills that void in the literature and gives detailed treatment of recent advances in the field of stratospheric ozone depletion. It puts particular emphasis on the coupling between changes in the ozone layer and atmospheric change caused by a changing climate. The book, written by leading experts in the field, brings the reader the

most recent research in this area and fills the gap between advanced textbooks and assessments.

Meathead Independently Published

The landing of the American forces on Leyte on 20 October 1944 brought to fruition the long-cherished desire of General Douglas MacArthur to return to the Philippine Islands and avenge the humiliating reverses suffered in the early days of World War II. The successful conclusion of the campaign separated the Japanese-held Philippine Archipelago into two parts, with a strong American force between them. More important, it completed the severance of the Japanese mainland from the stolen southern empire in the Netherlands Indies from which oil, the lifeblood of modern warfare, had come. The Leyte Campaign, like other campaigns in the Pacific, was waged on the land, in the air, and on and under the sea. In this operation all branches of the American armed forces played significant roles. Therefore, although the emphasis in this volume is placed upon the deeds of the United States Army ground soldier, the endeavors of the aviator, the sailor, the marine and the Filipino guerrilla have been integrated as far as possible into the story in order to make the campaign understandable in its entirety. At the same time, every effort has been made to give the Japanese side of the story.

Twenty simple slow cooker recipes for delicious dinners—from a name you can trust in the kitchen. Have Dinner Ready Before You Walk in the Door! You can't beat a slow cooker for ease and convenience—turn it on in the morning and dinner is waiting for you at night. The recipes collected here provide welcome diversity and fresh flavors; try Tuscan Turkey and Beans, German Red Cabbage and Pork Ribs, and Caramelized Onion Beef Stew. Whatever you pick, you'll love having dinner ready right when you want it. Features Photos of Every Recipe!

The Puppet Masters Corwin Press

Dr. Greg Zacharias, former Chief Scientist of the United States Air Force (2015-18), explores next steps in autonomous systems (AS) development, fielding, and training. Rapid advances in AS development and artificial intelligence (AI) research will change how we think about machines, whether they are individual vehicle platforms or networked enterprises. The payoff will be considerable, affording the US military significant protection for aviators, greater effectiveness in employment, and unlimited opportunities for novel and disruptive concepts of operations.

Autonomous Horizons: The Way Forward identifies issues and makes recommendations for the Air Force to take full advantage of this transformational technology.

Writing and Designing Manuals and Warnings 4e Houghton Mifflin Harcourt Pursuing justice is daunting. It plays out in a variety of contexts — like the environment, employment, the criminal justice system — and raises tough issues like racism, gender discrimination and poverty. But ultimately the aim of studying justice is to achieve it. This book is about justice in Canada: its definition, its boundaries, its contradictions and its nuances. It is also about the mechanisms and practices that enable the pursuit of justice. It problematizes the notion of justice while defining and pursuing the illusive notion of justice in Canadian society. This second edition features updated content from the popular first edition as well as new content about social justice and racism, the experiences of racialized persons with police, settler colonialism and issues of justice for gender and sexual minorities — all from a Canadian perspective. Additionally, each chapter contains objectives of the chapter, case studies and discussion questions.

Hey Gorgeous! Welcome to Tone It Up, a worldwide community of amazing girlfriends who support and encourage each other to live our happiest, healthiest lives. As women, we so often focus on others, but a balanced and beautiful life means prioritizing yourself so you can truly be the version of you. The best way to do that is by combining a nutritious diet, active lifestyle, and most importantly, by spreading positivity and boosting each other up. Whether you're sharing workouts or wine, female friendship is so important—plus it makes fitness a lot more fun! BALANCED AND BEAUTIFUL is a guide to focusing on the amazing woman that is you, with a 5-day plan to Refresh,

Motivate, Inspire, Energize, and last but not least, Relax. Filled with daily fitness routines, delicious recipes, wisdom to transform your mindset, and all the love and advice of the TIU community, Karena and Katrina make it easier than ever to reach your goals and feel great. Each day, you'll find tips and advice for every aspect of your journey, told through fun and fascinating stories and secrets that will be like having your best girlfriend along for the ride. Throughout these pages, you'll feel empowered, uplifted, and connected—with the entire TIU community behind you, cheering you on towards your most confident, centered self. Ready to reset? Feeling BALANCED AND BEAUTIFUL is only 5 days away!
