Culled from business headlines and corporate files, *Why Smart People Do Dumb Things* is an in-depth examination of the ultimate in boardroom breakdown--a postmortem of the mega-mistakes made by highly regarded leaders in business and public life. From the "New Coke" debacle to the poor subscription showing of the Olympic Triplecast to the swirling controversy of Whitewater, Feinberg describes how strong minds can misuse their power, and why bright people often seize upon--and advocate brilliantly--ideas that others recognize as ridiculous.

The Cognitive Behavioral Analysis System of Psychotherapy (CBASP) is a set of techniques that has proven to be efficacious in the treatment of chronic depression. This book describes ways in which it can be extended in the treatment of patients with a wide variety of psychological disorders and difficulties, in a wide variety of settings. Vivid case illustrations and session transcripts illuminate the authors' presentation of appropriate modifications and implementations of the basic approach for personality and anxiety disorders, behavior problems in children, couples distress, and anger. The approach is flexible, efficient, and simple to train. One chapter focuses on methods for helping parents to help their own children more effectively. CBASP has been shown to work both for patients with severe psychological symptoms and for those with more common everyday problems; both for those who are psychologically sophisticated and for those who are not. *Simple Treatments for Complex Problems* offers powerful new tools for the clinical armamentarium of mental health professionals who do psychotherapy, and the conceptual armamentarium of those who train them and study treatment effectiveness.

Ten Dumb Things Churches Do is about making the system we call the local church into one that truly reflects what we believe the body of Christ is supposed to be--a community that exemplifies the gospel through its life together and its presence in the world. Knowing when we've done that, however, is difficult to measure. A business makes money, the Red Cross provides emergency relief, and a symphony orchestra makes beautiful music. But what exactly is the church supposed to do and how should it do that? Based on his years as an Episcopal priest and church consultant, Philip Wiehe writes here about the church as it is today and how we will need to retrofit it to fulfill its mission in the years to come. Along the way he exposes ten dumb things--traps that churches often fall into, including: being too business-like or not business-like enough; failing to do strategic planning; falling into the mission statement trap; making decisions poorly; internal turf wars; being confused about identity; and others. Written in an engaging and accessible style, Wiehe provides clergy and lay leaders of congregations with specific steps for undoing the messes they find themselves in, or even avoiding them altogether.

The fundamental importance of Christianity for Jung is well documented in his writings and letters. For the whole of his long career the great psychologist had wrestled with what he called " ... the great snake of the centuries. the burden of the human mind. the problem of Christianity." By comparison, his statements about Hegel are quite scarce. Both topics, nevertheless, have in common that they elicited from Jung radical accusations, accusations not presented in the calm tone of a psychological scholar but fired by a deep-seated personal affect that propelled Jung to wish "to dream the myth onwards," that is, to move to a new, his own improved and corrected version of Christianity. Rather than merely portraying and elucidating Jung's views, this volume critically examines his theses and arguments by means of a series of close readings and by confronting his claims with the texts on which his interpretations are based. The guiding principle, in the spirit of which the author's investigation is conducted, is the question of the needs of the soul and the standards of true psychology. While constantly bearing these needs and standards in mind, diverse topics are discussed in depth: Jung's interpretation of a dream he had had about being unable to completely bow down before "the highest presence," his thesis concerning the patriarchal neglect of the feminine principle, his views about the alleged one-sidedness of Christianity, the "recalcitrant Fourth" and the "reality of Evil," his understanding of the Trinity and the spirit, his rejection of Hegel and of speculative thought, and his reaction to the modern "doubt that has killed" religious faith. A companion to the preceding volume, *The Flight into the Unconscious*, the essays collected here continue its radical critique of Jung's psychology project, yielding not only deep insights into Jung's personal religiosity and into what ultimately drove his psychology project as a whole, but granting as well a more sophisticated understanding of the psychological potential and telos of the Christian idea.

Bestselling author Jim Benton is back, continuing a new spin on a favorite series! Dear Dumb Diary, just when I was pretty sure we could let the Student Awareness Committee quietly die a dignified death like some majestic old elephant or the Square Dancing Club, Angeline has to be aware of something. Great. And, of course, it couldn't be something interesting like nail polish or why maybe there should be a special class in nail polish and how to get it out of your beagle's ear. (Mom, if you're reading this, I'm not admitting anything. Somebody else could have painted a heart in his ear.) Angeline just had to be aware of one of those THINGS THAT ADULTS LIKE.

Return to Mackerel Middle School with a special full-color extra-dumb diary from the New York Times–bestselling author! Life at Mackerel Middle School is as dumb as ever—but Jamie Kelly may have finally found the key to fame, fortune, and fabulousness. Together with Isabella and Angeline, she’s come up with a moneymaking idea, and it has to do with food. Everyone likes food! They’re going to be rich! The only problem? They have to come up with something that people actually want to eat. Jamie has some sophisticated thoughts on food, like, “She was manipulating us like dough. Like the sweet, delicious dough that we are. And she was baking us into the type of delicious cookies you can only get from dough like us. And she was putting sprinkles of us on top of us, and—forget it. I’m hungry. I want some cookies.” This is sure to go well. Praise for Jim Benton’s books “An amusing antic sensibility.” —Publishers Weekly “Preteens will be onboard immediately.” —Kirkus Reviews

Read the hilarious, candid (and sometimes not-so-nice), diaries of Jamie Kelly, who promises that everything in her diary is true -- or at least as true as it needs to be. They were just a soft, ordinary pair of thrift-shop jeans until Jamie Kelly tried them on . . . Then they became a tight, scratchy, slightly smelly, and utterly ordinary pair of thrift-shop jeans with an embarrassing haunting problem. Do the pants have the power to soothe a vengeful beagle, vanquish The Prettiest Girl in the World, or make the wearer irresistible to the eighth cutest guy in the grade? Are the haunted pants so dazzling they can hurt and maybe permanently damage the eyes of onlookers? Or are the haunted pants just, well, haunted (which is kind of gross when you think about it)?

There was a little girl living a secret life, a life of repeated abuse, a little girl whose own mother walked off and left her to fend for herself. She lived with these secrets for years never knowing what it was like to love or how to be loved. She went through life as a shadow always following and never

doing. She locked herself away in her mind so she wouldn't have to think or cope with everyday life. She felt she had no one to turn to, no one to help her, so she suffered silently. After years of sorrow and a life darkened by abuse, God introduced Himself in a marvelous way. He offered her a way out of the cloud that covered her from the abuse. He has helped her rise above the abuse and walk in a glorious light paved with His love.

Ruehl's irreverent wit and ability to puncture pretentiousness with a well-turned phrase gave thousands of dedicated readers a good reason to read the paper back to front on the days the column appeared. His descriptions of growing up with teenage children are laugh-out-loud funny (well, for parents), and a younger generation of readers decided he was cool, with his constant satirical references to their music, dress and approach to life. Politicians sometimes winced but knew his hilarious descriptions of what was really going on in Canberra resonated more loudly than any press release. Peter Ruehl never lost his distinctive American style but he was able to understand Australian culture and to write about it and his views in a passionately funny and deeply personal way. Greg Hywood, chief executive of Fairfax, says he became a 'national institution'.
