## WALLS LOGAN

---

### **Locksmith Business Book** Chalice Press

Michael Steinhardt left a stellar career on Wall Street and spent the next three decades launching revolutionary philanthropic programs like Birthright Israel and OneTable that offer a proud, rich future for the next generation of secular American Jews. What are the keys to a proud Jewish life? Part memoir, part manifesto, Michael Steinhardt's Jewish Pride offers a compelling vision for a rich, rewarding future for Jews in America and around the world. From his middle class beginnings in Brooklyn to a spectacular Wall Street career, Steinhardt understood that apathy and assimilation were threatening the Jewish future in America. Meanwhile established Jewish institutions were failing in the urgent task of strengthening secular Jewish identity. Using his own capital and the wisdom and connections he'd gained in his successful business career, Steinhardt recruited partners, focused on data and results, and even got the Israeli government to help launch the revolutionary Birthright program. By turns provocative, inspiring, revealing, and outright hilarious, Jewish Pride captures its author's unique personality and outlook and offers honest talk about the Jewish world today, along with a bold prescription for revitalizing Jewish life in the future.

### *Small Engine Repair Business Book* Simon and Schuster

Current funding opportunities targeted at K-12 schools and school districts for computers, software and other essential technology are provided in a user-friendly directory format. Finding available funding for your school technology needs has never been easier or more cost effective than with this directory. Provides a fast course on the grant application process For The neophyte fundraiser. Each listing includes complete contact information, application information deadlines and more.

Grantseekers can go directly to funders to establish a relationship and win money for their programs The book features: an introduction explaining the grantseeking process Funder Profiles Sample Forms Indexes

### **Power Failure** InterVarsity Press

Presents a call to redeem and restrain technology through everyday Christian practices and sacraments, identifying dangers related to technology-driven lifestyles while outlining the steps and benefits of citizen-based decision-making and daily Scripture reading.

### Interfaith Leadership National Academies Press

This collection brings together legal scholars, canonists and political scientists to focus on the issue of public funding in support of religious activities and institutions in Europe. The study begins by revolving around the various mechanisms put in place by the domestic legal systems, as well as those resulting from the European law of human rights and the law of the European Union. It then goes on to look at state support and particular religious groups. The presentation of European and national law is supplemented by theoretical and interdisciplinary contributions, with the main focus being to bring into discussion and map the relationship between the funding of religions and the economy and to infer from it an attempt at a systematic examination or theorization of such

funding. This collection is essential reading for those studying Law and Religion, with particular focus on the countries of the UK, France, Belgium, Germany, Italy, The Netherlands, Spain and Turkey. The views expressed during the execution of the RELIGARE project, in whatever form and or by whatever medium, are the sole responsibility of the authors. The European Union is not liable for any use that may be made of the information contained therein.

### *Theology, Ethics, and Technology in the Work of Jacques Ellul and Paul Virilio* Springer Nature

This all-in-one resource for researching library and school grants is back in a new edition, and more useful than ever, offering refreshed content and even more guidance on locating grant funding sources.

### High-Tech Worship? Canongate Books

Pastor Bill Hybels believes that there is a new reality in America. The church has entered an era of growth and unprecedented spiritual opportunity to share the Gospel, yet at the same time we face a shrinking economy and a world in crisis. This poses a great resource challenge for the church. In order to reach out to people who are spiritually hungry, the church needs more people to be equipped to serve others. Hybels passionately believes the key to the future of the church is the equation "X (paid staff) + Y (volunteers) = Z (bearing much fruit for God's glory)." Churches cannot afford to continue hiring more and more staff with limited budgets. The key to resourcing the church is what Hybels calls "the Y factor." The Y factor is the pool of volunteers in every church. The great need of the church is to grow the church's volunteer base through the equipping ministry of church staffs. As churches recover the message of Ephesians 4:11-12 to "equip God's people for works of service" they will launch a Volunteer Revolution. People are just waiting to discover the gifts and passions that God has given them to serve others and then be invited to use those gifts and passions through the local church in order to advance the kingdom of God on Earth. Hybels believes that every church staff should be helping people discover their spiritual gifts, passions and place of service in order to meet the growing needs in our churches and world. Hybels makes a clarion call to move beyond volunteer retention to volunteer acquisition. By attracting, connecting, training, and sustaining volunteers, churches will mobilize people into places of service that will bring new meaning to their lives and understand why God put them on planet Earth. Hybels also outlines how we can build lifelong volunteers in the church through community, celebration, and commendation. *Church, Market, and Media* MennoMedia, Inc.

This book examines connections between sociologist-theologian Jacques Ellul and philosopher-phenomenologist Paul Virilio. As it explores the postwar France context and compares their works on technology, it identifies the components of a nascent theological tradition that exposes, and attempts to dismantle, modernity's primary idol: technology.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. *Technopoly* Rowman & Littlefield

Called a "must read for Christians paralyzed in survival mode," *Holy Currencies* teaches you how your ministry can become sustainable, grow, and thrive. Money is not the only currency your ministry needs. Author Eric H. F. Law shows us how the six blessings of time and place, gracious leadership, relationship, truth, wellness, and money flow through successful missional ministries. And they can flow through your ministry too! Learn how to use these gifts to rejuvenate, recirculate, regenerate, and expand your ministry through Law's insightful stories, instruction, processes, exercises, and activities. Tools in the book help evaluate how your church uses each gift and enables church members to measure and value the six blessings. *Holy Currencies* will push you to think beyond your church's current boundaries and create rich, sustainable missional ministries.

There's no available information at this time. Author will provide once information is available.

*Public Funding of Religions in Europe* Oxford University Press

This book explores the church's engagement with worship and theology as a result of the pandemic, especially as it relates to digital worship and the means of grace. Organized around the four-fold pattern of Sunday worship—Gathering, Word, Meal, Sending—this collection of essays provides source material for both theological discernment and practical implementation. Topics include preparing and theologizing worship no matter the modality, engaging the questions of embodiment as related to the incarnation of Christ, and looking at the theology of church in a digital age. Renowned scholars in the field explore how online worship provides for the visibility of the gospel, how to lament and pray in the midst of pandemic and future crises, and how the mission of the church through its worship can continue regardless of physical restrictions. This timely collection appeals to researchers, professionals, and practitioners in the field.

*Communities in Action* Penguin

The United States Census Bureau calculates more than 4,000 churches close their doors each year, compared to just over 1,000 new church starts. So the net loss each year is 3,000 churches! This is the story of one church that did not. "Christ in the Heart of San Diego" was a 26,000 square-foot building used mostly for an hour on Sunday mornings. Once the largest Evangelical United Brethren Church west of the Rockies, Christ Church had declined from 700 members to an average worship attendance of 40. Today, Christ Ministry Center (CMC) opens our doors at 6:30 a.m. and closes them at 9:30 p.m. SEVEN DAYS A WEEK! We touch over 1,200 lives every week, offering "abundant help" for spiritual and physical necessities. CMC is completely self-sustaining, with no additional funds from the denomination or grants to operate. "The NOT FOR SALE Church" is the story of how God brought new life and purpose to a dying urban church. The Ministry Center Model tells the story of what lessons learned and universal principles that may help other churches facing closure.

**National Guide to Funding for Information Technology** Forgotten Books

Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise—most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture—particularly the religious middlebrow of mid-century—as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book

culture not only shows how reading and book buying were critical twentieth-century religious practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

**Holy Currencies** Aspen Pub

The loss of hearing - be it gradual or acute, mild or severe, present since birth or acquired in older age - can have significant effects on one's communication abilities, quality of life, social participation, and health. Despite this, many people with hearing loss do not seek or receive hearing health care. The reasons are numerous, complex, and often interconnected. For some, hearing health care is not affordable. For others, the appropriate services are difficult to access, or individuals do not know how or where to access them. Others may not want to deal with the stigma that they and society may associate with needing hearing health care and obtaining that care. Still others do not recognize they need hearing health care, as hearing loss is an invisible health condition that often worsens gradually over time. In the United States, an estimated 30 million individuals (12.7 percent of Americans ages 12 years or older) have hearing loss. Globally, hearing loss has been identified as the fifth leading cause of years lived with disability. Successful hearing health care enables individuals with hearing loss to have the freedom to communicate in their environments in ways that are culturally appropriate and that preserve their dignity and function. *Hearing Health Care for Adults* focuses on improving the accessibility and affordability of hearing health care for adults of all ages. This study examines the hearing health care system, with a focus on non-surgical technologies and services, and offers recommendations for improving access to, the affordability of, and the quality of hearing health care for adults of all ages.

[The Rise of Liberal Religion](#) Jewish Pride

A guide for students, groups, and organizations seeking to foster interfaith dialogue and promote understanding across religious lines In this book, renowned interfaith leader Eboo Patel offers a clear, detailed, and practical guide to interfaith leadership, illustrated with compelling examples. Patel explains what interfaith leadership is and explores the core competencies and skills of interfaith leadership, before turning to the issues interfaith leaders face and how they can prepare to solve them. Interfaith leaders seek points of connection and commonality—in their neighborhoods, schools, college campuses, companies, organizations, hospitals, and other spaces where people of different faiths interact with one another. While it can be challenging to navigate the differences and disagreements that can arise from these interactions, skilled interfaith leaders are vital if we are to have a strong, religiously diverse democracy. This primer presents readers with the philosophical underpinnings of interfaith theory and outlines the skills necessary to practice interfaith leadership today.

**Grant\$ for Science and Technology Programs** Createspace Independent Publishing Platform In this witty, often terrifying work of cultural criticism, the author of *Amusing Ourselves to Death* chronicles our transformation into a Technopoly: a society that no longer merely uses technology as a support system but instead is shaped by it—with radical consequences for the meanings of politics, art, education, intelligence, and truth.
